## ROWING.

## YALE VS. HARVARD—VARSITY EIGHTS.

YALE and Harvard eights have rowed forty-nine races, beginning in 1852 on Lake Winipiseogee at two miles, when Harvard won. In 1855 the course was changed to Springfield and lengthened to three miles. Lake Quinsigamond was the scene for nine years, and Lake Saltonstall for 1869. After an interval of seven years the crews in 1876-77 went to Springfield, Mass., when the four-mile course was inaugurated. In 1878 the crews changed again to New London, Ct. For records prior to 1889 see 1914 ALMANAC.

## POLO.

THERE was no international match between representative teams of the United States and Great Britain and the International Challenge Cup remains therefore in possession of England. Previous cup matches: 1886, at Newport, Great Britain won by 10 to 4 and 14 to 2; 1900, Hurlingham Club, one game, Great Britain won, 8 to 2; 1902, Hurlingham Club, first game, America won, 2 to 1; second and third games, Great Britain won, 6 to 1 and 7 to 1; 1909, Hurlingham Club, America won, 9 to 5 and 8 to 2; 1911, Meadow Brook Club, America won, 4½ to 3 and 4½ to 3½; 1913, Meadow Brook Club, America won, 5½ to 3 and 4½ to 4½; 1914, at Meadow Brook Club Field, Westbury, L. I., Great Britain won in two straight games by 8½ to 3 and 4 to 2½.

The polo championship of America was won by Meadow Brook Club (Raymond Belmont, J. M. Waterbury, Malcolm Stevenson and Devereux Milburn) at Narragansett Pier, R. I., July 31, defeating Great Neck by 14 to ½.

General activity and number of matches played equalled those of 1914, and the most prominent teams were: Meadow Brook Club, Great Neck, Cooperstown, Point Judith, Philadelphia Country Club, Bryn Mawr, Fifth United States Cavalry team, Aiken, Piping Rock, Rumson, Islip, Devon.

## CHESS.

ACTIVITY in chess matters was naturally lessened during 1915 owing to the war, but the players in this country were fairly busy. The first of the year was notable for the return of José R. Capablanca, who had left Europe after the outbreak of the war and gone to South America. Upon his return to New York he took part in the National tournament and captured first prize without the loss of a game. In Brooklyn, on February 22, he set a new record for simultaneous play by conducting sixty-five games against eighty-four opponents simultaneously. Very soon after, at Portland, Ore., F. J. Marshall, the United States champion, surpassed that record with a similar exhibition on ninety-two boards.

Twenty-third Intercollegiate Tourney—New York, December 28, 29, and 30, 1914. Won by Columbia, with total of 10—2. Other scores: Princeton, 5 1/2—6 1/2; Harvard, 5—7; Yale, 3 1/2—8 1/2. The winning team was: Columbia—1, H. E. Leede, '17; 2, A. P. Sachs, P. G.; 3, A. J. Mandell, '17; 4, E. F. Korkus, '17. The record: Columbia, 10 wins; Harvard 9; Yale 2; Princeton 1. In addition, Harvard and Yale tied in 1909. It was not played off.

Sixteenth Triangular College Chess League Tourney—New York, December 30 and 31, 1914, and January 1 and 2, 1915. Result: A tie between Cornell and Pennsylvania, with totals of 12—4; Brown third, with 0—16. The winning teams: Cornell—1, N. S. Perkins, C. E., '15; 2, W. Grafman, C. E., '15; 3, J. Grossman, Ag., '16; 4, J. Jokel, Ag., '16. Pennsylvania—1, Harry Kline, Vet., '17; 2, B. Winkelman, Law, '17; 3, J. Davis, Law, '16; 4, E. H. Bart, Ch. E., '16. The record: Pennsylvania 8, Cornell 5, Brown 0. In addition, Pennsylvania tied once with Brown and twice with Cornell.

Record Simultaneous Play—Brooklyn, February 22, J. R. Capablanca played 65 games (against 84 opponents), won 48, lost 5, and drew 12. Time—6 1/2 hours. Portland, Ore., February 23, F. J. Marshall played 92 games, won 77, lost 4, and drew 11.

New York State Championship—Brooklyn Chess Club, February 22. Championship tournament won by A. Kupchik, 4—0; R. T. Black and E. Simonson, each 3—1; H. Zirn, 2 1/2—1 1/2; C. Jaffe, 2—2. The general tourney was won by M. Smirka, 4—0.

New Jersey State Championship—West Hoboken, February 22. Championship tournament won by E. E. Cobb of Paterson, 3 1/2—1 1/2; B. J. Campbell of Hoboken, 0; Prante, West Hoboken, and M. W. Shor, Newark, each 3—1. Class A tourney won by D. Gottfried, 4—0. Class B tourney won by A. Esposito, 4—0.

## WILLARD-JOHNSON FIGHT

THE feature of the year in pugilism was the winning of the world's heavy weight championship by Jess Willard, challenger, who defeated Jack Johnson, the title holder, at Havana, Cuba, April 5, in 26 rounds. Johnson lay on his back until the twentieth round, but his hardest blows appeared to have but little effect upon Willard, who increased his speed and aggressiveness as the negro tired, and finally scored a knockout after one minute and twenty-six seconds of fighting in the twenty-sixth round with a left to the body and a right to the jaw.

Johnson, who won the undisputed title to the heavyweight championship by defeating Jim Jeffries at Reno, Nev., July 4, 1910, held the honors for four years and nine months. Including his victory over Tommy Burns at Sydney, Australia, December 26, 1908, his championship tenure covered a period of six years, three months and nine days. The first steps toward arranging a bout between Willard and Johnson were taken early in November, 1914, when a representative of the promoters went to England and secured the champion's signature to articles agreeing to box Willard from twenty to forty-five rounds for the sum of \$30,000 and the additional sum of \$2,000 for expenses.

The promoters selected the race track at Juarez, Mexico, just across the border from El Paso, as the scene, and Saturday, March 6, as the date of the fight. Johnson left England in December, planning to reach Mexico via South America, and arrived in Buenos Ayres in January. On February 8 he reached Barbados, British West Indies, from which place he arrived at Havana, Cuba, February 21. Johnson eventually refused to enter Mexico and Willard and his party, after training at El Paso from January 25, was forced to go to Cuba, where he landed on March 16.

Both fighters resumed training again and the contest was set for Saturday, April 3. Later the date was changed to Sunday, April 4, and when objections to the holding of the fight on Easter Sunday developed, the boxers agreed to meet on Monday, April 5. There were no further delays and challenger and defender entered the ring at the Oriental Race Track, Marianao, seven miles from Havana, shortly after 1.30 P. M. on that day, and the bell for the opening round rang at 1.54 P. M.

The battle was fought under a clear sky and hot sun, and it was estimated that between fifteen and seventeen thousand spectators witnessed the contest. The price of seats ranged from \$25 for ringside sections to \$5 for bleacher seats and \$3 for admission. Several squads of Cuban Rural Guards patrolled both inside and outside the track to preserve order. Five machines were used in taking moving pictures of the fight, which have been exhibited in Canada, South America and some parts of Europe, but not in the United States, due to interstate commerce regulations.

No official announcement of the gate receipts or the division of the same was made by the promoters. The receipts from all sources were placed at between \$60,000 and \$70,000. Out of this sum Johnson received \$32,000 and the remainder was divided between Willard and the promoters upon a percentage basis not made public. Willard's was understood, however, to have been less than that received by any heavyweight championship-winning pugilist in modern ring history.

Betting on the fight favored Johnson from the time the match was made until the pugilists entered the ring. In the early stages the negro was quoted as high as 2 to 1, but the odds fell steadily until the day of the fight, when 6 to 5 was the basis of the few wagers made around the ringside. Betting was light at all times, the biggest play being made in the mutual machines at the race track before and during the battle.

Both pugilists were carefully examined by physicians before entering the ring and each was declared to be in perfect physical condition. Willard had the advantage of height, weight, reach, and youth over Johnson, although the negro was conceded to be a far more skilful boxer. Both stepped on the scales in the ring and the weights were announced as Willard, 236 pounds; Johnson, 225 pounds, although it was understood that the pugilists exceeded this weight by from five to ten pounds each.

Willard was seconded by Tom Jones, Tex O'Rourke, Jim Savage, Walter Monahan, and Jack Hemple, while Johnson had in his corner Tom Flanagan, George Monroe, Sam McVey, Dave Mills, Bob Armstrong, and Colin Bell. The officials of the fight were: Referee, Jack Welsh, San Francisco; alternate referee, Matt Hinkel, Cleveland; official timekeeper and stakeholder, Bob Vernon, New York; timekeeper for Willard, Otto Floto, Denver; for Johnson, Sam Bennett, Toronto.

The physical statistics of the fighters were as follows:

## PUGILISTIC CHAMPIONS AND RECEIPTS.

All attempts to designate and classify the pugilistic champions and title holders are more or less arbitrary because of the fact that few such champions won and defended the championships at the same weight. Among the lighter weight boxers it is not at all unusual for a pugilist to be forced from one class into the next higher by growth and increased weight. The following list, dating from 1890, is generally accepted by critics and boxers as being the correct classification, although holders did not always win title from previous champions:

## AMERICAN AUTOMOBILE ASSOCIATION.

President—John A. Wilson. Vice-Presidents—H. M. Rowe, Ralph W. Smith, F. L. Baker, H. J. Clark, Preston Belvin. Chairman of Executive Board—A. G. Batchelder. Secretary—John N. Brooks. Treasurer—H. A. Bonnell. Headquarters, Riggs Building, Washington, D. C., and 437 Fifth Avenue, New York City.

The American Automobile Association is the national organization of motor car users. It was organized in 1902 and has a membership of over 70,000, subdivided into over 500 State and local clubs, besides which there are many individual members in the several States. Its main objects, briefly stated are: To unite in one body all the automobile clubs and individual motorists of the country to secure reasonable and just legislation; to aid in proper enforcement of automobile laws and ordinances; to advocate and obtain local, State and Federal aid in the construction and maintenance of good roads; to encourage touring and to secure, prepare and disseminate information relative thereto; and to support sportsmanlike contests and other movements that will advance motoring interests.

## THE AUTOMOBILE INDUSTRY.

## THE AUTOMOBILE BILL OF THE UNITED STATES.

On June 1, 1915, the number of automobiles in the United States was 2,000,000. Figuring on an average of four persons to each car, which is very conservative, there are 8,000,000 people in this country in daily enjoyment of motoring. What it costs to follow this sport is of interest, because of the stupendous figures involved. To run 2,000,000 cars for one year requires at the very least 1,000,000,000 gallons of "gas," worth \$130,000,000; 20,000,000 gallons of lubricating oil, worth \$8,000,000; 12,000,000 tires, worth not less than \$16 apiece, or \$192,000,000; accessories and extra comforts, goggles, gloves, and caps, \$50 per car, or \$100,000,000; garage charges on short tours (exclusive of gas and oil), \$100 per car per year, or \$200,000,000; repairs made necessary by wear, tear, and accident (exclusive of tires), \$50 per car per year, or \$100,000,000. Total running expenses for all cars in use, \$730,000,000. Add thereto the value of the 600,000 new cars purchased during the year, at an average price of \$750, or \$450,000,000, and we get the immense total of \$1,180,000,000 spent in a single year (1915) on the sport of motoring.—*Scientific American*.

## THE INDUSTRY IN NEW YORK STATE.

The tremendous growth in the use of motor vehicles in New York State is demonstrated by the registration and license figures, together with the total receipts since 1910. In the early years, however, annual registration was unnecessary, so that the figures up to 1910 do not show the total number of machines in operation, only those registered in each year. When the present law took effect in August, 1910, there was a re-registration of all machines. The official figures for the registration of cars, licensing of chauffeurs, with the total receipts, are:

| YEAR.     | Owners. | Chauffeurs. | Receipts. | YEAR.                         | Owners. | Chauffeurs. | Receipts.    |

| The European war caused the abandonment of many of the aeroplane and balloon races scheduled for the closing months of 1914 both in Europe and the United States, including the international races for both types of aircraft. The results of the principal events held will be found in the appended tables. |                        |              |    |                        |       |                       |           |              |                                  |                      |        |

## NOTABLE PERFORMANCES, ACCIDENTS, ETC.

February 8-10—Hans Berliner in a spherical balloon with two companions travelled from Bitterfeld, Germany, to Bissertsk, Russia, a distance of 1,897 miles, establishing a world's record. The balloonists were tried on the charge of landing in Russia without Government permission, found guilty, and sentenced to pay a fine of \$1,000 or serve six months' imprisonment.

May 22—Zeppelin dirigible L-3, built for the German Navy, in its trial trip cruised from Friedrichshafen over Frankfurt, Metz, Bremen, Helligoland and return to Potsdam, being in the air continuously for thirty-four hours fifty-nine minutes, at a speed varying from sixty to ninety miles per hour. While over Helligoland the L-3 was in wireless communication with the dirigible LZ-24 over Friedrichshafen.

June 20—The destruction of the Austrian dirigible M-III was one of the worst aeronautical catastrophes recorded, causing a loss of the lives of nine aeronauts. The Korting airship set out from Fischamend, near Vienna, and soon after a biplane piloted by Lieut. Flatz set off in pursuit. The aeroplane overtook the dirigible when the latter was at a height of 400 metres. The aeroplane appeared to attempt to rise over the airship, but in some way the two aircraft collided. The aeroplane capsized and fell to the ground, while a great gash was made in the envelope of the airship, and an explosion followed. The seven occupants of the car of the airship, Capt. Hanswirt, Lieuts. Hofstetter, Breuer and Hardinger, Corporal Hadima, Private Weber, and Civilian Engineer Kammerer, were all killed and burned to an unrecognizable extent. The aeroplane fell not far from the wreck of the airship, and both the pilot, Lieut. Flatz, and his passenger, Naval Lieut. Puchta, were killed instantly. The M-III, built in 1911, was 65 metres long, of 3,600 cubic metres gas capacity.

June 28-29—The French military dirigible Adjutant Vincenot, piloted by Georges Joux and carrying eight passengers, established a new world's record for continuous navigation by dirigibles, remaining in the air for thirty-five hours and twenty minutes. The Adjutant Vincenot left Toul, France, June 28 and covered a wide circuit, including Paris, and landed late on the night of June 29. The German dirigible Zeppelin L-3 established the previous record of thirty-four hours and fifty-nine minutes on May 22 in a flight from Friedrichshafen, as noted above.

August 24—A German Zeppelin sailed over the city of Antwerp, Belgium, late at night and dropped eight bombs. Observers thought that the bombs were aimed at the palace of King Albert, but the missiles missed the palace by several hundred yards. One bomb partially wrecked the hospital of St. Elizabeth, which contained no patients at the time of the explosion. A number of private houses were wrecked, however, and close to a score of men and women killed. Reports of the capture of a Zeppelin and its crew on the Belgian border a few hours later were never officially verified.

## GREAT BRITAIN'S AERONAUTICAL APPROPRIATION.

The following table shows how the \$5,000,000 voted for army aviation by Great Britain early in 1914 was to be expended and how it compares with the 1913-1914 appropriation:

## FRENCH AERONAUTICAL RECORDS FOR 1913.

At the annual meeting of the Aero Club of France, held on March 27, 1914, M. Besançon, the Secretary, stated in his report that during 1913 the distance covered in the air by aviators over French territory was about 13,040,000 kilometres, or, taking the kilometre as five-eighths of a mile, 8,150,000 miles, as against 3,000,000 kilometres (1,875,000 miles) flown in 1912. The number of hours of flight in 1913 was 133,800 instead of 39,000 in 1912, and the number of passengers carried was 47,900 instead of 12,200. There was in 1913 a decrease in the number of aeroplanes constructed in France; as the total was 1,148 aeroplanes and 146 hydroaeroplanes, as against 1,423 aeroplanes in 1912. There was also a decline in the number of aviation pilots' certificates by the Aero Club of France last year, as it was 384 as against 489 in 1912.

## GERMAN AERONAUTICAL RECORDS FOR 1913.

The official reports of the aerodrome authorities at Johannisthal, the centre of German aviation, while not as complete as those of the Aero Club of France, show the following records as compared with those of 1912: Miles flown—1913, 205,000; 1912, 98,300. Flying days—1913, 336; 1912, 317. Hours in air—1913, 4,039; 1912, 1,966. Number of flights—1913, 36,817; 1912, 17,651. Machines broken—1913, 320; 1912, 165. Fatalities—1913, 12; 1912, 5.

## CRICKET—Continued.

Somerset C. C. (Bermuda) made a visit to New York playing three games, winning two and the other was drawn.

New York for the first time placed a team in the Halifax Cup competition in Philadelphia, and made a remarkable showing, finishing second. B. Kortlang of the New York team headed the batting averages.

Benn's Mohair defeated Woonsocket by one run in the final game of the Rhode Island and District Amateur Cricket League.

Owing to the European war the International match between United States and Canada did not take place.

Camden Albin won the championship of the St. George League (Philadelphia).

Germantown won the championship of the Associated Clubs Cup (Philadelphia).

Haverford College won the Intercollegiate Championship.

Philadelphia Juniors won the Junior Championship in Philadelphia.

Old Country Cricket Club won the championship of the Church Mercantile League (Toronto). There was no first class cricket in England due to the war and the annual matches between Oxford University and Cambridge University and the Eton vs. Harrow games did not take place.

H. Livingston of the Pittsburg Field Club established a record for the United States by scoring three consecutive centuries in one week in a tournament held in Chicago in August, 1907; a similar feat was performed by H. N. R. Coblet in Canada in a tournament held in Vancouver, British Columbia, in August, 1906. H. V. Hordern of the University of Pennsylvania established a record for the United States and Canada by securing 213 wickets during 1907. J. B. King and F. F. Kelly are the only two bowlers who have taken over 2,000 wickets. A. C. MacLaren scored 424 for Lancashire vs. Somerset at Taunton, England, July, 1895—the

(Compiled by F. F. Kelly.)

record in a first-class match. A. F. J. Collins, playing at Clifton June, 1899, for Clarke's House against North Town, scored 628, not out—the record in any match. Melbourne University scored 1,094 runs against Essenden at Melbourne (Australia), 1898—the highest authenticated record. In a match between A. E. Stoddart's English team and New South Wales 1,739 runs were scored—a record in first-class cricket. The longest partnership on record was 623 runs by Captain Oakes and Private Fitzgerald, First Royal Munster Fusiliers vs. Army Service Corps at Curragh, 1895. In a small match in Australia F. R. Spofforth bowled down all 10 wickets of his opponents in each inning—a feat without parallel. F. R. Spofforth on the Australian tour in 1878 took 764 wickets—a world's record. Dr. W. G. Grace, the world's greatest cricketer, died October 23, 1915. He hit up 217 centuries during his career, which will not likely ever be equalled.

Best records in the United States and Canada are by G. S. Patterson eleven playing against A. M. Woods eleven at Philadelphia, scoring 689 runs, in 1894. Australians against Vancouver scored 633 for 8 wickets in 1913. J. B. King scored 344 runs for Belmont against Merion B. in 1906. W. Robertson, 206, not out, and A. G. Sheath, 118, not out, scored 340 runs in partnership, without the loss of a wicket, at San Francisco in 1894. Smallest score, Americas 0 against Roseville at Guttenberg, N. J., in 1897. The smallest score in international match in United States, West Indians 13 against Australians 1913. Smallest score in Canada, Winnipeg 6 against Australians, 1913. Largest score in the Metropolitan District Cricket League Championship, New Jersey Athletic Club 385 runs for 5 wickets against Manhattan, at Bayonne, N. J., 1897.

Seven centuries in a season, P. J. Higgins of Los Angeles in 1912, 159, 100, 100, 121, 182, 110, 240.

G. S. Patterson of the Germantown C. C. scored 1,748 runs in season of 1892—a record for the United States. Rev. F. W. Terry of Toronto C. C. scored 1,509 runs in season of 1892—a record for Canada.

## REVOLVER SHOOTING—Continued.

## U. S. R. A. LEAGUE CONTEST.

During the Winter of 1914-1915 a series of twenty-one matches was shot between as many different teams from affiliated clubs.

This league series conducted annually each Winter means as much to the pistol and revolver sportsman as the baseball leagues to the most ardent "fans."

The conditions of the matches are annually agreed upon, and the clubs at the close are divided into classes of four clubs per class and medals issued to the first and second teams of each class. The teams were composed of ten men, the scores of the best five to count, revolvers and pistols admitted on even terms, distance twenty yards, artificial light, 25 shots per man, with a 250 possible.

The standing of the clubs in the 1914-1915 series is given below:

|                                             | Won. | Lost. |                                                                                                                         | Won. | Lost. |

\* Made in handicap.

A handicap record from scratch is recognized as competition record if the time made is better than has been made in any scratch race of the same distance. One hour, 28 miles 19 yards, W. Hedspeith, Dayton, Ohio, July 31, 1902.

Note—The fastest time ever made in competition in a half-mile contest was done by Frank L. Kramer, from scratch in a handicap, at the Newark Velodrome (Vailsburg), Sept. 16, 1914. He was officially clocked at 0.53 flat, but as he did not finish in first position his time does not count as a competition record.

\* Made in handicap.

1 hour, 24 miles 1,472 yards, George H. Collett, New York City, May 30, 1900.

The fastest time made for the mile in amateur competition was by Hans Ohrt, the 1915 National and World's Champion, who at the Newark Velodrome, September 15, 1915, rode from a scratch in a one-mile handicap in 1m. 53.2-5s. He finished third, his time being officially taken. It does not count as a record, as he did not win the race.

First count 5 points; seconds, 3 points; thirds, 2 points; fourths, 1 point. The one-mile professional tandem championship for 1914 was won by Grenda-Walker, Newark Velodrome (Vailsburg), Sept. 6, 1914.

Owing to the fact that there was a tie for points between Kramer and Goulet early in September, and it was impossible to conduct another full series of championship events prior to the official closing of the championships on October 3, it was decided to run a series of three events, the winner of two of these to be the 1915 champion. These were in reality match races, Kramer winning both, the first a quarter-mile event on September 19, and the second a five-mile event on October 3. This was Kramer's fifteenth consecutive yearly victory as champion.

Kramer-Lawson won one-mile professional championship for 1915, at Newark Velodrome, September 5.

## IMPORTANT CYCLING EVENTS.

The World's Championships for 1915 were originally assigned to England by the Union Cycliste Internationale. The European war caused the National Cyclists' Union of England to abandon the project and the National Cycling Association of the United States volunteered to run the championships, subject to the subsequent approval of the U. C. I. The functions of the U. C. I. having been temporarily suspended by the war, official action has not been taken on the matter, but as the National Cycling Association is a charter member of the U. C. I., and will turn into its treasury almost a thousand dollars as the official championship percentage, there is no doubt but that the championships run at the Newark Velodrome on August 22 and September 5, 1915, will be legalized. Two championships were run, the professional one-mile, which was won by Frank L. Kramer, of East Orange, N. J., and one-mile amateur, which was won by Hans Oehrt, of the Olympic Club, San Francisco. The motor-paced championships were not run.

Paul Guignard holds the 100-kilometre paced record, made at Munich, September 15, 1909, in the time of 59m. 1s. Guignard also holds the 1-hour professional paced record, made the same time and place, of 63 miles 189.8 yards. At Munich Guignard, on July 23, 1909, rode 31 miles 1.198 yards in the half-hour (a record). The amateur 1-hour motor-paced record is 56 miles 1.128 yards, and was made by Francois Cuzin at Munich, September 30, 1909. Cuzin completed 100 kilometres in 1h. 5m. 45.2-5s. Oscar Egg, at the Velodrome Buffalo, Paris, in June, 1914, rode 27.50 miles unpaced in the hour. Arthur Van der Stuyft made a two-hour paced record at Leipzig, Germany, October 11, 1908, of 106 miles 1.498 yards.

Six-day race, Boston, Mass., November 8-13, 1915, 10 hours per day. Final score: Grenda-Hill, 1,409 miles 1 lap, 99 points; McNamara-Stears, 1,409 miles 1 lap, 97 points; Bedell-Magin, 1,409 miles 1 lap, 86 points; Root-Hanley, 1,409 miles 1 lap, 78 points; Walthour-Carmen, 1,409 miles 1 lap, 64 points; Cameron-Kaiser, 1,409 miles 1 lap, 55 points; Dupuy-Moran, 1,409 miles 1 lap, 53 points; Eaton-Madden, 1,409 miles 1 lap, 62 points; Sullivan-Linait, 1,409 miles.

Chicago Six-Day Race, November 20-25, 1915 (continuous), Lawrence-Hanley, 2,582 miles, 32 points; Ryan-Thomas, 2,582 miles, 35 points; Walthour-Walker, 2,582 miles, 45 points; Mitten-Hansen, 2,582 miles, 54 points. (The scoring for points in this race in the last hour was 1 for firsts, 2 for seconds, etc.) Root-Lawson, fifth; Cameron-Kaiser, sixth; Piercy-Bedell, seventh; Madden-Eaton, eighth; Dupuy-Anderson, ninth; Madonna-Oehrt, tenth.

(Compiled by R. F. Kelsey, Chairman Board of Control, National Cycling Association.)

## TERRITORY OF ALASKA.

(Statement prepared by Charles

E. Davidson, Secretary of Alaska.)

ALASKA was purchased in 1867 for \$7,200,000, and since that time has yielded over sixty-six times its purchase price. Congress did not pay any attention to Alaska for the first seventeen years of its existence. From the date of its purchase until 1877 a Collector of Customs and some troops were the sole representatives of the Territory. However, since 1867 (and by far the greater portion since 1899, or only fifteen years), according to official documents, its output has been:

|                         |               |
|-------------------------|---------------|
| Gold.....               | \$244,292,540 |
| Silver.....             | 2,251,191     |
| Copper.....             | 20,292,860    |
| Other minerals.....     | 2,202,120     |
| Fisheries and furs..... | 279,379,490   |
| Other merchandise.....  | 1,226,132     |
| Total.....              | \$549,644,333 |

Alaska is situated in approximately the same latitude as the Scandinavian countries, but the climate is much milder, especially along the coast, where there is an unusually large amount of rain fall.

The Agricultural Department has established successful experimental stations at various points within the Territory, demonstrating that vegetables, grains, grasses, and live stock are adapted to the climate.

Next to mining, the fisheries are the most productive industry in the Territory.

The first arterial route of a Government railroad in Alaska, reaching from the coast to navigable waters of the interior, was designated by the President on April 11, 1915. Starting from Seward, on Resurrection Bay, the route follows the line of the Alaska Northern Railroad (acquired by purchase) to Mile

72 on Turnagain Arm of Cook's Inlet; thence following the north shore of the arm to Ship Creek; thence in a generally northerly direction along Knik Arm and the easterly side of the Susitna Valley to Broad Pass in the Alaska range of mountains and the headwaters of the Nenana River; thence down the river to the Tanana Valley and Fairbanks, a total distance of 471 miles, with a spur of 38 miles from a point near the head of Knik Arm to the Matanuska coal field. The estimated cost of this system is \$26,800,000.

Congress authorized the construction of Government railroads in Alaska to the extent of \$35,000,000, which leaves a balance of \$8,200,000 available for other routes or branches.

The large and extensive coal fields—the Bering River, the Matanuska Valley, and the Nenana fields—containing deposits of high grade character, were subdivided into townships by Government surveys during the Summer of 1915. A portion of these and other fields contain low grade deposits known as lignite.

The route of the railroad will open up the development of the coal fields, as well as make available for settlement the many thousands of acres of agricultural lands, not to speak of the immense regions known to be highly mineralized, which the lack of transportation facilities heretofore has prevented the extraction of minerals except at a loss. Every one familiar with Alaska is confident that the building of the road will revolutionize conditions in the North.

The principal shipments from Alaska for the fiscal year ended June 30, 1915, were: Gold, \$15,180,824; fish (salmon, canned, and all other), valued at \$19,224,849; copper, \$5,182,004; and silver ore \$251,136.

## MEAT AND DAIRY PRODUCTS IN AMERICAN TRADE, 1914-1915.

(From a Report of the Department of Commerce, revised to October 20, 1915.)

IMPORTS of meat and dairy products into the United States in the fiscal year ended July 1, 1915, were three times the value of those in 1913 and eight times those of a decade ago. This movement, according to the records of the Bureau of Foreign and Domestic Commerce, Department of Commerce, first assumed large proportions in the fiscal year 1914, following the transfer of meats to the free list. More recent months, however, have reversed the upward trend, since every month from February to September, 1915, shows much smaller imports than in the corresponding month of the preceding year or when compared with earlier months of the current fiscal year.

In the twelve months ending with June, 1915, imports of meat and dairy products aggregated \$43,000,000 in value, meats representing two-thirds of the total. In 1913-1914 the same months gave a total of \$39,000,000, and in 1912-1913 \$15,000,000. Prior to 1910 the total never reached \$10,000,000 in any fiscal year, having been \$5,250,000 in 1905 and \$2,000,000 in 1895.

Our imports of meats are mainly supplied by Argentina. The fiscal year 1915 brought 131,000,000 pounds of fresh beef and veal from Argentina, 15,000,000 pounds from Canada, 14,000,000 from Uruguay, 10,000,000 from Australia, and 9,000,000 from the United Kingdom.

The United States still exports far more meats than it imports, for although there have been record-breaking arrivals in the last two years, exports have

been even larger, the value of meat and dairy products exported in 1915 having exceeded \$220,000,000 in value, thus rising above the level that marked the decade prior to 1909.

A study of the official figures shows that while the imports have consisted chiefly of beef and mutton in the primary stages of preparation, the exports have included considerable quantities of bacon, hams, lard, canned and preserved meats, and other meat products in a more or less advanced state.

In fresh beef there is now a large movement both into and out of the country. The large outward movement, however, is a development of recent months. Approximately 50,000,000 pounds of fresh beef were exported in June, and more than 168,000,000 pounds in the period from August 1, 1914, when the European war began, to the end of June, 1915; while the aggregate for the three-year period ending June 30, 1914, was only 29,000,000 pounds.

It is also apparent that the United States pays less for the meats which it buys than it receives for those it sells. In June we imported 15,500,000 pounds of fresh beef valued at 9 cents per pound, i. e. b. countries of origin. In the same month we exported 48,750,000 pounds valued at 13 cents per pound at the domestic port of shipment. For the ten months ending with April, 1915, the imports and exports were 134,000,000 and 170,000,000 pounds respectively, valued at 9 cents per pound for the imports and 12½ cents per pounds for the exports.

**SOLDIERS' HOMES.****NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.**

*President of the Board of Managers...* Col. Frederick J. Close, Commerce Building, Kansas City, Mo.  
*Secretary...* Gen. George H. Wood, Dayton, Ohio.

There are branches of the National Home at Dayton, Ohio; Milwaukee, Wis.; Togus, Me.; Hampton, Va.; Leavenworth, Kan.; Santa Monica, Cal.; Marion, Ind.; Danville, Ill.; Johnson City, Tenn.; and Hot Springs, S. Dak. The aggregate number of members cared for is about 35,000.

**REQUIREMENTS FOR ADMISSION.**

1. An honorable discharge from the United States service during a war in which it was engaged.
2. Disability which prevents the applicant from earning his living by labor.
3. Applicants for admission will be required to stipulate and agree to abide by all the rules and regulations made by the Board of Managers, or by its order; to perform all duties required of them, and to obey all the lawful orders of the officers of the Home. Attention is called to the fact that by the law establishing the Home the members are made subject to the Rules and Articles of War, and will be governed thereby in the same manner as if they were in the Army of the United States.
4. A soldier or sailor must forward with his application for admission his Discharge Paper, and when he is a pensioner, his Pension Certificate, which papers will be retained at the branch to which the applicant is admitted, to be kept there for him, and returned to him when he is discharged. This rule is adopted to prevent the loss of such papers and certificates, and to hinder fraudulent practices; and no application will be considered unless these papers are sent with it. If the original discharge does not exist, a copy of discharge, certified by the War or Navy Department, or by the Adjutant-General of the State, must accompany the application.

There are State Homes for disabled volunteer soldiers provided by the States of California, Colorado, Connecticut, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington, Wisconsin, and Wyoming.

**UNITED STATES SOLDIERS' HOME FOR THE REGULAR ARMY.**

The United States Soldiers' Home in the District of Columbia receives and maintains discharged soldiers of the regular army. All soldiers who have served twenty years as enlisted men in the army (including volunteer service, if any), or who have served in any war, and all soldiers of less than twenty years' service who have incurred such disability, by wounds, disease, or injuries in the line of duty while in the regular army, as unfit them for further service, are entitled to the benefits of the Home.

A pensioner who enters the Home may assign his pension, or any part of it, to his child, wife, or parent, by filing written notice with the agent who pays him. If not so assigned, it is drawn by the treasurer of the Home and held in trust for the pensioner, to whom it is paid in such sums as the governor of the Home deems proper while he is an inmate of the Home, the balance being paid in full when he takes his discharge and leaves the Home.

Inmates are subject to the Rules and Articles of War, the same as soldiers in the army. They are comfortably lodged, fed, and clothed, and receive medical attendance and medicine, all without cost to them. There are 1,462 men now receiving the benefits of the Home.

Applications for admission to the Home may be addressed to the "Board of Commissioners, U. S. Soldiers' Home, War Department, Washington, D. C.," and must give date of enlistment and date of discharge, with letter of company and number of regiment for each and every term of service, and rate of pension, if any, and must be accompanied by a medical certificate showing nature and degree of disability if any exists.

**CONFEDERATE SOLDIERS' HOMES**

There is a home for Confederate veterans of the Civil War at Beauvoir, near Biloxi, Miss. It is supported by the United Sons of Confederate Veterans' Society and the United Daughters of the Confederacy. There is another home in Washington, D. C., which was opened by the Southern Relief Association.

## AMERICAN PIONEERS OF '98.

This organization was formed and registered with headquarters in San Juan, Porto Rico, December, 1913, for the purpose of promoting social intercourse and friendship, and providing means for closer ties of friendship, between the American pioneers of Porto Rico, who constitute its membership, and to maintain a register of American pioneers in Porto Rico. *President*—Harrison Johnson. *Secretary*—John L. Haas. *Treasurer*—John E. Heinzman.

**ORGANIZATION OF THE ARMY.\***

THE army in active service as now organized under the acts of Congress of February 2, 1901, January 25, 1907, April 23, 1908, and March 3, 1911, comprises 15 regiments of cavalry, 765 officers and 14,148 enlisted men; 6 regiments of field artillery, 252 officers and 5,541 enlisted men; a coast artillery corps, 170 companies, 715 officers and 19,019 enlisted men; 30 regiments of infantry, 1,530 officers and 55,339 enlisted men; 3 battalions of engineers, 1,942 enlisted men, commanded by officers detailed from the corps of engineers; the Porto Rico Regiment of Infantry, 32 officers and 599 enlisted men; staff corps, Service School detachments, Military Academy, Indian scouts, recruits, etc., 7 officers and 10,039 enlisted men, and a provisional force of 52 companies of native scouts in the Philippines, 182 officers and 5,733 enlisted men. The total number of commissioned officers, staff and line, on the active list, is 4,827 (including 91 first lieutenants Medical Reserve Corps on active duty, 60 dental surgeons, and 229 additional and detached line officers), and the total enlisted strength, staff and line, is 87,248, exclusive of the provisional force and the Hospital Corps, and Quartermaster Corps. The law provides that the total enlisted strength of the Army shall not exceed at any one time 100,000. \* For Military Departments and Commands, see Index.

**ENLISTMENT LAW FOR THE UNITED STATES ARMY.**

THE Army act of August 24, 1912, prescribes a seven years' term of enlistment in the Army after November 1, 1912, in lieu of the previous term of three years, the first four years with the colors in active service, and the remaining three years on furlough, without pay, and attached to the Army Reserve established by the same act. The Army Reserves are subject to be called into active service only in the event of actual or threatened hostilities.

A soldier after four years' continuous service, either under a first or any subsequent enlistment, may be re-enlisted for seven years and receive a final discharge from his prior enlistment, or after three years' continuous service may, upon his written request, be furloughed and transferred to the reserve. Enlistment periods for service pay are counted as four years. First enlistments are confined to men between the ages of 18 and 35 years. All soldiers receive, in addition to their pay, rations, clothing, bedding, and medical attendance while with the colors.

The monthly pay during first enlistment ranges from \$15 to \$18 for privates. For non-commissioned officers the rates are \$21, \$24, \$30, \$40, \$45, \$50, \$65 and \$75, respectively, according to grade, arm or corps, and nature of duties. Master electricians of the Signal Corps and the Coast Artillery Corps, and chief musicians of bands, receive the highest rate, \$75 per month.

A additional pay of from \$1 to \$4 per month for continuous service is allowed during each enlistment period of four years, after the first, up to and including the seventh. In addition to all other pay, qualified or expert gunners, riflemen, sharpshooters and marksmen receive from \$2 to \$5 per month. Casemate electricians, plotters, planters, loaders, gun commanders, gun pointers, etc., of the Coast Artillery Corps receive from \$6 to \$9 per month additional. Twenty per cent. increase of pay is allowed for service in the Philippines and China.

Enlisted men may be retired after 30 years' service, with three-fourths of the pay of their grade, and \$15.75 per month additional in lieu of clothing, subsistence, quarters, fuel and light. Unmarried soldiers under 30 years of age of not less than two years' service may compete in examination for promotion to Second Lieutenant.

**UNITED STATES MILITARY ACADEMY AT WEST POINT.**

EACH Senator, Congressional District, and Territory, including Porto Rico, Alaska, and Hawaii, is entitled to have one cadet at the academy; the District of Columbia, two cadets. There are also forty appointments at large, specially conferred by the President of the United States. The law (act of March 4, 1915) provides that, until the appointment of Representatives in Congress among the several States under the Fourteenth Census of the United States becomes effective (March 4, 1923), whenever any cadet shall have finished three years of his course at the academy his successor may be admitted.

Appointments are usually made one year in advance of date of admission, by the Secretary of War, upon the nomination of the Senator or Representative. These nominations may either be made after competitive examination or given direct, at the option of the Representative. The Representative may nominate two legally qualified second candidates, to be designated first and second alternates. The alternates will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and the better qualified will be admitted to the academy in the event of the failure of the principal to pass the prescribed preliminary examinations. Appointees to the Military Academy must be between seventeen and twenty-two years of age, free from any infirmity which may render them unfit for military service, and able to pass, unless a satisfactory certificate is submitted, a careful examination in English grammar, English composition, English literature, algebra through quadratic equations, plane geometry, descriptive geography and the elements of physical geography, especially the geography of the United States, United States history, the outlines of general history. The Secretary of War is authorized to permit not exceeding four Filipinos, to be designated, one for each class, by the Philippine Commission, to receive instruction at the United States Military Academy at West Point; *Provided* That the Filipinos undergoing instruction shall receive the same pay, allowances, and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations; *And provided further*, That said Filipinos undergoing instruction on graduation shall be eligible only to commissions in the Philippine Scouts; serve for eight years, unless sooner discharged.

The course of instruction, which is quite thorough, requires four years, and is largely mathematical and professional. The principal subjects taught are mathematics, English, French, drawing, drill regulations of all arms of the service, natural and experimental philosophy, chemistry, chemical physics, mineralogy, geology, electricity, history, international, constitutional, and military law, Spanish, civil and military engineering, art and science of war, and ordnance and gunnery. About one-fourth of those appointed usually fail to pass the preliminary examinations, and but little over one-half the remainder are finally graduated. The discipline is very strict—even more so than in the army—and the enforcement of penalties for offences is inflexible rather than severe. Academic duties begin September 1 and continue until June 4. Examinations for cadets not having made satisfactory progress in studies are held in each December and June, and cadets found proficient in studies and correct in conduct are given the particular standing in their class to which their merits entitle them.

From about the middle of June to the end of August cadets live in camp, engaged only in military duties and receiving practical military instruction. Cadets are allowed but one leave of absence during the four years' course, and this is granted at the expiration of the first two years. The pay of a cadet is \$709.50 per year, and, with proper economy, is sufficient for his support.

Upon graduating, cadets are commissioned as Second Lieutenants in the United States Army. The whole number of graduated from 1802 to 1915, inclusive, has been 5,476. It is virtually absolutely necessary for a person seeking an appointment to apply to his Senator or Member of Congress. The Superintendent is Colonel Clarence Page Townsley, Coast Artillery Corps, U. S. A., and the military and academic staff consists of 134 persons.

## MILITARY SMALL ARMS.

COMPILED from latest available data. Changes are frequently made, and it is difficult to present accurate statistics.

About 1880 all the civilized countries began rearming their troops with magazine rifles of small calibre, using high power cartridges with smokeless powder. Modifications and improvements in these as well as in carbines and pistols, have materially added to their effectiveness. At the present time no great difference exists in the effectiveness of the kinds of rifles with which the armies of the great powers are supplied with regard to their ranges and shooting qualities. It is well known that the effectiveness of any arm depends greatly on the experience and skill of the men who use it, and that, other things being equal, the troops most thoroughly instructed and drilled in the use of the rifle are the most efficient in battle.

An automatic rifle will be, doubtless, the military weapon of the near future. The United States and nearly all of the principal countries of Europe have been experimenting with rifles of this type. It seems, however, that, as yet, no automatic shoulder rifle has been brought forward that is considered to be sufficiently reliable and effective for war purposes to justify the great expense of adopting it in the place of those now in use.

A few years ago the Mexican Government ordered some 4,000 rifles of the automatic type, known as the "Mondragon," with which to arm part of its army. This gun has the same calibre and uses the same cartridge as the German Mauser, with which the Mexican troops are mostly armed, but information as to the result of this experiment of introducing an automatic rifle to actual military use is lacking.

Germany adopted an automatic pistol for military use in 1908. The United States has adopted for the Army and Navy, in place of the service revolver, the Colt automatic pistol, after extended experiments and tests. This is regarded as very effective weapon. Its length is 8.5 inches; length of barrel, 5 inches; weight, 2 lb. 7 oz.; calibre, .45; cartridges in magazine, 7. The German automatic pistol has a length of 8.54 inches; length of barrel, 4.02 inches; weight, 1 lb. 13½ oz.; calibre, .35; cartridges in magazine, 8.

## EXPENDITURES FOR THE ARMY AND NAVY DURING 120 YEARS, BEGINNING IN 1794.

Total naval expenditures, 1794 to 1914, inclusive, \$3,071,179,958. Two-fifths of this sum was spent from 1897 to 1913, inclusive, \$1,464,604,422.

The annual expenditures have grown in recent years as follows: 1879, \$15,125,126; 1889, \$21,378,809; 1897, \$34,561,546; 1893, \$58,823,984; 1904, \$102,956,101; 1914, \$139,682,186.

The army expenditures have grown as follows: 1879, \$40,425,660; 1914, \$173,522,804.

Total estimated present value of Navy Yards and naval stations, \$195,000,000. The sites cost \$2,836,375; the buildings, improvements, and machinery, 1800 to 1910, cost \$159,173,509; the maintenance, including repairs, has cost, \$159,604,944; average yearly cost of maintenance is now about \$12,251,954. The total sums provided for the principal yards, 1899 to 1916, inclusive, have been: Brooklyn, \$7,809,729; Philadelphia, \$6,381,569; Washington, \$3,230,505; Norfolk, \$7,055,147; Boston, \$4,754,250; Portsmouth, \$4,622,425.

During the Taft Administration the appropriations for naval shore stations averaged over \$5,000,000 a year. In the Wilson Administration they have averaged \$2,300,000 a year, the bulk of the appropriation going for new ships and other improvements.

## COST OF MAINTAINING ARMIES AND NAVIES.

(Does not include special or war emergency appropriations incidental to the present war. Figures for 1915-16 relating to foreign powers shown below in some instances not available.)

The cost of the British Army, according to estimates for 1914-15, amounted to \$143,331,350. The estimates for the Navy for 1914-15 were placed at \$256,150,026. The United States Army appropriations for 1915-16 amount to \$102,938,798 plus \$4,255,401 unexpended of prior appropriations. Does not include the expenditure by the several States on their National Guard or the enormous sums paid for pensions to ex-volunteers. The Navy appropriations for 1916 amount to \$145,398,820. The estimated military expenditure of the German Empire in the budget for 1914-15 amounted to \$293,289,155. The German Naval estimates for 1914-15 amounted to \$113,918,367. The military budget of France for 1914 shows an estimated expenditure of \$202,141,122. The Navy estimate for 1915 amounted to \$96,255,733. Italy during 1914-15 spent about \$50,600,000 on her Navy, and about \$80,025,234 on her Army. The military budget of Russia for 1914-15 called for \$393,193,808, and the Navy expenditures in 1914-15 amounted to about \$129,298,966. The Army estimate of Austria-Hungary for 1914 was \$47,571,755, and for the Navy \$35,975,338. The military expenditure of Japan for 1915 was about \$47,037,809. The Navy estimates for 1916 amount to \$59,000,000 and \$3,000,000 allotment in 1916 for construction of new warships.

\* This does not include cost of fortifications, Military Academy, etc., but only for the Army. † This includes construction of ships, Naval Academy, Navy Yards, etc. ‡ Excluding cost of colonial troops not serving in France.

## MILITARY EDUCATIONAL SYSTEM OF THE UNITED STATES.

The military educational system of the United States, exclusive of the Military Academy at West Point, comprises the following:

**I. The Army War College,** Washington, D. C., under the management of a President and directors detailed from officers of the army. The course of instruction is for one year, beginning September 1. A limited number of officers not below the rank of captain, selected on account of exceptional efficiency and fitness, are detailed annually for instruction. The purpose of the college is to make practical application of knowledge already acquired, not to impart academic instruction.

**II. The Army Service Schools.** The group of schools established at Fort Leavenworth, Kan., consisting of the Army School of the Line as the basic school, the Army Staff College, the Army Signal School, the Army Field Engineer School, and the Army Field Service and Correspondence School for Medical Officers as special affiliated schools, are designated the Army Service Schools, and are under the direction of a Commandant not of lower grade than that of a Brigadier-General.

The course of instruction at the schools, except as otherwise stated, is included in one term from September 1 to June 30 of the following year.

**1. The Army School of the Line.** The object of this school is the instruction of selected officers from the line of the army in the leading and care of troops in time of war and their training in time of peace. The Assistant Commandant of the Army Service Schools is also the Director of the School of the Line.

Upon graduation, the student class are graded, in order of merit, as "honor graduates," "distinguished graduates," and "graduates," respectively.

**2. The Army Staff College,** for the instruction of officers detailed annually from the highest graduates of the latest class of the School of the Line, recommended by the academic Board of that school. The object of this college is to impart instruction to officers in the duties of the general staff of an army; to prepare them for the Army War College and to investigate military inventions, discoveries and developments.

The Commandant, Assistant Commandant, Secretary and Senior Instructors of the School of the Line hold corresponding positions in the Staff College.

**3. The Army Signal School,** for instruction of officers of the Signal Corps in their duties, including aeronautics; for instruction of officers of the line, who are designated therefor, in signal duties, and to make research and experiments in subjects pertaining to the work of the Signal Corps. The school is under the general direction of the Commandant of the Army School of the Line.

**4. The Army Field Engineer School,** for the instruction of officers of the Engineer Corps, not exceeding ten, and engineer officers of the National Guard.

**5. The Army Field Service and Correspondence School for Medical Officers,** for the instruction of officers of the Medical Corps and of the National Guard. Part one of this school requires attendance in person for a graded course of study, and part two for a course by correspondence. The course of instruction is eight weeks, from April 1 of each year. Students who complete the course satisfactorily receive certificates of proficiency.

**III. The Army Medical School,** Washington, D. C., for the instruction of medical officers of the army, candidates for appointment in the Medical Corps, and medical officers of the National Guard. The faculty consists of a President and Instructors. The course of instruction is for eight months, from October 1 each year. Graduates receive diplomas.

**IV. The Coast Artillery School,** Fortress Monroe, Virginia. The object of this school is to enlarge the field of instruction of the garrison schools for Coast Artillery officers by advanced courses of study and practical training in technical duties; to prepare specially selected officers for the more important positions in the Coast Artillery; also to educate and train selected enlisted men for the higher non-commissioned staff grades in the Coast Artillery. The courses of instruction for officers and enlisted men are each comprised in one school year, from January 3 to December 1. Special courses in ballistics are also provided.

Officers who are graduated are furnished with diplomas, as "honor graduates," "distinguished graduates," or "graduates," according to their standing.

**V. The Engineer School,** Washington Barracks, D. C. This school is under the control of the Chief of Engineers. Its object is to prepare junior officers of engineers for the active duties of their corps; to make experiments and recommendations, and to give instruction pertaining to the civil engineering work of the army. The course of instruction is thirteen months, beginning September 1, and ending September 30, the following year. Diplomas are given to students who successfully complete the course.

**VI. The Mounted Service School,** Fort Riley, Kansas, is under the command of a field officer detailed for that purpose, who also commands the post of Fort Riley. The object of the school is to give practical instruction to field and company officers of cavalry and field artillery, and to farriers and horseshoers. The courses for field officers begin April 1 and October 10; the courses for company officers are from September 25 to June 30, following, for the first-year course, and from July 1 to June 30, following, for the second-year course, and for farriers and horseshoers two courses of four months each. Company officers who are graduated receive diplomas.

**VII. The School of Fire for Field Artillery,** Fort Sill, Oklahoma, for practical instruction in field artillery firing. Courses of instruction are prescribed: A. for captains and lieutenants; B. for field officers of field artillery; C. for non-commissioned officers, and D. for officers of the militia. Officers and enlisted men who complete any course satisfactorily receive certificates of proficiency.

**VIII. School of Musketry,** Fort Sill, Oklahoma, for instruction in small-arms firing.

**IX. Garrison Schools,** one at each military post, for the instruction of officers of the army and the National Guard, in subjects pertaining to their ordinary duties. The course covers three years and the annual terms five months each, from November 1. Certificates of proficiency in each subject of study are given to those who pass the prescribed examination therein.

**X. Post Schools for Instruction of Enlisted Men** in the common branches of education and military subjects.

**XI. Schools for Bakers and Cooks,** at The Presidio of Monterey, California, Fort Sam Houston, Tex.; Fort Shafter, Hawaii; Washington, D. C., and Fort Riley, Kansas, for the instruction of selected enlisted men.

**XII. The Signal Corps Aviation School,** San Diego, California. The object of this school is the training of officers and enlisted men in matters of military aviation.

Officers of the National Guard are admitted to most of the Army Schools, under the Militia law of January 21, 1903, and regulations prescribed by the War Department. They must be nominated by the Governors of their States. Those admitted to any of the schools receive mileage and money commutations for subsistence, quarters, etc. A considerable number of militia officers enter these schools, notably the garrison schools, annually.

# THE ORGANIZED AND UNORGANIZED MILITIA OF THE UNITED STATES.

(Compiled for THE WORLD ALMANAC from the latest official reports.)

THE Militia law of January 21, 1903, as amended by the act of May 27, 1908, provides: "That the militia shall consist of every able-bodied male citizen of the respective States \* \* \* and every able-bodied male of foreign birth who has declared his intention to become a citizen, who is more than 18 and less than 45 years of age, and shall be divided into two classes—the organized militia, to be known as the National Guard \* \* \* or by such other designations as may be given them by the laws of the respective States or Territories; the remainder to be known as the reserve militia."

Reserve militia unorganized, 12,940.

Alaska has no militia, though provision is made for such if need arises. Guam and Samoa have each a small provisional force, used more for police purposes than for military. The Philippines have a constabulary force which can be used either for police or war purposes, provided the latter is on the islands. Porto Rico has a regiment of eight companies of infantry which is a part of the army. The enlisted men of this regiment are natives of Porto Rico. The reserve militia in the Southern States is assumed to include negroes capable of bearing arms.

## ARMY AVIATION.

The act of Congress approved July 18, 1914, created an "Aviation Section" in the Signal Corps, authorizing an addition to that corps of sixty officers of the grades of captain and first lieutenant, and 260 enlisted men. The officers are to be charged with the duty of operating or supervising the operation of all military air craft and all appurtenances belonging thereto and in the instruction of the enlisted men. The officers are to be selected from the next lower grade in the line of the Army and are to be rated as military aviators and junior military aviators. Those to be rated as military aviators shall not exceed fifteen and to be selected from the junior military aviators after three years' service with that rating. The act also provides that there shall be attached to the aviation section a sufficient number of aviation students to make, with the aviation officers actually detailed in said section, a total number of sixty aviation officers and aviation students.

Military aviators receive 75 per cent. increase in their pay, and junior military aviators 50 per cent. increase, and aviation students 25 per cent. increase while on duty requiring them to participate regularly and frequently in aerial flights. Aviation enlisted men, while on duty that requires them to participate regularly and frequently in aerial flights or while holding the rating of aviation mechanic, the number of which shall not at any time exceed forty, shall receive 50 per cent. increase in their pay.

## THE TRIPLE ALLIANCE AND THE TRIPLE ENTENTE.

Of the several triple alliances that have been formed in Europe, probably the best known is the one entered into by Germany, Austria-Hungary, and Italy, which was concluded and signed May 20, 1882. It appears that the aim of Italy in joining the alliance was to protect herself and to isolate her enemy, France, in Europe. There was in existence a defensive treaty between Germany and Austria-Hungary, which was signed October 7, 1879, but was not made public until 1885.

The establishment of a protectorate, by France, over Tunisia aroused considerable resentment in Italy as imposing a menace to the South Italian and Sicilian coasts, and undoubtedly hastened the formation of the Triple Alliance. This compact was to last five years, and on March 17, 1887, it was renewed. It was a defensive alliance, and specified the disposition of the military forces in the event of an attack by either France or Russia, or by both simultaneously, but contained (in the renewal) no provision for offensive warfare; thus the terms in regard to an offensive demonstration by Italy were modified. In March, 1891, it was renewed for a period of twelve years, and on June 26, 1902, it was again renewed for a further period of ten years, terminating in May, 1912. It appears that in the early part of December, 1912, a further renewal was made. The Triple Alliance desired Italy to remain neutral, and to this end Austria-Hungary offered certain territorial concessions to Italy. They were refused by Italy. Italy denounced the alliance, and on May 24, 1915, formally declared war on Austria-Hungary. Thus the alliance reverted to the dual condition.

Germany and Russia, by means of a secret convention concluded in September, 1884, guaranteed to each other "a benevolent neutrality" in the event of hostilities between Russia and Great Britain. After the death of Bismarck this convention became known, and aroused considerable resentment in Austria-Hungary.

In order to secure the consent of Italy to a renewal, Germany made certain conciliations with regard to the commercial products of Italy. Thus the signature of Italy to the alliance insured European peace and guaranteed Germany security. Of recent years there has been quite a change of feeling on the part of Italy toward France, tending toward an amicable settlement of disputes.

Great Britain, noting the increase in the naval programmes of the several countries, and having adopted the two-power standard for her navy, entered into agreements with France and Russia to secure the balance of power and maintain the peace of Europe. The Anglo-French agreements were signed April 8, 1904, published April 12, 1904, and were ratified by France November 13, 1904. It defined the spheres of influence in regard to Egypt, Morocco, Newfoundland, West Africa, Siam, Madagascar, and the New Hebrides. The Anglo-Russian agreements were signed August 31, 1907, but the full terms were not published until September 24, 1907. The spheres of influence in Asia were defined in view of the Anglo-Japanese Alliance.

Great Britain, maintaining a large fleet in the Mediterranean by reason of its interests, has always promoted and fostered a friendliness toward Italy. The conclusion of a commercial treaty by Italy with France, coupled with her friendliness toward Great Britain, in view of the Anglo-French and the Anglo-Russian agreements, have all tended to isolate Germany and Austria-Hungary in Europe.

The formation of the Balkan League, comprising Serbia, Bulgaria, Roumania, Montenegro, and Albania, has introduced disquieting features into European politics, and the several states, by not acting in concert with each other, have caused the contracting parties to the alliance and the entente much concern as to whom will be the recipient of their aid.

The aims of the Triple Entente are said to be as follows: 1. To maintain a balance of power. 2. To preserve peace and the *status quo*. 3. To further the interests of peace by means of treaty laws. 4. The disarmament and the lessening of the expenditures for armaments.

## THE BOY SCOUTS OF AMERICA.

### ORIGIN AND GROWTH OF SCOUTING.

LIKE many other things showing permanence and power, the Scout movement can be traced back to widely separated sources where constructive ideas came to boy workers and were tested with varying degrees of success. In America there were a number of originators of methods, plans, and principles that have proved effective. In Great Britain, Lieut.-Gen. Sir Robert S. S. Baden-Powell became active in organization work based partly on the ideas and methods of American workers. He did this so successfully that the enrolment of British Boy Scouts soon grew into the hundred thousands, with the emphasis, not on the military note, but on peace virtues and learning practical trades. Then the movement spread to Germany, France, Italy, Australia, and New Zealand, to Canada and the United States; to South American republics; in short, almost the world over, since it is already established in twenty-seven different countries in addition to the numerous colonial possessions of Great Britain and the United States. Everywhere it has shown adaptation to new fields and nationalities.

In Germany the boys have engaged in the work with such enthusiasm and in such numbers that the Prussian and Bavarian authorities are giving the movement financial aid. While the number of Boy Scouts enrolled throughout the world is estimated as not less than one million, one-fifth of the whole number are in the United States. The emphasis and ideals of the movement belong here also to the highest plans—that of efficient citizenship, service, and character-building.

"The Boy Scouts of America," the name under which the movement in the United States was incorporated February 8, 1910, has as its Honorary President, the Hon. Woodrow Wilson, President of the United States, and Hon. William H. Taft and Col. Theodore Roosevelt as its Honorary Vice-Presidents. Associated with these in approval and promotion of the movement are eminent citizens from all walks of public life, who are members of the National Council and of the local councils in the cities and towns of the whole country, and a host of others who earnestly co-operate in the work.

A group of men, representing the various religious and civic organizations of the community that are engaged in boys' work, are brought together as a local council for the promotion of Scout work. This local council receives a charter from the national organization, giving them full authority to deal with all questions relating to scouting in that district and to pass upon all Scout Masters' applications. In many cases this council engages a Scout Executive to take charge of the work in that community. He is responsible to the local council for the direction and promotion of the work. He is the leader of the Scout Masters, and as such gives such instructions and help as may be necessary, arranges inter-troop meets, games, camps, and in general makes uniform the plan of work conducted in that community. The Scouts are organized in patrols and troops. Eight boys constitute a patrol, one of whom is chosen as the Patrol Leader. Three patrols make up a troop. The Scout Master is the adult leader of the troop. Already there are about 700 local councils in as many cities throughout the United States and under the direction of each there are from five to one hundred and fifty Scout Masters in charge of troops.

The Scout programme is proving practicable as a civic enterprise. There are many cities so thoroughly organized that every phase of boy life in the community is being reached by Scout activities. The movement is adapting itself not only to the wealthy classes, but to the boys of the slums, to the newsboys and to foreign boys alike. Over six thousand Scout Masters are already registered with the national organization, representing about 300,000 boys that are being reached by the movement. Work to some extent has been started in practically every city in this country having a population of 4,000 or over, besides in the Hawaiian Islands, the Philippine Islands, Porto Rico and Guam. Any boy, of any class or creed, over 12 years of age, is eligible to become a Scout. The initial requirements are that he know the Scout salute, sign and laws, and that he take the Scout oath. By meeting certain requirements, he is in line to become a Tenderfoot, Second-Class and First-Class Scout.

Scouting means outdoor life, and so health, strength, happiness and practical education. By combining wholesome, attractive outdoor activities with the influence of the Scout oath and law, the movement develops character and worth-while ability.

Scoutercraft includes instruction in first aid, life saving, tracking, signalling, cycling, nature study, seamanship, campcraft, woodcraft, chivalry and all the handicrafts.

It is one of the principal purposes of the Boy Scout movement, abroad, as well as in our own country, to teach boys that to create is better than to destroy, and that peace, not war, will make a great nation. This claim is amply borne out by the splendid first aid and other humanitarian services of the most practical nature rendered by the Scouts in the present European war.

The national organization is largely maintained by public subscriptions. Sustaining and Contributing Memberships are issued to men and women throughout the country who are financially assisting in the development and promotion of this organization among boys.

**UNITED STATES MARINE CORPS.**

Commandant—Major-General George Barnett.

Adjutant and Inspector's Department—Col. Charles H. Lauchheimer. Quartermaster's Department—Col. Charles L. McCawley. Paymaster's Department—Col. George Richards. Headquarters—Navy Building, Washington D. C.

The United States Marine Corps is an independent branch of the military service of the United States, serving generally under the direction of the Secretary of the Navy. The corps may be detached by order of the President for service with the army, and on various occasions parts of the corps have so served.

Marines served on shore and on board vessels of the navy throughout the Revolutionary War, two battalions having been authorized by the Continental Congress November 10, 1775, but the present organization dates from July 11, 1798, when an act of Congress was approved for establishing and organizing a marine corps to consist of 1 major, 4 captains, 16 first lieutenants, 12 second lieutenants, 48 sergeants, 48 corporals, 32 drums and fifes, and 720 privates.

The authorized strength of the corps (September, 1915) was 346 officers and 9,921 enlisted men, as follows: 1 major-general commandant, 12 colonels, 12 lieutenant-colonels, 25 majors, 107 captains, 96 first lieutenants, 90 second lieutenants, 12 sergeant-majors, 79 quartermasters, 1 drum major, 114 first sergeants, 106 gunnery sergeants, 500 sergeants, 967 corporals, 124 drummers, 124 trumpeters, 1 leader of the band, 1 second leader of the band, 30 first-class musicians, 30 second-class musicians, and 7,832 privates.

## CHAPLAINS IN UNITED STATES ARMY AND NAVY—Continued.

An act of Congress approved June 30, 1914, provides that "Hereafter the total number of Chaplains and Acting-Chaplains in the Navy shall be one to each twelve hundred and fifty or the total personnel of the Navy and Marine Corps as fixed by law, including Midshipmen, apprentice seamen and naval prisoners, and of the total number of Chaplains and Acting-Chaplains herein authorized, ten per centum thereof shall have the rank of Captain in the Navy, twenty per centum the rank of Commander, twenty per centum the rank of Lieutenant-Commander, and the remainder to have the rank of Lieutenant and Lieutenant (junior grade)." Acting-Chaplains have the rank, pay and allowances of Lieutenant (junior grade), and, after serving as such at sea for three years, are appointed Chaplains. The act provides further that not more than seven Acting-Chaplains shall be commissioned Chaplains in any one year.

(a) Figures to the nearest dollar. The base pay in all armies is increased for length of service by percentages similar in all. In European armies officers receive extensive allowances in addition to their pay. The laws and regulations in the different countries about pay and allowances are so voluminous and cover so many varying conditions that a simple comparison of the amounts received either in pay or allowances is very difficult. The table gives, however, approximately the minimum pay for the grade.

(b) Grade of Lieut.-General discontinued in United States by act of Congress, March 2, 1907.

(c) In the British army and many others the grade of Brigadier-General is not a permanent grade, but is temporary and ex-officio only.

(d) In United States pay is increased with each enlistment to the seventh. Enlisted men may retire on thirty years' service with 75 per cent. of pay and allowances.

NOTE—The United States and Great Britain are the only countries having volunteer armies, and the United States the only one having a thoroughly democratic army in which both officers and men are drawn from all walks of life and which, therefore, has to offer monetary inducements in competition with the wages of labor.

In a memorandum for the Secretary of War on the subject of the pay and allowances of the different countries Brig.-Gen. M. M. Macomb, President of Army War College, made the following remarks:

"In order to make intelligent comparison of the figures given it is necessary to take into account—

1. The purchasing power of a dollar, or the cost of living in different countries.

2. That the United States and Great Britain are the only countries adhering to a volunteer system and hence having to offer monetary inducements for soldiers in competition with the wages of labor.

3. That as regards officers, the United States has the only democratic volunteer army. Its officers are drawn from all walks of life, and it is supposed that their salaries are sufficient to support them and their families.

In Great Britain officers are drawn almost entirely from the upper and wealthier classes, and it is not supposed that their salaries are sufficient to support them. For example, second sons and remittance men generally, if possible, become officers of the army or navy, enter the diplomatic service or the clergy.

In Germany an officer before receiving permission to marry must show that he or his wife has sufficient private income to maintain himself according to his position.

In the matter of pay a simple comparison of the figures in this table, without having in mind the preceding remarks, can only lead to erroneous conclusions.

## ALLOWANCES.

In the matter of allowances, all soldiers in all armies receive quarters, clothing, and rations. All officers receive quarters or allowance in lieu

thereof. All mounted officers receive allowances for horse and equipment. Beyond these the allowances in different armies are impossible of comparison. In the United States officers receive allowances for fuel and light, extra pay when on aviation duty, and both officers and soldiers receive additional pay for tropical service.

In European armies the pay for different duties and the allowances for different circumstances are so many that books are required to cover them. In Russia, for example, the subject of pay is covered in four volumes.

In England additional pay is given for foreign service, for command, for armament pay, for engineer pay, for corps pay, and allowances for fuel, light, servants, mess, official entertainments, etc.

In France additional pay is given for children, for belonging to the Legion of Honor, for prison duty, for marches and manoeuvres, for being stationed in Paris (on account of the high cost of living), etc., and allowances for service expenses incident to commands, office expenses, etc.

In general, the allowances in Europe for officers are relatively greater than in the United States and the pay less. But the allowances are so varied, not only between different grades but between officers and soldiers of the same grades, and the whole subject so comprehensive that any attempt to reduce the allowances of the armies of the world to a uniform basis so that they can be compared in a table is an impossibility.

## THE ARMED STRENGTH OF THE WORLD.

COMPILED from the latest available data, but figures applying to the armies and navies of nations at war are subject to material change because of losses in battle. For the Army and Navy of the United States, see pages devoted thereto. [Consult Index.]

The actual amounts of the casualties of the several belligerent countries being unknown, therefore, they have not been considered.

The data given includes only forces available in, and by the particular countries, without reference to colonial possessions, except as noted below:

\* Militia basis or system. a Average annual contingent included. b France, colonial army 134,000 additional; part of this force in France. c Germany, colonial army 10,599 additional. d Italy, colonial army 23,000 additional. e Great Britain, colonial army 117,517 additional. f Spain, colonial army 10,920 additional. g Netherlands, colonial army 40,000 additional. h Portugal, colonial army 8,105 additional.

NOTE—The number of effectives available would be from 50 to 75 per centum of the total number of available. The figures under "Total Available, Unorganized" are arrived at by taking a fixed percentage of the total population, which is supposed to represent the males of military age.

## PROTECTION OF THE ARMY AND NAVY UNIFORM.

An act of Congress approved March 1, 1911, entitled "An act to protect the dignity and honor of the uniform of the United States," provides: "That hereafter no proprietor, manager or employé of a theatre or other public place of entertainment or amusement in the District of Columbia or in any Territory, the District of Alaska or Insular possessions of the United States, shall make or cause to be made any discrimination against any person lawfully wearing the uniform of the Army, Navy, Revenue Cutter Service or Marine Corps of the United States, because of that uniform, and any person making or causing to be made such discrimination shall be guilty of a misdemeanor, punishable by a fine not exceeding five hundred dollars."

## CHIEF OF NAVAL OPERATIONS.

The Naval Appropriation act, approved March 4, 1915, provides that "There shall be a Chief of Naval Operations, who shall be an officer on the active list of the Navy, appointed by the President by and with the advice and consent of the Senate, from among the officers of the line of the Navy not below the grade of Captain, for a period of four years, who shall, under the direction of the Secretary of the Navy, be charged with the operations of the fleet, and with the preparation and readiness of plans for its use in war; provided, that if an officer of the grade of Captain be appointed Chief of Naval Operations, he shall have the rank, title, and emoluments of a Rear-Admiral while holding that position." Capt. William S. Benson, formerly Commandant of the Navy Yard, Philadelphia, Pa., has been selected for duty as Chief of Naval Operations and holds the rank of Rear-Admiral while so serving.

## INTERNATIONAL ORDER OF THE KING'S DAUGHTERS AND SONS.

Headquarters, 156 5th Ave., New York City. Officers: *President*—Mrs. A. H. Evans. *General Secretary*—Miss Clara Morehouse. *Treasurer*—Mrs. K. M. Farnsworth.

The order is an interdenominational, religious and philanthropic society, working locally in Circles, County and City Unions, Chapters, National, State and Provincial organizations. Branches are established in thirty-two States and in eight Canadian provinces.

The objects of the order are "the development of spiritual life and the stimulation of Christian activities." It has a paid membership in all countries of 52,000. The order has established and is supporting several hundred institutions of different kinds in different localities. Its members are engaged in every form of helpful work, religious, educational and philanthropic. The badge is a small silver cross, which is also the corporate seal of the society. A monthly magazine, *The Silver Cross*, is the official organ of the order.

## POINTS CONCERNING UNCLE SAM'S NAVY.

To provide for the welfare and comfort of the officers and enlisted men of the Navy during the fiscal year of 1916, it is going to cost Uncle Sam just \$41,370,563. Of this amount \$11,605,153 is required to pay the officers on the active list, while the retired officers receive the sum of \$3,070,230.

The perquisites allowed officers of the Navy will aggregate about three-quarters of a million dollars in 1916. Of this amount \$550,000 will be spent in providing quarters for those officers who cannot be accommodated in buildings or houses maintained by the Government, and \$200,000 for the item of heat and light for officers using other than Government quarters and in Government quarters where no heating and lighting plant is maintained by the Government; also the item of rations, for enlisted men and certain officers, which figured at 30 cents a day amounts to nearly \$5,500,000. The sum of \$540,000 is required to pay the midshipmen under instruction at the Naval Academy.

The pay of the enlisted men of the Navy is divided into the following items. Pay of 48,000 petty officers, seaman, etc., \$23,616,000; 3,500 apprentices under training, \$742,560; 435 retired enlisted men, \$340,000, and 1,000 enlisted men in prisons undergoing sentences of court-martial, etc., \$200,000. Each man in the Navy holding an honorable discharge receives a bounty. This item will cost the Government \$927,000 in 1916. There is also required the sum of \$15,520 for interest on the deposits held by Uncle Sam for the enlisted men of the Navy. One hundred and sixteen thousand nine hundred and forty dollars is required to pay the Female Nurse Corps of the Navy and \$15,480 is allowed them for commutation of quarters.

Each officer or enlisted man in the Navy who dies from wounds or disease contracted in the line of duty is entitled to have paid to his beneficiary a sum equal to one-half of his annual pay. For this purpose the sum of \$75,000 will be required for the fiscal year 1916.

## MORTALITY OF THE NAVY AND MARINE CORPS.

For comparison with civil mortality statistics, the following data concerning the mortality of the United States Navy and Marine Corps were supplied by the Surgeon-General of the Navy:

The low rates as compared with those of the registration area are, of course, dependent upon the special age distribution of the naval force, which is for the most part composed of men in the most favorable periods of life. The marked reduction in the mortality of the entire service from 8.88 in 1900 to 3.82 in 1913 is notable. Comparative figures for the English Navy, 1911, are as follows: Average strength of service afloat, 117,100; total deaths, 366, or 3.12 per 1,000; deaths from diseases, 260, or 2.22 per 1,000; deaths from violence, 106, or 0.90 per 1,000.

## THE NAVY LEAGUE OF THE UNITED STATES.

The Navy League of the United States was incorporated under the laws of the State of New York on January 2, 1903, its declared object being "to acquire and spread before the citizens of the United States, through branch organizations and otherwise, information as to the condition of the naval forces and equipment of the United States, and to awaken public interest and co-operation in all matters tending to aid, improve and develop their efficiency." It is strictly non-partisan. Men, women and children are eligible to membership. The button of the league is of silver gilt and blue enamel, with letters in white and anchor of gold, and is worn by members. The membership fee is two (\$2) dollars annually. The headquarters of the league is at the Southern Building, Washington, D. C.

The General Officers are: *President*—Col. Robert M. Thompson, *Secretary*—Arthur H. Dadmun, *Treasurer*—Lewis L. Clarke.

NOTE.—Battleships Nos. 43 and 44 have been authorized. Design in course of preparation.

The origin of the Navy Department may be said to date from October 13, 1775, when Congress authorized the equipment of two cruisers, mounting respectively 10 and 14 guns. Before the end of that year 15 more vessels of from 20 to 36 guns were authorized. The affairs of the Navy were at that time intrusted to a "Maritime Committee." In 1798 the present department was formally created, and Benjamin Stoddart appointed the first Secretary.

JOINT STATE AND NAVY NEUTRALITY BOARD.

Shortly after the outbreak of the European war the President of the United States appointed a Neutrality Board to advise the Department of State and other departments of the Government regarding the numerous questions with respect to the duties and the rights of the United States as a neutral nation, in cases which have constantly arisen and many of which are of a very delicate character. The Chairman of the Neutrality Board is Dr. James Brown Scott, formerly Solicitor for the Department of State and now Secretary of the Carnegie Endowment for International Peace and Director of its Division of International Law; associated with him are Capt. Harry S. Knapp, member of the General Board of the Navy and of the joint Army and Navy Board, and Capt. James H. Oliver, Director of the Office of Naval Intelligence and member of the General Board of the Navy. Headquarters, Washington, D. C.

The Neutrality Board holds daily sessions to consider questions referred to it by the Department of State.

## Principal Battleships of Naval Powers.

(Compiled from the latest authentic sources of official information. Only the principal and more modern battleships are given. Most of the principal powers possess powerful armored cruisers equal to or in greater number than battleships, and in addition many vessels of smaller and older types.)

Following Great Britain, the first naval power, Germany now ranks second, the United States third, France fourth, Japan fifth, Russia sixth, Italy seventh, and Austria eighth.

## UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

THE students of the Naval Academy are called midshipmen. Two midshipmen are allowed for each Senator, Representative, and Delegate in Congress, two for the District of Columbia, ten each year from the United States at large and fifteen each year from the enlisted personnel of the Navy who have been one year in the service. The appointments from the District of Columbia and ten each year at-large are made by the President, while the fifteen each year from the enlisted personnel of the Navy are made by the Secretary of the Navy after a competitive examination. One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President, on the recommendation of the Governor of Porto Rico. The Congressional appointments are equitably distributed, so that as soon as practicable each Senator, Representative, and Delegate in Congress may appoint one midshipman during each Congress. The course for midshipmen is four years at the academy, when the succeeding appointment is made and the examination for graduation takes place. Midshipmen who pass the examination for graduation are appointed to fill vacancies in the lower grade of the Line of the Navy, in the order of merit as determined by the Academic Board of the Naval Academy. The act of June 29, 1906, prescribes that the Secretary of the Navy shall as soon as possible after June 1 of each year preceding the graduation of Midshipmen in the succeeding year, notify in writing each Senator, Representative, and Delegate in Congress of any vacancy that will exist at the Naval Academy because of such graduation, and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative or Delegate, if such recommendation is made by March 4 of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional District, or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional District, or Territory in which the vacancy will exist, and of the legal qualification under the law as now provided. Candidates allowed for Congressional districts, for Territories and for the District of Columbia must be actual residents. Candidates at the time of their examination must be physically sound, well formed and of robust constitution. Attention will also be paid to the stature of the candidate, and no one manifestly under size for his age will be received at the academy. The height of candidates for admission shall not be less than 5 feet 2 inches between the ages of 16 and 18 years and not less than 5 feet 4 inches between the ages of 18 and 20 years; and the minimum weight at 16 years of age shall be 100 pounds, with an increase of not less than 5 pounds for each additional year or fraction of a year over one-half. Any marked deviation in the relative height and weight to the age of a candidate will add materially to the consideration for rejection. Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married, before his graduation, shall be dismissed from the service. All candidates must, at the time of their examination for admission, be between the ages of 16 and 20 years. The pay of a midshipman is \$600, beginning at the date of admission. The regulations regarding places and times of examinations and subjects of examinations may be obtained by addressing the Chief of the Bureau of Navigation, Navy Dept., Washington, D. C.

## UNITED STATES NAVAL ENLISTMENT.

THE term of enlistment in the Navy is four years, except for boys under eighteen, who enlist for minority, with the consent of parents or guardian. Minors over eighteen are enlisted without the consent of parents or guardian, but they must furnish a birth certificate or verified written statement of parent or guardian as to their age. Only American citizens of good character who may reasonably be expected to remain in the service are enlisted, and every applicant must pass the required physical examination, be able to read and write English and take the oath of allegiance. No boy under seventeen can be enlisted except by special permission from the department.

Information regarding rates, with pay, opportunities for advancement, allowances, etc., can be obtained by addressing: BUREAU OF NAVIGATION, NAVY DEPARTMENT, WASHINGTON, D. C.

## NAVY RECRUITING SERVICE.

On July 1, 1910, publicity offices were established at New York, N. Y. (153 West Twenty-third Street), for the Eastern district, and Indianapolis, Ind. (Post-Office Building) for the Western district, where full information regarding the pay, opportunities, etc., of service in the United States Navy may be obtained. Inquiries from the different States should be sent to the nearest of the two districts enumerated above. Address "Publicity Office, Navy Recruiting Service, 153 West Twenty-third Street, New York," or "Indianapolis, Ind.," as the case may be. All inquiries will be promptly answered by an officer of the Navy. Better still, if you are in a position to do so, call at the nearest station and get all information first hand from the enlisted men who have seen service in our Navy.

## NATIONAL ASSOCIATION OF PATRIOTIC INSTRUCTORS.

President—John B. Lewis. Secretary—Mrs. Elizabeth Robbins Berry, 8 Forest Street, North Cambridge, Mass. Treasurer—Mrs. Nellie D. Orchard, New London, Ct. Objects—The objects of this association shall be to afford all persons interested in the promotion of patriotism and good citizenship an opportunity for acquaintance and interchange of ideas and experiences; to study systematically the best methods for the advancement of patriotic work; by unity of effort to secure the enactment and enforcement of such laws as will safeguard our American institutions and protect our flag from insult or desecration, or displacement by any other banner, also of laws in every State for the flying of the flag over public buildings and schoolhouses. Eligibility—Members of all hereditary and other patriotic societies, and all desirable persons over 15 years of age, who are interested in the objects of this association may become members. The association is represented in forty-two States and the District of Columbia. Annual meetings at the same time and place as the Grand Army of the Republic. Headquarters, 101 Tremont Street, Boston, Mass.

a. In the United States and nearly all other countries, Admiral is the highest naval grade. b. Base pay or pay proper of officers. For increase for length of service, etc., see Navy Pay Roll. c. Pay proper; does not include allowances. d. Does not include table money. e. Data for enlisted personnel not available. f. A provision contained in the Naval Appropriation act approved March 4, 1915, provides that the Commanders-in-Chief of the Atlantic, Pacific, and Asiatic Fleets shall have the rank of Admiral while so serving, with pay at the rate of \$10,000 per annum, and that the officers designated as second in command of the above-named fleets shall have the rank of Vice-Admiral while so serving, with pay at the rate of \$9,000 per annum. \*This table gives approximately the correct average of pay of each grade. It is practically impossible to give the exact amounts received by officers, because of differences of pay of the same grade under varying conditions.

NAVAL ADVISORY BOARD.

The Secretary of the Navy, during the Summer of 1915, organized a Naval Advisory Board composed of a number of scientists for the purpose of making available the latent inventive genius of the country to improve the Navy by the development of inventions and such suggestions as may be of practical utility. In this connection it is the intention to establish an experimental and research laboratory in the Navy Department. The members of the Advisory Board will receive no compensation for their services, there being no provision of law providing therefor. In selecting the members of the board, the Secretary requested Mr. Thomas A. Edison to become Chairman, who has accepted such designation. He further requested eleven great engineering and scientific societies to select by popular election two members each to represent their society on the board. The following are the societies with the members selected and accepted:

American Chemical Society—W. R. Whitney and L. H. Baekeland.  
American Institute of Electrical Engineers—Frank Julian Sprague and Benjamin C. Lamme.  
American Mathematical Society—Robert Simpson Woodward and Arthur Gordon Webster.  
American Society of Civil Engineers—Andrew Murray Hunt and Alfred Craven.  
American Aeronautical Society—Matthew Bacon Sellers and Hudson Maxim.  
Inventors' Guild—Peter Cooper Hewitt and Thomas Robins.

American Society of Automobile Engineers—Howard E. Coffin and Andrew L. Riker.  
American Institute of Mining Engineers—William Lawrence Saunders and Benjamin Bowditch Thayer.  
American Electrochemical Society—Joseph William Richards and Lawrence Addicks.  
American Society of Mechanical Engineers—William Le Roy Emmet and Spencer Miller.  
American Society of Aeronautic Engineers—Henry A. W. Wood and Elmer A. Sperry.

The following committees have been formulated to deal with the various kinds of technical problems submitted by the Navy Department. The name of Chairman is given.

## AUSTRIA-HUNGARY.

**Francis Joseph I.**, the Emperor of Austria and King of Hungary, was born August 18, 1830, and was proclaimed Emperor of Austria after the abdication of his uncle, Ferdinand I., and the renunciation of the crown by his father on December 2, 1848. He was crowned King of Hungary June 8, 1867. He married, in 1854, Elizabeth, a daughter of Duke Maximilian of Bavaria. She died by the hand of an Anarchist in Geneva, September 10, 1898. They had issue:

1. Archduchess Gisela, born 1856; married to Leopold, son of Prince Luitpold of Bavaria.
2. Archduke Rudolf, late heir-apparent, born 1858; died by suicide, 1889. He married, 1881, Stephanie, daughter of the late King of the Belgians, and had issue one daughter, the Archduchess Elizabeth Marie, born 1883; married, 1902, Prince Otto Windisch Grätz. The widowed Crown Princess Stephanie married, March, 1900, Count Elemer Lonyay.

3. Archduchess Marie Valerie, born 1868; married, 1890, Archduke Francois-Salvator.

The Emperor's eldest brother was Archduke Ferdinand (Maximilian), Emperor of Mexico from 1864 to 1867, when he was shot at Queretaro. His widow, Marie Charlotte, survives him.

On the death of the Crown Prince, in 1889, the right of succession to the throne passed to the Emperor's second brother, the Archduke Charles Louis, who was born 1833 and died 1896; he married, first, 1856, Marguerite, Princess of Saxony; she died 1858; second, 1862, the Princess Annunciat, daughter of King Ferdinand II. of Naples; she died 1871; third, 1873, Marie-Therese of Portugal and had issue (second marriage) Archduke Francois Ferdinand, born 1863, who was the heir-presumptive to the throne (married morganatically, 1900, Countess Sophie Chotek, who had title Duchess of Hohenberg conferred upon her October, 1909, and renounced the claim of his issue by her to the throne). They were both shot and killed in Sarajevo, Bosnia, 1914, by an assassin; the Archduke Otto, born 1865, died 1906, married to the Princess Marie Josefa of Saxony, had two sons (Archduke Charles, born 1887, heir to the throne, married, 1911, Princess Zita of Parma, has issue Francis Joseph Otto, born 1912, Adelaide-Marie, born 1914, Robert Charles Ludwig, born February, 1915; and Maximilian, born 1895; the Archduke Ferdinand, born 1868, renounced his rights in 1911 to marry, Berta Czuber. He died 1915. By a third marriage the Archduke Charles Louis had two daughters, Archduchess Marie Annunciat, born 1876, an abbess in a convent, and Archduchess Elizabeth Amelie, born 1878, married 1903, Prince Aloyse of Liechtenstein.

The Emperor has a third brother, the Archduke Louis Victor, born 1842, who is unmarried.

There are over eighty other archdukes and archduchesses of Austria, cousins of the Emperor, collateral relatives of the reigning house and members of the formerly reigning branches of Tuscany and Modena.

## BAVARIA.

**Louis III.**, King of Bavaria, born January 7, 1845, succeeded his cousin, Otto, who, after having been nominal King since Louis II.'s death in 1886, was declared incapable of occupying the throne in October, 1913. It was necessary to alter the Constitution to bring about the succession. Louis III. married the Archduchess Maria Theresa of Austria-Este, and has six daughters and three sons. The eldest, Prince Rupert, the Crown Prince, was born in 1869, and in 1900 married his cousin, Duchess Marie Gabriele, who died October, 1912, leaving the Princes Luitpold, born 1901, and Albrecht, born 1905, and Rudolf, who died 1912. 2. Princess Adelgunda, born 1870. 3. Princess Marie, born 1872, married Prince Ferdinand of Bourbon. 4. Prince Karl, born 1874. 5. 4. Grand Duke Sergius, born 1857, married, 1884, Princess Elizabeth of Hesse-Darmstadt, daughter of Princess Alice of England. Assassinated in 1905. He left no issue.

5. Grand Duke Paul, born 1860, married, 1889, Princess Alexandra of Greece. She died 1891, leaving a son, the Grand Duke Dimitri, born 1891, and a daughter, Marie, born 1890, married, 1908, Prince Wilhelm of Sweden, divorced. In 1902 he contracted a morganatic marriage with Olga Valerianovna, now Countess Hohenfelsen.

A grand uncle, the Grand Duke Constantine, born 1827; died 1892; married, 1848, Princess Alexandra of Saxe-Altenburg, and had issue five children, the Grand Duke Nicholas, born 1850, being the eldest son, and the Grand Duchess Olga, born 1851, the eldest daughter, being married to the late King of the Hellenes.

A second grand uncle, the Grand Duke Nicholas, born 1831, died in 1891, married, in 1856, the Princess Alexandra of Oldenburg, and had issue two sons, Grand Duke Nicholas, born 1856, married, 1907, Princess Anastasia, daughter of the present King of Montenegro and sister of Queen Helene of Italy, and Grand Duke Peter, born 1864, married, in 1889, Miliza, sister of the preceding.

The last grand uncle of the Emperor, Grand Duke Michael, born 1832, died in 1909. He married, 1857, Princess Cecilia of Baden, and had issue six children, the eldest daughter, Anastasia, born 1860, being the widow of the Grand Duke of Mecklenburg-Schwerin and mother of the German Crown Princess Cecilia. The Grand Duchess Anastasia is now known as Grand Duchess Mikalovitch.

The Russian reigning family is descended in the female line from Michael Romanof, elected Czar in 1613, and in the male line from Duke Karl Friedrich of Holstein-Gottorp. The members of the family for over two centuries, however, have married so generally into the German royal houses that the present Romanofs are practically, by blood, Germans; as much so as their kinsman, the head of the German Empire.

## SAXONY.

**Friedrich August III.**, King of Saxony, born May 25, 1865, succeeded his father, King Georg, October 15, 1904. He married, in 1891, Prince Louise of Tuscany (marriage dissolved 1903). The King has three daughters and three sons, the Crown Prince being Georg, born 1893; Prince Friedrich Christian, born 1893; Prince Ernst Heinrich, born 1896; Princess Margarethe, born in 1900; Princess Maria Alix, born 1901; Princess Anna Monica, born 1903.

The King has two sisters, Mathilde, born 1863, unmarried, and Maria Josepha, born 1867, married to the late Archduke Otto of Austria (died 1906), and two brothers, Johann Georg, born 1869, married first to Duchess Isabella of Württemberg (died 1904), and in 1906 to Princess Maria Immaculata of Bourbon, and Max, born 1870, a priest in holy orders.

The royal house of Saxony is one of the oldest in Europe, having given an emperor to Germany as early as the beginning of the tenth century. The Elector of Saxony assumed the title of King in 1806, and was confirmed therein in 1815.

## SERBIA.

**Peter I.**, King of Serbia, born in Belgrade, 1844, son of Alexander Kara-Georgievitch, after the murder of King Alexander and Queen Draga, he was proclaimed King; ascended the throne June 2, 1903. King Peter I was married in 1883 to Princess Zorka of Montenegro, who died in 1890. He has two sons and a daughter—George, born 1887 (who renounced his right to the throne in 1909); Alexander, born 1889, and Helene, born 1884. King Peter, owing to continued ill health, has delegated full royal authority to his son Alexander for the purposes of government.

King Peter is descended from Karageorge Petrovitch, who was proclaimed Commander-in-Chief in Serbia, but was murdered in 1817.

The King has one brother, Prince Arsène, born 1859, married, 1892, Aurora Demidoff (divorced 1896); offspring: Prince Paul, born April 15, 1893.

## SPAIN.

**Alfonso XIII.**, King of Spain, born May 17, 1886, nearly six months after the death of his father, **Alfonso XII.** His mother is Maria Christina, an Austrian Princess. He married in 1906 the English

Princess Victoria Eugénie, daughter of the late Prince Henry of Battenberg and Princess Beatrice (daughter of the late Queen Victoria). He has four sons: Alfonso, Prince of the Asturias, heir to the Spanish throne, born the 10th of May, 1907; Prince Jaime, born on the 23d of June, 1908, and is deaf and dumb; Prince Juan, born June 20, 1913, and Prince Gonzalo, born October 24, 1914; and two daughters, Princess Beatrice, born June 22, 1909, and Princess Maria Christina, born December 12, 1911, who is deaf.

The King's sisters, Maria de las Mercedes, born September 11, 1880, married, February 14, 1901, Prince Carlos of Bourbon, son of Count Caserta, died October 17, 1904; issue: Alfonso, born 1901, and Isabel, born 1904; Infanta Maria Teresa, born 1882, and married to Prince Ferdinand of Bavaria, died on September 23, 1912, suddenly from the after effects of childbirth, leaving issue: Louis Alfonso, born in 1906; José Eugenio, born in 1909, Maria de las Mercedes, born in 1911, and Pilar, born September 5, 1912. Prince Ferdinand remarried October 1, 1914, with Doña Maria Luisa Pie de Concha. This lady on her marriage was created Duchess of Talavera de la Reina, and given the courtesy title of Highness by King Alfonso.

The King's aunts are the Infantas Isabel, born December 20, 1851, widow of the Count de Girgenti; Maria de la Paz, wife of Prince Ludwig of Bavaria, and Euallie, born February 12, 1864, wife of Prince Antoine of Orleans (marriage dissolved July, 1900).

The King's grandmother, ex-Queen Isabel, born in 1830, crowned 1833, abdicated 1870, died April 9, 1904. Her husband, the Infante Francis d'Assisi, born 1822, died in 1902.

The King's grandaunt, the Infanta Louisa, widow of the Duke of Montpensier (son of King Louis Philippe of France), now dead, was the mother of a son and three daughters: 1. The wife of the late Count of Paris and mother of the French pretender, the Duke of Orleans. 2. The late Queen Mercedes, wife of Alfonso XII., deceased. 3. The Infanta Christina, also deceased.

A second cousin of the King was Don Carlos, born 1848, the pretender to the Spanish throne, who died July 18, 1909, leaving a son, Prince Jaime, born 1870, the present pretender, and four daughters.

The Spanish reigning family are Bourbons, descendants of King Louis XIV. of France.

#### SWEDEN.

Gustaf V., King of Sweden, born June 16, 1858; son of Oscar II. and Sophie, Princess of Nassau, and great-grandson of Marshal Bernadotte. He married, 1881, the Princess Victoria of Baden, and has had three sons, the eldest of whom is the Crown Prince Gustaf Adolf, born 1882, who married, in 1905, Princess Margaret Victoria of Connaught, and has three sons and a daughter: Gustaf Adolf, born 1906; Sigvard, born 1907; Princess Ingrid, born 1910; Bertil, born 1912. The King's other sons are: Prince Wilhelm, born 1884, and married, 1908, the Grand Duchess Maria Pavlovna of Russia (issue one child, Prince Lennart, born 1909), divorced 1914, and Prince Eric, born 1889. The King has three brothers: Prince Oscar, born 1869, married Lady Ebba Munk, one of his mother's maids of honor, and relinquished his rights to the throne; Prince Carl, born 1861, and married, 1897, Princess Ingeborg, daughter of King Frederik of Denmark; offspring: Margaretha, born 1898; Martha, born 1901; Astrid, born 1905; Prince Carl, born 1911. Another brother is Prince Eugene, born 1865. The King has a cousin, Louise, married to the late King Frederik VIII. of Denmark. The royal family comes from Napoleon's Marshal Bernadotte, a Frenchman, who was elected heir-apparent to the crown of Sweden in 1810 and became King in 1818.

#### WURTEMBERG.

William II., King of Württemberg, born February 25, 1848, son of the late Prince Friedrich and of late Princess Katharine of Württemberg; ascended the throne on the death of Karl I., October 6, 1891. He married, 1877, Princess Marie of Waldeck, who died 1882, leaving a daughter, Pauline, born 1877, and who married, 1898, Prince Friedrich of Wied. The King married, second, Princess Charlotte of Schaumburg-Lippe, by whom he has no children. As the King has no male descendants, the heir-presumptive is his distant kinsman, Duke Albert, born 1865, married to the Archduchess Margareta, niece of the Emperor of Austria, who died in 1902, and has three sons and three daughters.

### THE FRENCH PRETENDERS.

#### BONAPARTIST.

Of the Emperor Napoleon I. and his brothers Joseph and Louis, male issue is now extinct. The Emperor's brothers Lucien and Jérôme are represented by the following living descendants, and they constitute the present Imperialist house of France:

Prince Victor Napoleon (of the house of Jérôme), born July 18, 1862, is the son of the late Prince Napoleon, who died March 18, 1891, and the Princess Clotilde, who died June 25, 1911, sister of the late King Humbert of Italy. The Prince has been recognized by his party as the undisputed head of the Bonaparte family. He lives in Brussels, and in 1910 married Clementine, third daughter of Leopold I., King of Belgium. A daughter was born in 1912, and a son in 1914. His only brother, Prince Louis Napoleon, born 1884, is a General in the Russian Army, and is unmarried. His sister, Princess Letitia, born 1866, is the widow of Prince Amedeo of Italy, her own uncle, by whom she had a son, Prince Humbert, born 1889.

The late aunt of Prince Victor Napoleon, the Princess Mathilde, born 1820, married, 1840, Prince Demidoff of Russia; died in 1904 without children.

Prince Charles Napoleon, brother of the late Cardinal Bonaparte, who died February 12, 1899, was the last representative of the eldest son of Napoleon's brother, Lucien, in the male line. He was born 1839, was married, and had two daughters—Marie, wife of Lieutenant Gotti, of the Italian Army, and Eugénie, unmarried. He had three sisters, married respectively to the Marquis of Roccajovine, Count Primoli, and Prince Gabrelli, who have descendants.

Prince Roland Bonaparte is the only living male cousin of Prince Charles Napoleon. He is a son of the late Prince Pierre Napoleon Bonaparte, was born 1858, married, 1880, the daughter of Blanc, one of the proprietors of the Monte Carlo gambling-hell. His wife died in 1882, leaving him a daughter, who is married to Prince George of Greece. He has one sister, Jeanne, born 1861, and married to the Marquis de Villeneuve, who died in 1910.

Ex-Empress Eugénie, widow of Emperor Napoleon III., was a daughter of Count Cyprien de Montijo, a Spanish grandee, and was born May 5, 1826. She married 1853. Became a widow 1873. Her only son, Prince Louis Napoleon, was killed in Zululand in 1879.

#### BOURBON—ORLEANIST.

Philippe, Duke of Orleans, born 1869, succeeded his father, the late Count of Paris, in 1894, as the head of the royal family of France. He married, in 1896, the Archduchess Marie-Dorothea, daughter of the Archduke Joseph, cousin of the Emperor of Austria. His mother (still living) was the Spanish Infanta Louise of Montpensier, and he has one brother, the Duke of Montpensier, and four sisters—Princess Amélie, married the late King Charles of Portugal; Helena, married to the Duke of Aosta, nephew of the late King Humbert of Italy; Isabel, married to the Duke of Guise, son of the Duke of Chartres, and Louise, married to Prince Charles of Bourbon, grandson of King Ferdinand II. of Naples.

The only uncle of the Duke of Orleans, who died 1910, was the Duke of Chartres, born 1840. He married, 1863, Frances, Princess of Orleans, and had two children: Marguerite, born 1869, married, 1896, Patrice MacMahon, Duke of Magenta, and Jean, Duke of Guise, born 1874, married, 1899, Isabelle, Princess of France. The issue of the latter are Isabelle, born 1900; Frances, born 1902; Anne, born 1906, and Henry, born 1908.

## REIGNING FAMILIES—Continued.

The grand uncles of the Duke of Orleans (who were the sons of King Louis Philippe) are dead. They were Louis, Duke of Nemours, born 1814, died 1896, married 1840, Victoria, Princess of Saxe-Coburg and Gotha; Prince of Joinville, born 1818, died 1900, married, 1843, Frances, Princess of Bragançe; Antony, Duke of Montpensier, born 1824, died 1890, married, 1846, Louise, Infanta of Spain. The children of the Duke of Nemours are Gaston, Comte de Eu, born 1842, married, 1864, Isabelle, Princess of Bragançe, and has three sons—Pierre of Alcantara, born 1875; Louis, born 1878, and Antony, born 1881; Duke of Alençon, born 1844, died 1910, married, 1868, Sophie, Duchess of Bavaria (who was burned in the Paris bazaar fire in 1897), and Blanche, born 1857. The children of the Prince of Joinville are Frances, born 1844, married, 1863, Robert, Prince of Orleans, Duke of Chartres, and Pierre, Duke of Penthièvre, born 1845. The children of the Duke of Montpensier are Isabelle, born 1848, married, 1864, Philippe, Count of Paris, and Antony, Duke of Galliera, born 1866, married, 1886, Eulalie, Infanta of Spain. Prince Pierre of Alcantara, son of the Comte de Eu, has two children, Isabelle, born 1911, and Pierre, born 1913. His brother, Prince Louis, married, 1908, Marie, Princess of Bourbon-Siciles, and has three children, Pierre, born 1909; Louis, born 1911, and Pie-Marie, born 1913. Another brother, born 1881, is unmarried.

The Duke of Alençon has issue, Princess Louise, born 1869, married, 1891, Prince Alphonse of Bavaria; Emmanuel, Duke of Vendôme, and Alençon, born 1872, married Henrietta, Princess of Belgium. The children of Prince Antony are Alphonse, born 1886, married 1909, Beatrice, Princess of Saxe-Coburg and Gotha, and Louis Ferdinand, born 1888.

By the death of the Count of Chambord, in 1883, the elder line of the Bourbons of France became extinct, and the right of succession merged in the Count of Paris, grandson of King Louis Philippe, representative of the younger, or Orleans, line.

## DURATION OF SUNSHINE ON UNITED STATES TERRITORY.

THE acquisition of Porto Rico, the Sandwich and Philippine Islands, and a portion of the Navigator or Samoan Group has very considerably affected the duration of continuous sunshine on our territory. The mathematical discussion of this subject would be out of place here, but any one who desires to inform himself on this matter can easily and satisfactorily do so by using a terrestrial globe having an artificial horizon attached to it, and carefully complying with the following instructions: Place the globe so that the North Pole shall be directed toward the north, and elevate it 23° above the horizon as indicated by the brass meridian. Assuming, of course, that the sun is in the zenith, this will be the position of the earth in reference to the sun at the Summer solstice, June 22. As we turn the globe on its axis from west to east, the sun will be rising at all places on the western and setting at all places on the eastern horizon, and we shall find on turning the globe through an entire revolution that some portion or other of our territory—including the islands named above—will always be above the horizon or will have continuous sunshine during the twenty-four hours. If we now depress the North Pole 23° below the horizon we shall have the relative position of things at the Winter solstice, December 22, and we shall find the opposite conditions to prevail; that is to say, the sun will not now shine continuously on our territory, but some portion of it will always be involved in darkness or below the horizon.

Again, if we place the poles of the globe in the horizon, which is the relative position at the equinoxes, March 21 and September 23 and turn the globe through a complete revolution, we shall find that for a very short time during the twenty-four hours the whole of our territory will be below the horizon or in darkness. Finally, let us elevate the North Pole about 5° above the horizon; then we shall find, as we revolve the globe on its axis, that some portion of our territory is always above the horizon or has sunshine. Therefore, we conclude that when the sun's northern declination exceeds 5°, or from the 3d of April to the 10th of September, the sun will shine continuously over some part or other of United States territory.

If we consider the effect of refraction, which accelerates the time of rising and retards the time of setting, the above dates may be practically extended to within two or three days of the equinoxes.

Great Britain, France, and Holland are the only nations on whose dominions the sun never sets. Those of Great Britain are very extensive and scattered far and wide over both hemispheres, so that while the sun may be setting at one it is rising on another. The French possessions consist for the most part of numerous small islands in the Atlantic, Indian, and Pacific Oceans, with continental territories in South America, Africa, and Asia, and accordingly are so distributed that the sun is always above the horizon of some of them. The foreign possessions of Holland are far more extensive than most people imagine. With the exception of Dutch Guiana in South America, they consist of two groups of islands—one on the coast of Venezuela and the other embracing Sumatra, Java, Celebes, portions of Borneo and New Guinea and a host of smaller islands scattered throughout the East Indian Archipelago, extending over 46° of longitude. These, with Holland itself, are so situated as to their difference of longitude that the sun is always shining on some of them.

On the conclusion of the war between Russia and Japan in 1905 a treaty and additional agreement relating to Manchuria were entered into between Japan and China. By the former the Chinese Government consented to all the transfers and assignments made by Russia to Japan in Manchuria; and by the latter cities and towns in Manchuria were opened as places of international residence and trade. In July, 1910, a convention was signed between Russia and Japan agreeing to co-operate to maintain the *status quo* in Manchuria in accordance with the treaties and conventions already made. In March, 1915, China agreed to extend the lease of the territory on the peninsula to 99 years.

Latest estimates of the foreign residents at the open ports of China are as follows: British, 8,966; Japanese, 30,219; Americans, 5,340; Russians, 56,765; Germans, 2,949; French, 2,292; Portuguese, 3,486; other nationalities, 3,810; total, 163,327.

Commerce.—The foreign trade of China (exclusive of bullion) was as follows in 1913: Imports, £86,118,303; exports, £60,915,941.

Railways.—About 5,960 miles, inclusive of the Manchurian lines.

Shipping.—In 1913 there were 1,130 vessels registered for inland waters navigation; of these 194 were foreign and 936 under the Chinese flag. In 1913 the total tonnage of vessels entered and cleared at the treaty ports was 93,334,830; of these 898,750 tons were American, 38,120,300 tons British, 1,232,763 tons French; 6,320,466 tons German; 23,422,487 tons Japanese; 1,687,796 tons Russian; 19,903,944 tons Chinese.

Telegraphs.—The total length of line in operation at the end of 1914 was 36,339 miles, with 49,963 miles of wire.

Postal.—The number of Chinese post-offices in 1913 was 7,808, and the number of postal articles handled was 629,500,000.

## THE BRITISH PARLIAMENT.—(See foot note.)

THE supreme legislative power of the British Empire is, by its Constitution, vested in Parliament. This body consists of two houses, the Lords and the Commons.

## THE HOUSE OF LORDS.

The House of Lords is composed of the whole Peerage of England and of the United Kingdom, and of certain representative Peers of Scotland and Ireland, but many members of these latter have also English titles which give them seats in the House. The Duke of Buccleuch sits as Earl of Doncaster, and the Duke of Leinster as Viscount Leinster. The House at present consists of 3 Princes of the Blood, 2 Archbishops, 21 Dukes, 26 Marquesses, 121 Earls, 46 Viscounts, 24 Bishops, 356 Barons, 16 Scottish Representative Peers elected for each Parliament, and 27 Irish Representative Peers elected for life.

The Lord Chancellor of England is the Speaker of the House of Lords.

## THE HOUSE OF COMMONS.

The House of Commons consists of 670 members—465 for England, 30 for Wales, 72 for Scotland, and 103 for Ireland. Salary £400.

The division of parties in the House of Commons, after the General Election in December, 1910, was as follows: Liberals, 272; Nationalists, 76; Independent Nationalists, 8, and 42 Labor members; Unionists, 272; the ministerial majority being 126; the majority on November 1, 1914, was 96. In June, 1915, a Coalition Ministry was formed, political parties thus becoming blended.

The Speaker of the House is the Rt. Hon. James William Lowther, M. P. for Penrith.

NOTE.—The last General Election in Great Britain was held in December, 1910, and the next would, in ordinary circumstances, take place not later than December, 1915, Parliament being elected for a maximum period of five years, but it has been announced that the regular general election would be postponed until the end of the war.

**FOREIGN DIPLOMATS DISMISSED FROM UNITED STATES.**

**CITIZEN GENET**, sent here in 1793, after the execution of Louis XVI, by the French Committee of Safety, tried to commission privateers here to prey on British commerce, besides making inflammatory speeches. Thomas Jefferson asked for his recall.

The Marquis of Casa Yrujo, Spanish Minister in 1805, attempted to bribe a Philadelphia editor to favor Spain in a controversy with the United States. He was handed his passports.

**F. J. Jackson**, British Minister, was recalled because he tried to arouse feeling against the United States by circularizing British Consuls, in which he accused the American Government of bad faith in 1809.

In 1849 **M. Poussin**, French Minister, because of insolence to the American Secretary of State, was recalled.

For enlisting soldiers for the Crimean War in 1855 British Minister Crampton was recalled and the exequators of three British Consuls were cancelled.

In 1888 passports were handed Lord Sackville-West, who, in response to a decoy letter, advised Americans of British birth to vote for Grover Cleveland for President.

The Spanish Minister, Dupuy de Lome, wrote disrespectfully of President McKinley to a friend in Cuba, for which he was dismissed in 1898.

During President Taft's term passports were handed to the Nicaraguan Chargé d'Affaires, Mr. Rodríguez, to protest against the judicial murder in Nicaragua of two Americans.

The Turkish Ambassador, Rustem Bey, whose criticisms of the United States aroused so much discussion in 1914, left this country in October of that year "on leave of absence."

Recall of Dr. Constantin Theodor Dumba Austrian Ambassador, was requested by United States in September, 1915, as a result of his attempts to cripple American industries.

Formal announcement was made by Secretary of State Lansing on December 3, 1915, that Germany had been requested to immediately recall Captain Boy-Ed and Captain von Papen, the Naval and Military Attachés respectively, on account of what the United States Government considered improper activities in military and naval matters.

The present Constitution of Mexico bears date February 5, 1857, with subsequent amendments. By its terms Mexico is considered a Federative Republic, divided into States, nineteen at the outset but at present twenty-seven in number, with three Territories and one Federal District, each having a right to manage its own local affairs, while the whole are bound together in one body politic by fundamental and constitutional laws. The powers of the Federal Government are divided into three branches—the legislative, executive, and judicial. The legislative power is vested in a Congress, consisting of a House of Representatives and a Senate; the executive in a President, and the judicial in Federal Courts. Representatives elected by the suffrage of married males if eighteen years of age and twenty-one years of age if unmarried, at the rate of one member for every 40,000 inhabitants or fraction exceeding 20,000, and hold their places for two years. The qualifications requisite are to be twenty-five years of age and a resident in the State. The Senate consists of two members from each State, of at least thirty years of age, who hold their places for four years. Senators are elected indirectly, half of the Senate being renewed every two years. The members of both houses receive salaries of 3,000 pesos each year.

The President is elected by electors popularly chosen in a general election, and holds office for six years. In case of his sudden death or disability, the Vice-President, who is also permanent President of the Senate, officiates in his place. Congress holds two regular sessions annually, from September 16 to December 15, and from April 1 to May 31, and a permanent committee of both houses sits during the recesses.

## THE UNION OF SOUTH AFRICA.

A FEDERATION of four British Colonies in South Africa, namely, the Cape Colony, Natal, the Transvaal and Orange Free State, was formed provisionally in 1909 by a convention held at Cape Town. The federation was confirmed by an act passed by the British Parliament August 16, 1909, and the date appointed for the establishment of the Union was fixed for May 31, 1910. Viscount Gladstone was appointed Governor-General and assumed office on that date.

The act of Union vested the executive government in the King and his successors, a Governor-General advised by an Executive Council and Ministers of state. Legislative power was vested in a Parliament composed of the King, a Senate of forty members, eight nominated for ten years by the Governor-General in council, and eight for each original province elected for ten years by the two houses of the Colonial Legislature sitting together, and a House of Assembly, consisting of members chosen as follows: From the Cape Colony, 51; Natal, 17; Transvaal, 36; Orange Free State, 17. The Governor-General has the power to summon, prorogue and dissolve Parliament, and that body shall sit annually.

Provision is made for an Administrator for each province for five years, appointed by the Governor-General, and a Provincial Council elected for three years.

Pretoria, in the Transvaal, is the seat of Government of the Union; and Cape Town the meeting place of Parliament. The English and Dutch languages are both official. It is provided that the British South African Company's territories may be received into the Union and the government of native territories may be transferred to the Union Government.

The area of the Union of South Africa is as follows, in square miles: Cape Colony, 276,995; Natal, 35,290; Transvaal, 110,426; Orange Free State, 50,389. Total Union, 473,100.

The population is as follows: Cape Colony, 3,000,000; Natal, 1,500,000; Transvaal, 2,000,000; Orange Free State, 586,000. Total Union, 7,086,000.

## THE COMMONWEALTH OF AUSTRALIA.

THE Commonwealth of Australia consists of the six original Australian Colonies: New South Wales, Victoria, Queensland, South Australia, Western Australia and Tasmania. Each of these is a self-governing State, except as to the powers reserved to the Confederation. The Commonwealth of Australia was proclaimed at Sydney, January 1, 1901. Legislative power is vested in a Federal Parliament, consisting of the King—represented by a Governor-General—a Senate and a House of Representatives. The Senate consists of thirty-six Senators—six for each State—chosen for six years. The House of Representatives consists of seventy-five members, distributed as follows: New South Wales, 27; Victoria, 22; Queensland, 9; South Australia, 7; Western Australia, 5; Tasmania, 5.

The legislative powers of the Federal Parliament embrace commerce, shipping, finance, defence, post-office, telegraph, census and statistics and conciliation and arbitration in industrial disputes extending beyond the limits of any one State. Authority is given to the Commonwealth to assume jurisdiction regarding railways, lighthouses, marriage and divorce, and emigration and immigration. The executive power is vested in the Governor-General, assisted by an Executive Council of responsible Ministers. There is also a Federal Judicature. The present seat of Government is at Melbourne, the Federal capital (Canberra) being in process of building. The area of the Commonwealth, with the Territories (Northern Territory, Papua) and Federal District (Canberra), is 3,063,041 square miles, and the population is 4,941,000.

Each of the States has its own Parliament, Governor, Ministry and Judiciary.

\* Land and water included in area. † Alberta and Saskatchewan were erected into provinces in 1905. By the Extension act of 1912, the area of Ontario was increased by 146,400 square miles, Quebec by 354,961, and Manitoba by 178,100.

High Commissioner in London, England, Sir George H. Perley (acting).

The Dominion of Canada has an area of 3,729,665 square miles (excluding the Hudson Bay, the Gulf of St. Lawrence and all tidal waters) and comprises one-sixteenth of the land surface of the globe. It is the largest of all the British possessions. Australia, the next in size, containing 2,946,691 square miles. The Government of Canada is federal, centred at Ottawa, which city is the capital of the Dominion, while the provinces have their respective local Legislatures. The head of the Federal Government is the Governor-General, appointed by the King of Great Britain, and holding office for five years, his salary being paid by the Dominion Government.

The Lieutenant-Governors of the several provinces are appointed by the Federal Government for a term of five years. The Legislatures are elected by the people of each province. The highest court in the Dominion is the Supreme Court, composed of a Chief Justice and five Judges, each of whom receives a salary of \$9,000 per annum, except the Chief Justice, who is paid an additional \$1,000. From the decisions of this court the only tribunal to which appeal can be made is to the Judicial Committee of the Imperial Privy Council of Great Britain. The only other Federal court is the Exchequer Court, presided over by a single Judge, for trying cases connected with the revenue. Salary \$8,000. All others are of a provincial character limited to jurisdiction in their respective provinces only.

## DEFENCE.

Every Canadian citizen is liable to service in the militia from the age of 18 to that of 60. Militiamen are enrolled for three years to the "active" militia. The actual training varies in length, according to the branch of the service; from 12 to 16 days.

It is provided that if the embodiment of the militia becomes necessary, the men, both active and reserve, would be called out in four classes or levies: first, the unmarried men and widowers (without children) from 18 to 30; secondly, the unmarried men and widowers (without children) from 30 to 45; thirdly, the married men and widowers (with children) from 18 to 45; fourthly, all the remaining men up to 60. In the case of a *levée en masse*, all male inhabitants capable of bearing arms may be required to serve without regard to age, class or distinction.

The active militia includes the "permanent force," which furnishes the personnel of the training schools and some nucleus units of garrison artillery, etc. There are various schools of military instruction which are established in the six divisional areas and the three military districts into which Canada is now divided. A proportion of the officers are trained at the Royal Military College at Kingston. Total active militia in 1914 was:

## EXHIBITION OF MANUFACTURES IN URUGUAY.

(Statement of United States Vice-Consul at Montevideo.)

A PERMANENT exposition will be established in the Museum of Manufactures of the Uruguayan National School of Commerce, according to an announcement furnished by the Ministry of Foreign Affairs (a translated copy of which may be had from the Bureau of Foreign and Domestic Commerce, Washington, D. C.). The ministry requests that the contents of this announcement be made known in the United States in order that manufacturers may have an opportunity to contribute to the exposition.

The exposition will be free to exhibitors and will be an important factor in developing direct business by informing local merchants of the origin of the different articles, with data that will facilitate their purchase. It is hoped that many American manufacturers will take advantage of this opportunity to display samples. Correspondence should be addressed to the Ministerio de Instrucción Pública, Montevideo, and the samples marked "Para el Museo Merciológico de la Escuela Nacional de Comercio." It is requested that manufacturers who send samples, etc., inform this consulate of that fact for its own information.

**BRAZIL.**

THE Republic of the United States of Brazil is the largest of the South American countries and the second largest of the American republics. It is situated between 4° 22' north and 33° 45' south and longitude 34° 40' and 75° 15' west, and touches every other South American republic with the exception of Chile; besides, it is bounded by British, Dutch, and French Guiana.

The language of the country is Portuguese. Under the Constitution Brazil is a Federal Union of States, republican and representative. The Union is composed of 21 States, one National Territory, and the Federal District.

It was announced that the Brazilian Government presented to the National Congress the following budget for 1915: Estimated receipts, \$61,152,000 gold and \$108,508,000 paper; expenditures, \$48,288,000 gold and \$125,966,000 paper.

For commerce see table of "Latin-American Foreign Trade."

**ARGENTINA.**

ARGENTINA, the third largest of the American Republics, is situated between latitude 22° and 56° south and longitude west of Greenwich 53° and 57°, being bounded by the Republics of Chile, Bolivia, Paraguay, Brazil, Uruguay, and the Atlantic Ocean.

It is a Federal republic of fourteen Provinces, ten Territories, and one Federal District. The provinces and Federal District are represented in the National Congress, composed of a Senate and Chamber of Deputies.

For commerce see table of "Latin-American Foreign Trade."

The total length of railroads in operation at the close of 1914 was 20,502 miles, representing a capitalization of \$1,120,210,000. In 1913 there were 2,980 post-offices, 2,600 telegraph offices and about 43,202 miles of wire; 7,183 public schools for primary instruction, with an enrolment of 746,725 pupils, aside from the numerous schools supported by the provinces, and schools of higher education.

**CHILE.**

THE Republic of Chile extends over more than 38 degrees of latitude, from 17° 57' to 55° 59' south, stretching from the Samu River to Cape Horn, and occupying a long, narrow strip of land between the Andean mountain range and the Pacific Ocean, with a coast line of 2,625 miles and an average width of 90 miles. The republic has a single republican form of government, with the customary division into legislative, executive and judicial branches. There are twenty-three provinces and one Territory.

The principal exports are nitrate of soda, copper, wheat, iodine, borate of lime, oats, bran, wool, etc. The principal imports are textiles, mineral products, coal, oils, etc., machinery, hardware, carriage, etc., vegetable products, animal products, paper, and manufactures; wines, liquors, and other beverages. For commerce see table of "Latin-American Foreign Trade."

(a) 1913. Latest available official figures. (b) 1913. Latest available official figures. The foreign trade for 1914, according to the report of American Consul Samuel T. Lee, San José, was as follows: Imports, \$7,551,679; exports, \$10,861,748. (c) 1913. Latest available official figures. The foreign trade for the year 1914, according to the report of American Consul E. M. Lawton, Tegucigalpa, was: Imports, \$6,624,930; exports, \$3,421,331.

The above returns were compiled from the reports of the Pan-American Union (Union of American Republics).

**THE PAN-AMERICAN SOCIETY OF THE UNITED STATES.**

THE objects of this society are: To promote acquaintance among representative men of the United States and those of the other republics of America; to show hospitality and attention to representative men of the other republics of America who visit the United States; to take such other steps, involving no political policy, as the society may deem wise; to develop and conserve mutual knowledge and understanding and true friendship among the American republics and peoples. *President*—Henry White. *Vice-Presidents*—John Bassett Moore, Cabot Ward and John Barrett. *Secretary*—Harry Erwin Bard. *Treasurer*—Lorenzo Daniels. Headquarters, Mills Building, 15 Broad Street, New York City.

**PAN-AMERICAN UNION.**

THE Pan-American Union is the official international organization maintained in Washington by the 21 American republics for the development of good understanding, friendly intercourse, commerce and peace among them. It is supported by the joint contributions of these Governments, based on population, and controlled by a Governing Board composed of the Secretary of State of the United States and the diplomatic representatives in Washington of the other republics. Its affairs are administered by a Director-General and an Assistant Director, who, in turn, are assisted by a staff of international experts, statisticians, editors, compilers, translators and librarians. It was first established in 1890, and was reorganized in 1906. It occupies a building and grounds at the Seventeenth Street entrance to Potomac Park, representing an expenditure of \$1,100,000, toward which Mr. Andrew Carnegie contributed \$850,000, and the American republics \$250,000. In it is housed the Columbus Memorial Library of 30,000 volumes and 20,000 photographs, which are the best collection of present-day Pan-American in the world. The officers are: *Director-General*—John Barrett. *Assistant Director*—Francisco J. Yáñez. *Chief Clerk and Editor*—Franklin Adams. All communications should be addressed to the Director-General, Pan-American Union, Washington, D. C.

## PERU.

PERU became an independent republic July 28, 1821. It is divided into 19 departments and three provinces. The executive power is vested in the President, who is elected for four years. The legislative power is entrusted to a Senate of 52 members and a House of Representatives of 116 members. The Government owns and operates the postal and telegraph lines in Peru, with the exception of the railway telegraphs. There are about 800 post-offices and 340 telegraph offices in the country. The total length of the various lines is about 10,500 miles (16,800 kilometres). There are 19 telephone systems in the country with about 4,000 instruments and over 11,000 miles (17,702 kilometres) of wire. Principal exports: Minerals, sugar, rubber, cotton, wool, guano, straw hats, petroleum. For commerce see table of "Latin-American Foreign Trade."

## PANAMA.

THE Republic of Panama has a total area of 32,380 square miles, with a population of 419,029 people, and is over 500 miles in length and varies from 37 to 110 miles in width. It lies between Costa Rica and Colombia, with the Caribbean Sea on the north and Pacific Ocean on the south. The Panama Canal Zone runs across this republic. Panama has a single republican form of government with the regular division into legislative, executive and judicial branches. There are eight provinces: Ecos del Toro, Chiriqui, Veraguas, Colon, Los Santos, Coclé, Herrera and Panama as political subdivisions. The capital city is Panama. Panama has no navy and no army, but has a National police corps of 1,000 men. A steam launch serves the purpose of a revenue cutter. Panama has 202 miles of railroads in operation, 96 post-offices and 37 telegraph offices. A contract has been let for a wireless station at Colon. There are excellent educational advantages in the republic. For commerce see table of "Latin-American Foreign Trade."

## PARAGUAY.

THE Constitution of Paraguay provides for a republican form of government, with the usual division of legislative, executive, and judicial authority. The National Congress is composed of the Senate and Chamber of Deputies, both elected by direct popular vote, all citizens over 18 years of age being entitled to suffrage. Senators are elected for six years on the basis of one for every 12,000 inhabitants, or fraction over 8,000; Deputies are elected for four years at the rate of one for every 6,000 inhabitants, or fraction exceeding 3,000. The Senate is renewed by thirds and the Chamber of Deputies by halves every two years. Congress meets annually on April 1 and continues in session until August 31, but extraordinary sessions may be called at any time by the President or on motion of four Deputies and two Senators. The President and Vice-President are elected by electors chosen for that purpose for a term of four years.

With a subtropical climate considerably modified and made healthful by several mountain chains and an extensive hydrographic system, most of the products of the Tropical and Temperate Zones are successfully cultivated.

Beef products, the valuable quebracho wood, yerba maté or Paraguay tea, and lace are the principal articles of export. Lapacho, curupaz, and cedar are valuable woods found in considerable quantities, and oranges, tobacco, coffee, rice, cotton, mandiocca, and sugar are grown and exported. The beautiful hand-lace is one of the products of native industry. For commerce see table of "Latin-American Foreign Trade."

## URUGUAY.

THE Constitution of Uruguay, promulgated on July 18, 1830, is in force. The Senate and House of Representatives compose the General Assembly, in which all legislative power is vested, and meet annually from February 15 to June 15. Representatives, the number of whom varies with the population, are elected directly by popular vote in the proportion of one for every 3,000 inhabitants, or fraction exceeding 2,000, and for a term of three years. The Senate consists of 19 members, who are elected indirectly for a term of six years, one for each department. The Senate is renewed by thirds every two years. Every citizen over 20 years of age, who is physically and mentally able to do so, and is registered, is entitled to vote. In case of the President's disability or death, the presiding officer of the Senate assumes the Presidency, as there is no Vice-President in Uruguay.

The republic of Uruguay lies between the Atlantic Ocean, the Rio de la Plata (River Plate), Brazil, and the Argentine Republic. It is separated from Brazil by the Rivers Cuareim and Yaguaron and by Lake Merim, and from the Argentine Republic by the Rio de la Plata and the Uruguay River. It is the smallest republic in South America. The most notable feature of Uruguay is its extent of long rolling plains, comprising almost the entire length of the country, occasionally broken by low mountain ranges and conspicuously watered by numerous streams. It is naturally suited for both sheep and cattle, the raising of which is its principal industry. Agriculture is also practiced to a considerable extent, nearly all of the cereals being grown. In the forests are found a number of excellent cabinet and other woods noted for their beauty and durability, and some mining is carried on.

Principal exports: Wool, hides and skins, meats and extracts, grease and tallow, live animals, oil-producing grains, flour etc. For commerce see table of "Latin-American Foreign Trade."

## ASIATIC INSTITUTE.

The Asiatic Institute was organized April 21, 1913, to promote the study of progress and conditions in East Asia and the Pacific; to disseminate in the United States knowledge of the same and to promote the solution of questions arising from the contact of two civilizations in the Pacific Basin. It seeks to secure a wider appreciation of Pacific affairs, and to be a repository and arsenal of information of all that concerns the two civilizations, as well as to realize the stable relationship and understanding that must ultimately exist between them.

## CONSULAR SERVICE.

C. G., Consul-General; C., Consul; V. C., Vice-Consul; D. C., Deputy Consul; C. A., Consular Assistant. To insure prompt attention letters upon consular business should be addressed "To the American Consul at \_\_\_\_\_." Such letters are opened and attended to by the person who happens to be in charge of the office. If addressed to the Consul by name they are forwarded to him unopened if he should be absent, and a delay thus intervenes; if he should in the mean time have gone out of office they may wholly escape attention.

Consuls at the principal places in the world are given here. Where there are a Consul and Vice or Deputy Consul at the same place only the Consul is given. Consular officers are *ex-officio* notaries for all the States of the United States.

**EXAMINATIONS FOR THE CONSULAR SERVICE.**

IN pursuance of the Executive order of June 27, 1906, whereby the President promulgated regulations governing appointments and promotions in the consular service, the following rules have been adopted by the Board of Examiners, who, under that order, have been designated to formulate rules for and hold examinations of applicants for admission to the consular service whom the President shall have designated for examination to determine their eligibility for appointment therein:

1. The examinations will be the same for all grades and will be to determine a candidate's eligibility for appointment in the consular service, irrespective of the grade for which he may have been designated for examination and without regard to any particular office for which he may be selected.

2. The examinations will consist of an oral and a written one, the two counting equally. The object of the oral examination will be to determine the candidate's business ability, alertness, general contemporary information, and natural fitness for the service, including moral, mental, and physical qualifications, character, address, and general education and good command of English. In this part of the examination the applications previously filed will be given due weight by the Board of Examiners, especially as evidence of the applicant's business experience and ability. The written examination will include those subjects mentioned in the Executive order, to wit: French, German, or Spanish; the natural, industrial and commercial resources and the commerce of the United States, especially with reference to possibilities of increasing and extending the foreign trade of the United States; political economy, and the elements of international, commercial and maritime law. It will likewise include American history, government, and institutions; political and commercial geography; arithmetic (as used in commercial statistics, tariff calculations, exchange, accounts, etc.); the modern history, since 1850, of Europe, Latin-America, and the Far East, with particular attention to political, commercial and economic tendencies. In the written examination, composition, grammar, punctuation, spelling, and writing will be given attention.

3. To become eligible for appointment, except as student interpreter, in a country where the United States exercises extra territorial jurisdiction, the applicant must pass the examination outlined above, but supplemented by questions to determine his knowledge of the fundamental principles of common law, the rules of evidence, and the trial of civil and criminal cases.

4. The examinations to be given candidates for appointment as student interpreters will follow the same course as in the case of other consular officers, provided, however, that no one will be examined for admission to the consular service as a student interpreter who is not between the ages of nineteen and twenty-six, inclusive, and unmarried; and, provided further, that upon appointment each student interpreter shall sign an agreement to continue in the service so long as his services may be required, within a period of five years.

5. Upon the conclusion of the examinations the names of the candidates who shall have attained upon the whole examination an average mark of at least eighty, as required by the Executive order, will be certified by the board to the Secretary of State as eligible for appointment in the consular service, and the successful candidates will be informed that this has been done.

6. The names of candidates will remain on the eligible list for two years, except in the case of such candidates as shall within that period be appointed or shall withdraw their names, and of candidates holding subordinate positions in the consular service, when eligibility shall not expire until appointment to consular rank or until separation from the service. Candidates whose names have thus been dropped from the eligible list will not be eligible for appointment unless upon fresh application, designation anew for examination, and the successful passing of such second examination.

**DUTIES OF CONSULAR OFFICERS.**

Consular officers are expected to endeavor to maintain and promote all the rightful interests of American citizens, and to protect them in all privileges provided for by treaty or conceded by usage: to visa and, when so authorized, to issue passports; when permitted by treaty, law or usage, to take charge of and settle the personal estates of Americans who may die abroad without legal or other representatives, and remit the proceeds to the Treasury in case they are not called for by a legal representative within one year; to ship, discharge, and, under certain conditions, maintain and send American seamen to the United States; to settle disputes between masters and seamen of American vessels, to investigate charges of mutiny or insubordination on the high seas and send ringleaders to the United States for trial; to render assistance in the case of shipwrecked or stranded American vessels, and, in the absence of the master or other qualified person, take charge of the wrecks and cargoes if permitted to do so by the laws of the country; to receive the papers of American vessels arriving at foreign ports and deliver them after the discharge of the obligations of the vessels toward the members of their crews, and upon the production of clearances from the proper foreign port officials; to certify to the correctness of the valuation of merchandise exported to the United States where the shipment amounts to more than \$100; to act as official witnesses to marriages of American citizens abroad; to aid in the enforcement of the immigration laws, and to certify to the correctness of the certificates issued by Chinese and other officials to Chinese persons coming to the United States; to protect the health of our seaports by reporting weekly the sanitary and health conditions of the ports at which they reside, and by issuing to vessels clearing for the United States bills of health describing the condition of the ports, the vessels, crews, passengers, and cargoes; and to take depositions and perform other acts which notaries public in the United States are authorized or required to perform. A duty of prime importance is the promotion of American commerce by reporting available opportunities for the introduction of our products, aiding in the establishment of relations between American and foreign commercial houses, and lending assistance wherever practicable to the marketing of American merchandise abroad.

In addition to the foregoing duties, consular officers in China, Turkey, Siam, Maskat, Morocco, and a few other so-called un-Christian countries, are invested with judicial powers over American citizens in those countries. These powers are usually defined by treaty, but generally include the trial of civil cases to which Americans are parties, and in some instances extend to the trial of criminal cases.

MILITARY ORDER OF THE CARABAO.

A military organization composed of those officers of the United States Volunteer or Regular Army, Navy, Marine Corps, Philippine Scouts, or as a Naval cadet or midshipman, or as acting assistant surgeon, contract surgeon, contract dental surgeon, or any person who served as an enlisted man in the United States Army, Navy or Marine Corps and subsequently received a commission for appointment in any of the above named classes, and accredited war correspondents who served in the Philippine Islands between May 1, 1898 and July 4, 1902. Members of the order are known as Carabao. The oldest lineal male descendant of a Carabao is eligible for membership. The order is composed of a main body at Washington, known as the Main Corral, and branches in Manila, P. I.; San Francisco, Cal.; San Antonio, Tex., and Fort Monroe, Va.

The order was created for the purpose of fostering a high standard of military and social duty and to perpetuate the memories and associations of military service in the Philippines during the early days of American occupation. The origin of the order grew out of an idea conceived at a dinner at the Officers' Club in Manila shortly after the return of troops from China in 1900. The name was suggested by Major George L. Byram, United States Army, in recognition of the services rendered to the American forces by the faithful carabao, the principal beast of burden in the Philippines. The emblem of the order is a carabao's head on a pendant. The officers of the Main Corral are elected each year.

Officers of the Main Corral: Grand Paramount Carabao (National Commander)—Admiral Thomas B. Howard, U. S. N. Grand Patriarch of the Herd (National Vice-President)—Major-Gen. James B. Aleshire, U. S. A. Grand Lead and Wheel Carabao (National Secretary and Treasurer)—Major Joseph M. Heller, U. S. V., the Marlborough, Washington, D. C.

## RURAL DELIVERY SERVICE.

The following table exhibits the growth of the rural delivery service from 1898 to 1915:

| YEAR.     | Carriers (Number). | Daily Mileage. | Annual Cost. | YEAR.     | Carriers (Number). | Daily Mileage. | Annual Cost. |
|-----------|--------------------|----------------|--------------|-----------|--------------------|----------------|--------------|

The maximum salary of rural carriers was increased July 1, 1914, from \$1,100 to \$1,200.

## GEOGRAPHICAL RESEARCH IN 1915.

A review specially prepared for THE WORLD ALMANAC by the National Geographic Society, and covering the period from January 1 to October 15.

## IN GENERAL.

THE war in Europe, involving more territory and more people than ever before in the history of the world, laid the foundation for a great many changes in the political map of the world. Not since the year of which 1915 is the centennial have there been such changes in the boundaries of European countries as will probably take place at the end of the great conflagration. Not only will European boundary lines probably be shattered with old nations resurrected, existing ones broken up, and new ones created, but the colonial geography of the earth may come to be rewritten. The Turkish Empire, which, at the outbreak of the war dominated practically every bit of the Bible lands from the Garden of Eden to the crucifixion of Christ, early in the war saw Egypt wrested from her possession and made a part of the British Empire.

As a result of hostilities in Europe, geographic research received a very severe setback. Many expeditions were cancelled, and in numerous cases field parties were summoned home to fight.

## AFRICA.

About the middle of March the railroad line from Cabalo, on the Congo, to Lake Tanganyika, following the course of the Lukuga River, was completed. This makes the final link in a line of steam transportation across Africa from the Atlantic to the Indian Ocean, partly by rail and partly by water.

The "Kitty A." West African islands expedition sailed from Newport, R. I., June 29, to explore the Azores and other islands off the African coast, in the interest of the Department of Comparative Zoölogy of the Peabody Museum of Harvard University. The party included Henry R. Emory of Newport and Boston, Prof. Charles Wellington Furlong of Boston, and Dr. William G. Erving of Harvard.

To facilitate the operation of her military forces in Southwest Africa, the Union Government built a railroad line to connect its system with that of German West Africa. The distance between the two systems was three hundred miles.

In spite of the troublous times, Prof. G. Guerich completed his geological investigations in East Africa, and Dr. L. Bruehl, assistant in the Institut für Meereskunde, although forced to give up his study of sea fauna, directed his attention to the study of the interior waters of German East Africa.

While reports were coming in of unusual drought conditions in South Africa, the records of Egypt show increased rainfall there.

Dr. Clargie L. Fisher, curator of the Egyptian section of the University of Pennsylvania Museum, leader of the Eekley B. Cox, Jr., expedition to Egypt, unearthed a great temple at Memphis. He believes it to be the one built by Seti I., later described in Herodotus.

## ASIA.

Members of the Stötzner Szetschevan expedition, unable to return to Germany, continued their investigations in the Chinese hinterland toward Tibet. The zoölogist and entomologist of the expedition were the only members who continued their work in Tschong-tu after the outbreak of the war. They remained behind to systematize and pack the collections.

On account of the burdens of the great war, the Government of the Dutch Indies felt itself forced to withdraw the subsidies which it has regularly set aside for geographical research. This withdrawal interrupted the exploration and mapping of Dutch New Guinea, which exploration in the last few years has been making such satisfactory progress.

Capt. F. M. Bailey and Morshad determined and finally solved the question of the Tsangpo-Brahmaputra Rivers, which question has concerned itself in determining through which water course the great Tsangpo River of Tibet unites itself with the Brahmaputra.

The expedition composed of the Italian geologist, Prof. O. Marinelli, Meteorologist C. Lessandri, together with the English topographers, Major H. W. and A. J. Sparner, besides assistants from the Indian Office for surveying, which, in 1914, had made detailed studies of the Dapsang plateaus in the Himalayas, was turned back by news of the war's outbreak in Europe just at the start of a second expedition into the great mountains. The Italian scientists were called home to the army. The Englishmen continued the expedition alone, making thorough geological studies through Baltistan to East Karakoram, also making meteorological and topographical observations for determining the topography of the region.

Sir Aurel Stein visited again the cave temples of the Thousand Buddhas near Tenhuang. He followed the wall for about 250 miles. It was a remarkable construction, made of carefully secured fascines of

reeds or brushwood with gravel layers between them.

The English archaeologist, Miss Gertrude Lowthian Bell, returned from her visit to Hall, the capital of the Shammara Arabians. Her visit is the first made in twenty years. She remained eleven days in the city.

The English naturalist, C. Boden-Kloss, in the interests of the Museum in Kuala Lumpur, on the Malacca Peninsula, undertook a trip into Central Sumatra in company with the director of the museum, H. C. Robinson, for the purpose of investigating the animal and plant world in the territory of the Gunung Korintj, the highest point in Sumatra.

The so-called military expedition to Northern New Guinea, for the exploration of the Mamberamo territory, was called back shortly before the outbreak of the war. Its last success was the mapping of the Rouaffar River.

A Netherlands expedition cleared up the mystery of the Kehrweider River (Keerom), determining it to be identical with the Idenburg River. This is the longest of the river sources of the Mamberamo River in New Guinea.

The ethnographer, Dr. R. Thurnwald, carries out investigations of the native tribes of primeval forests of New Guinea, but publication of his investigations will probably be delayed by the war.

A grant was made to the Department of Geology in Harvard University from the Sheldon fund for an expedition to the Fiji Islands to secure new data concerning the origin of coral reefs, the composition and the physiography of volcanic islands and the problems of zoo-geography.

## EUROPE.

Lohmann of Kiel has made it possible to study the nature and distribution of even the most minute of the drifting organisms of the sea. A litre of water from the Western Baltic has been found to contain 2,500,000 diatoms; a litre from the Adriatic has only 2,500. The result is that the Baltic fisheries are infinitely more valuable than those of the Adriatic.

The reports of the earthquakes in Central Italy, which occurred on January 13, show that the destruction was more due to the faulty construction of houses than to the severity of the shock. In Avezzano about 90 per cent. of the total population, 11,000, were killed.

The Russian Government undertook the construction of a new railroad line to the port of Kola, which is 300 miles further north than Archangel.

## NORTH AMERICA.

During the Summer of 1915 not less than twelve expeditions were engaged in topographical work in Alaska. The most important work was done in the Ruby district on the Yukon and on the Copper River.

Announcement of the route to be followed by the Government railroad in Alaska created a stampede to the tidewater terminus of the projected railroad equalling the famous gold stampedes in the Territory since the Bonanza Creek discoveries.

Secretary Redfield of the Department of Commerce announced on January 25 that a practical, navigable channel from Bering Sea into the mouth of the Kuskokwim River had been discovered by Captain Lukens of the Coast and Geodetic Survey. The river is nine miles wide at its mouth and navigable for more than 600 miles. The submerged flats of the delta extend 100 miles out to sea. More than 14,000 soundings over an area of 100 square miles were made in locating the channel.

Capt. Joseph Bernier, Canadian Arctic explorer, reached port safely after a successful trip to the new land known as Baffin Island, which, in 1916, will be recognized as a Canadian possession.

The non-magnetic yacht Carnegie on March 6 started on her fourth cruise, which is to continue for two years, with Colon, Panama, Honolulu, Dutch

Harbor, and Port Lyttleton, New Zealand, as the vessel's chief ports of call.

Henry Fairfield Osborn, President of the American Museum of Natural History, announced early in the year that the museum had twenty-nine expeditions in the field, working on three continents.

Anthony Flala was awarded the gold medal of the International Exposition of Photographic Arts and Industries for the best exhibit of geographical photography.

Announcement was made from Montreal that a number of hitherto uncharted islands have been discovered near the centre of Hudson Bay by the Sir William Mackenzie expeditions. The islands are said to extend north and south nearly 400 miles, and to have a total area of 4,000 square miles.

The eruption of Mount Lassen on May 19 was more violent than usual. The volcano has become a subject of co-operative study by the Geological Survey and the Forest Service. J. S. Diller of the United States Geological Survey has been in charge of the investigation.

Through the generosity of Mrs. Mary C. Thompson of New York an area of 75 acres near Syracuse, N. Y., has been set aside as a glacial park. One of the powerful streams at the time of the retreat of the ancient ice sea cut a gorge through the Helderberg escarpment, forming great cataracts which must have rivalled Niagara, and have left deep plunge-basins, one of which is now occupied by Green Lake.

A movement was carried forward during the year of establishing an association to be known as the National Council of Geography Teachers.

Joseph H. Battel left 20,000 acres of forest land to Middlebury College, and a mountain peak to the United States Government.

The steamship *Discovery*, carrying the international oceanographic expedition, under command of J. F. Stackhouse, has started on a seven-year voyage for the purpose of locating danger spots in the Pacific and Atlantic Oceans.

The *Discovery*, the ship in which Capt. Robert Scott made his celebrated and tragic expedition to the South Pole, was engaged in carrying ammunition from New York to the allies during the year.

Miss Mary L. Jobe undertook a second expedition to the new ice mountain in the Canadian Rockies that she explored and climbed to an altitude of 8,000 feet last year. The mountain has been named Mount Kitchi.

Dr. Andrew J. Gilmour and Prof. Edward W. D. Holway, of the University of Minnesota, reached the top of Mount Geikie in the Canadian Rockies August 5.

#### POLAR RESEARCH.

Reports from Sir Ernest Shackleton in the early part of the year were to the effect that he had erected true meridian posts in South Georgia, where whaling and other ships could test their compasses. He announced that he hoped to start in November for his sledge journey over the Antarctic continent to the Pole and thence to Ross Sound.

Sir Douglas Mawson, visiting the United States after his remarkable escape from death in the Antarctic, declared before the National Geographic Society that the world had not given the United States and Rear-Admiral Wilkes proper credit for the work done by their expedition in the Antarctic three-quarters of a century ago.

The Swedish-English Antarctic expedition, which Prof. O. Nordenskjöld expected to lead into West Antarctic regions in 1915, and which had been subsidized by the Swedish Legislature to the amount of 135,000 crowns, was postponed on account of the war's outbreak, which made the participation of the English division of the expedition impossible. Postponement has been indefinitely decided upon up to 1916.

On September 18 news reached the United States that Vilhjalmur Stefansson, commanding the Canadian Arctic expedition, was still alive, and that he had discovered a new land in the Arctic. It was the first word received from the explorer since April 7, 1914, when the *Karluk*, held helplessly in the ice, drifted away from him and his companions. The new land discovered by Stefansson lies at 73 degrees 43 minutes north latitude and 115 degrees 43 minutes west longitude. Stefansson has continued his work in the Arctic regions during the year.

The Amundsen expedition to the North Pole has been indefinitely postponed. Captain Amundsen felt that his fatherland, Norway, might have other uses for the 150,000 crowns, in the face of the world war.

The Polar expedition under O. Sverdrup goes in the winter quarters on the coast between the Yenisei mouth and the Island of Taimyr.

O. Olsen Norwegian expedition to the upper Yenisei or Yenisei was turned back by the outbreak of the world war, having received the news while among the unknown tribes of Sojotes settled in the sources of the upper Yenisei.

The ice-breakers *Taimyr* and *Waigatch*, which left the harbor of Petropawlowsk, in Kamtschatka, in July, 1914, to make their way through the Bering Sea to Europe, are heard from.

The Russian Polar expeditions of 1914 were accompanied by little good fortune. Two expeditions left Vladivostok in July, 1914, for the purpose of attempting to reach Europe by way of the Bering Sea. They were unable to make port during the following year. The outbreak of the great war interrupted and made impossible a number of other Polar expeditions in preparation and on eve of departure.

Dr. W. S. Bruce, the Scottish Polar explorer, started on his seventh expedition in July, 1914, which was financed by the Prince of Monaco, for the purpose of investigating the Starfjord. Upon learning at Green Harbor of the outbreak of the war he gave up his attempt to force his way to the Starfjord and turned back to Edinburgh.

Five members of the Smithsonian expedition which left Seattle, under command of Koren, the Norwegian naturalist, to collect specimens in the Antarctic, returned to Nome the middle of September. Relics of the second Grinnell expedition, which set out for the Arctic region in May, 1853, in search of Sir John Franklin, were deposited in the United States National Museum by the daughters of Amos Bonsall, the last survivor of the expedition.

A company of considerable capital was formed at Reykjavik for the purpose of exploiting the Island of Jan-Mayen, situated in the Arctic Ocean between Iceland and Spitzbergen. The island has never been taken possession of by any Nation and is not inhabited.

Knut Rasmussen, the Greenland explorer, made another journey to North Greenland to complete the work of his expeditions of 1913.

A relief expedition was sent to Greenland from Sydney, Nova Scotia, to search for Donald B. MacMillan, who headed a company which sought to find Crocker Land.

#### SOUTH AMERICA.

One result of the world war, which closed vast areas in Africa and Asia to the scientific investigator, was to turn the attention of American geographers to South America; especially has this been true in the case of the nature students and collectors of specimens.

Dr. C. H. F. Lummis led an expedition in December, 1914, from Los Angeles to the west coast of South America for the purpose of taking films in the fields of geography, archaeology, and natural science. The expedition left in a steamer especially equipped for its uses. The itinerary included the seldom visited Pacific Islands and the East Islands, Pitcairn, Tahiti, and Christmas Islands.

Prof. E. O. Hovey, of the American Museum in New York, undertook studies of volcanic action in the islands of the West Indies.

Reports of Dr. R. Lütgen's investigations in Hayti were published. These researches were conducted in the service of the Hamburg Geographical Society and resulted in some interesting volcanic data.

The Argentine Government sends its regular relief expedition to the South Orkney Islands, where a meteorological station is maintained.

The increase in the size of the steamers entering the mouth of the Rio de la Plata has led to a proposition to deepen the channel at the entrance to thirty feet.

The National Geographic Society-Yale University expedition to Peru, under the leadership of Prof. Hiram Bingham, left New York in March. Much new material was gathered.

The Joint Commission of Bolivia and Brazil concluded the exploration and delimitation of the frontier line of the two countries along the rivers Amana, Rapirran, and Madeira. Wireless telegraph time signals were used to determine longitude.

A state geological survey was founded in Chile.

The Field Museum of Chicago and the American Museum of Natural History of New York sent a joint expedition to Bolivia, whence the party crossed the Andes and descended to the tributaries of the Amazon, intending finally to reach that river by the Madeira.

## SCIENTIFIC PROGRESS IN 1915.

BY CHARLES H. HUGHES.

## ARCHAEOLOGY.

A REMARKABLE discovery of flint implements was made at Highfield, Southampton, England. An entire series was unearthed covering the rough shaped slabs of table flint to beautifully chipped and completed implements with their edges still unabraded.

At a meeting of the British Association in Australia there was described a completely mineralized human skull found near Warwick, in the Darling Downs of Queensland. It probably dates from a period when the great fossil marsupials were living and is earlier than any other human remains hitherto found in Australia.

Fossil bacteria were discovered in very ancient limestones collected in Gallatin County, Montana, by Dr. C. D. Walcott, Secretary of the Smithsonian Institution. Before his discovery it was believed that bacteria were modern forms of life, but now it is apparent that they existed many million years ago.

Further accounts were published of the discoveries made at Meröé, on the River Nile, in Southern Nubia. There is evidence to show that there was a place and equipment for astronomical observations at Meröé in the second century B. C.

To preserve the home of prehistoric people who lived near Quirigua, Guatemala, the United Fruit Company made a reservation of 72 acres. There are at present 13 visible stone monuments, with ruins of temples and pyramids.

Accounts were published of the finding of beautiful jewelry ornaments and tools in a pyramid some sixty miles south of Cairo, Egypt.

An expedition from the Museum of the University of Pennsylvania, Philadelphia, Pa., unearthed at Memphis, Egypt, the temple of Seti I or Merneptah, and the palace of the Kings of Memphis. Many interesting discoveries were made, such as the finding of moulds for making amulets, a large number of terra cotta heads, stone vases and pomade boxes.

In excavating for a house near Aztec, New Mexico, there was found a clay image about 16 inches high, which is estimated to be 1,500 years old.

In the discovery of the Roman Pharos, near Dover Castle, England, there was found a Roman sentry box inside the ancient tower. An entrance to Colton Tower was also disclosed, as well as an oven where the troops in Norman days did their cooking.

Nearly a complete fossil elephant of enormous size was excavated at Upnor, near Chatham, England. The one found belonged to a species known as *elephas antiquus* of the early Pleistocene epoch and was much larger than the mammoth.

At Cyrene (near the village of Grenna, Barca, Africa) a colossal bronze statue of Alexander the Great was discovered. Only the left hand of the statue, which is believed to be the work of the Greek sculptor Lysippos is missing.

Some Roman pottery was found when the general post-office in St. Martin's le Grand (London) was demolished. A few whole pots and many fragments of Samian ware were unearthed, besides whetstones, beads, coins, and other small objects.

In a paper on the stone age of Egypt, published in *Ancient Egypt*, part III, 1915, the writer describes the striking resemblance between the coarse flakes which abound in prehistoric Egyptian graves with those of the Magdalenian cave type.

A specimen of the genus *sirenia* was placed in the Museum of Natural History, New York City. It is seven feet long, and the thick upper lip covers prominent incisors and forms a kind of snout. The eyes are very small and have a third lid, which veils them horizontally.

From excavations made in St. Augustine's Abbey, Canterbury, England, there was disclosed the tombs of Archbishops Lawrence, Mellitus, and Justus, the three successors of St. Augustine, with portions of the original flooring.

Relics of an ancient and heretofore unknown race of Indians were unearthed near Moorestown, N. J., by an expedition from the University of Pennsylvania Museum.

Discoveries indicating that in Honduras, Central America, was a large city which was the centre of a high civilization were made by an expedition from the Museum of the American Indian, New York.

## ASTRONOMY.

A new comet was discovered by J. E. Mellish, Cottage Grove, Wis., in February, and has been named after the discoverer, viz., a 1915 Mellish. Its nearest approach to the earth was in June, when it was about 40,000,000 miles away.

Observations at Mount Wilson Observatory on the star O. Arg. S. 14,320 indicate that it has a remarkably rapid motion in space. From calculations made from the observations it has a velocity of about 358 miles per second.

The development of apparatus for the delicate work of measuring the radiation from the stars was continued by the United States Bureau of Standards. The present apparatus is so sensitive that, when combined with a three-foot reflecting telescope, it will give a galvanometer deflection of one millimetre when exposed to a candle placed at a distance of 53 miles.

Based on the stars counted on photographic plates, S. Chapman stated that the total light of all the stars is equivalent to 690 stars of the first magnitude, according to the photographic standard, or from 900 to 1,000 first magnitude stars on the visual scale.

The crepe ring of Saturn was observed and measured at the Lowell Observatory, and was found to be wider on the east than on the west side during the month of March.

The contract for the construction of a 60-inch reflecting telescope for the National Observatory at Cordoba, Argentina, was awarded. The mirror will be eight inches thick, while the tube will be 27 feet long and 6 feet in diameter, and with its accessories will weigh more than 14 tons. This will be the largest telescope in the Southern Hemisphere.

A great sun spot, estimated to be 100,000 miles long, was disclosed by the development of a photographic plate exposed at the Naval Observatory, Washington, D. C.

Observations made at the Lowell Observatory on the varying brightness of two satellites of Saturn, viz., Mimas and Enceladus, indicate that they rotate on their axes in periods identical with those of their revolution around Saturn.

The second international conference of the Society of Practical Astronomy was held in Chicago, Ill., on August 16, 17, and 18.

Winnecke's Comet, which was last visible in 1909-10, returned very nearly according to previous calculations, having been found by H. Thiele with the great reflector of the Hamburg Observatory on April 4.

Photographs of Saturn, taken at Lowell Observatory on March 12, confirm visual observations in revealing that Carstini's division is visible in part above the contour of the ball by about four-tenths of its true width.

Messrs. Hirayama and Ogura published in the proceedings of the Tokio Mathematical-Physical Society, the results of their attempts to fix the dates of early eclipses recorded in Chinese literature.

A testing device for small telescopes, suitable for use as a universal standard, was described in the May number of *Comptes rendus*. It consists of a collection of rectangular diagrams, each of which is a group of straight, vertical and parallel lines, spaced at intervals of the same breadth as the lines.

The spectrum of Mellish's Comet was observed at Lowell Observatory with the slit spectrograph on April 20, and was found to consist of the usual series of cometary bright bands, but with a relatively intense background of continuous, i. e., solar spectrum of the emission bands.

Jupiter has undergone marked changes during the past year. A new belt is gradually widening and the planet is surrounded by clouds of steam.

Professor Sola of the observatory at Barcelona University, Spain, announced that he discovered on September 15 a new planet in the Pisces constellation.

## CHEMISTRY.

Two remarkable processes for producing gasoline were brought out—one by Dr. W. F. Rittman and the other by Dr. W. O. Snelling.

The United States Department of Agriculture issued a bulletin on the kelp beds on the Pacific Coast, with suggestions for their exploitation. Kelp can be used as a fertilizer and also can be utilized for obtaining nitrogen.

An Italian chemist (Guido Fel) invented a powder, suitable for use in guns in aeroplanes, that burns without either flame or smoke and does not flare up on detonation.

One of the most elaborate investigations of the relation between the amount of radium emanation in the atmosphere was made by J. R. Wright and O. F. Smith at Manila, P. I. Rainfall and wind movement seem to be the principal meteorological controls, the amount of emanation in the air being greatest when these factors are at a minimum, and *vice versa*.

The Institute of Chemistry published the report of the Glass Research Committee appointed to conduct investigations with the view of arriving at suitable formulas for laboratory glassware, miners' lamp glass, and other glasses.

A novel system of sewage treatment was published in the *Journal of the Society of Chemical Industry* (Vol. XXXIV). Briefly, the system consists in the separating of the solids from the sludge by treating it with 5 per cent. of yeast for 24 hours at 33° C.

A new heat insulating material combined with excellent electric conductivity was brought out and given the trade name Fibrox. It is a fibrous material of the composition of silicon oxycarbide, is perfectly permanent in air, and is not hygroscopic.

In the studies of electric furnace spectra which have been made at Mount Wilson Observatory in connection with solar research problems, spectra of vanadium and chromium have been investigated. With vanadium 2,000° C. appears to be about the lowest limit for the appearance of a spectrum. In the case of chromium at 1,700° to 1,550° C. a number of the most persistent lines in the spectrum are given.

A process was devised by M. Le Chatelier for the nickel plating of aluminum. The piece of aluminum to be plated is given a preliminary treatment in a bath of hydrochloric acid containing a certain portion of iron. The iron is precipitated on the surface of the aluminum, forming a kind of network. When this is passed into a nickel bath the nickel becomes entangled in the network and adheres strongly to the aluminum.

There was brought out an improved method for the purification of petroleum. Instead of using sulphuric acid, as heretofore, mineral bauxite is used, and the results obtained with it by the Burmah Oil Company, Ltd., Rangoon, Burma, are reported to be very satisfactory.

A report on the investigation of crystal forms of metallic selenium was published in the *Physical Review*. It was noted that all the crystal forms increase in conductivity when illuminated, and with but one exception they have been observed to be doubly refracting.

The Association of Official Agricultural Chemists (Washington, D. C.) was organized for the purpose of securing uniformity and accuracy in the analyses of fertilizers, dairy products and other materials connected with rural industries.

A new form of balance of particular value for weighing chemical substances in a vacuum was described by Dr. J. S. Anderson in a paper read before the Faraday Society of England. It is essentially a current weighing balance reversed, for instead of weights being used, one scale pan is replaced by a coil moving in the field of two fixed coils all connected in series and carrying an adjustable current.

Another crystalline variety of silver was described in the *Journal of the American Chemical Society* for September. The new variety was obtained in long needle-shaped crystals easily visible to the naked eye.

## GEOLOGY.

The Geological Survey of Great Britain issued a memoir on the country around Windsor and Chertsey, England. In the memoir is shown how the site chosen for Windsor Castle is due to the erosion of an anticline of chalk which rises from beneath the level Cretaceous beds.

The geology of Central Minas Geraes, Brazil, was discussed in the *Journal of Geology* for May. The present topography of Central Minas Geraes has resulted to a large extent from different crossions of rock formations which offer varying resistances to the processes of degradation.

A remarkable oil field was opened near Thrall, Williamson County, Tex. The peculiarity of the

field is that the oil is held in an igneous rock found in the lower portion of a clay known as Taylor marl.

The origin of China clay is dealt with to a considerable extent in a handbook on the collection of kaolin, China clay, and China stone in the Museum of Practical Geology, London. The principal hypotheses put forward to account for the production of kaolin are based on the following agencies: (1) surface weathering, (2) water descending from swamps and bogs, (3) ascending waters containing carbon dioxide, (4) emanations following igneous activity, (5) sulphuric acid solutions and hydrogen sulphide, and (6) hydrolysis.

The geological survey of Panama was continued under the auspices of the Isthmian Canal Commission, United States Geological Survey, and the Smithsonian Institution. A systematic study of the physiography, stratigraphy, and structural geology is being made.

An actual demonstration of the sinking and rising of crystals in artificial melts, corresponding in chemical composition to certain igneous rocks, was discussed in the *American Journal of Science* for February. The author states that the sinking of crystals in magmas must henceforth be accepted as of fundamental importance in explaining the observed diversity in certain igneous masses.

The origin of the Rocky Mountains is described in a pamphlet published by the Geological Survey of Canada. The castellated crags, horns, cols, and cirques are not due to the forms originating with the building of mountain ranges. The final moulding of the Rocky Mountains into their present form is due to the erosive action of ice.

The question as to whether the mountains in Northern Japan have been glaciated or not was discussed in the *Scottish Geological Magazine* for March. The evidence reviewed by one authority comes to the conclusion that there are undoubted traces of glacial phenomena on certain peaks.

The Geological Survey (English) issued a pamphlet entitled "Notes on Sources of Temporary Water Supply in the South of England and Neighboring Parts of the Continent." This was written primarily to aid the Royal Army Medical Corps in finding drinking water at short notice.

From a new consideration of the Interglacial Gorges of Six Mile Creek at Ithaca, N. Y. (*Journal of Geology*, Vol. XXIII.), the authors conclude that at least three glacial epochs are indicated as separated by periods of time longer than that since the last epoch. The great Wisconsin ice extension entered the interglacial stream gorges and deposited its drift there without appreciably modifying their walls.

Important papers were published by the United States Geological Survey on "Geology and Ore Deposits of Copper Mountain and Kasaan Peninsula, Alaska," and "Geology and Coal Resources of North Park, Colorado."

## ENGINEERING.

The European war has shown the great engineering skill that was used in manufacturing guns and ammunition. The Skoda mortars of Austria fire a projectile weighing about 860 pounds at a maximum horizontal range of nearly 75 miles. Rifle bullets were made of a special shape, and instead of having a flat trajectory had a rising one.

The largest lock canal in the western part of the United States was completed by the United States Government on the Oregon side of the Columbia River, above Dalles, Ore. This canal makes the Columbia River navigable for 500 miles from the sea.

A piece of engineering work which has an important bearing on international railroad traffic was the completion of the Moutier-Granges tunnel, which connects the French railroads with the Swiss, entering at Berne. The tunnel is about five miles long.

Preliminary work was started on a municipal water system for Denver, Col. The estimated cost of the system is \$8,000,000.

Plans were submitted by the Ontario Hydro-electric Commission to the Ontario Government for an eventual development at Niagara Falls and the spillways of the new Welland Canal of 250,000 H.P., and an immediate development of 100,000 H.P.

From a mechanical standpoint it is interesting to note that the largest typewriter in the world ever

built was exhibited at the Panama-Pacific Exposition. The typewriter was 21 feet wide by 15 feet high and was complete in every detail.

What is considered to be the fastest automobile race track in the world was completed at Sheepshead Bay, Brooklyn. The track has a circumference of two miles, with two straightaway stretches of 1,790 feet and two turns of 3,489 feet.

A through train service was established on the Canadian Northern Pacific Railroad between Port Mann, B. C., and Quebec.

Contracts were awarded and work was started on sections of a rapid transit system in Philadelphia, Pa. The two lines proposed for immediate construction, the Broad Street Subway and the Frankford Elevated Line, will cost together nearly \$42,000,000.

A hydro-electric plant at Porjus, Sweden, was completed. This plant is worthy of note, as it is above the Arctic Circle, and the intake and discharge tunnels and the power station are all under ground as provision against interruption by ice.

Work was started on one of the largest oil storage reservoirs in the United States, near Port Arthur, Cal. It will have a capacity of 500,000,000 barrels of oil, and its roof of three and one-half acres will be covered by redwood.

One of the most important engineering contracts under way is the eight-mile ship canal that will connect Seattle, Wash., with Lake Washington. When

the canal is completed it will create for Seattle a fresh water harbor of about 25,000 acres.

Unusual designs of piers and floor system characterize the new bridge over the Columbia River, which will cost about \$1,500,000. The bridge will be nearly three and one-quarter miles long and connect the cities of Vancouver, Wash., and Portland, Ore. The centre span is arranged to lift between towers to a height of 150 feet above high water.

The largest single tandem gas-blowing engine ever built in the United States (1915) was turned out by the Mesta Machine Company. The gas cylinders are 46 inches in diameter, the air cylinder 84, with a common stroke of 60 inches.

Harbor development on an extensive scale was under way at Victoria, B. C. The improvements include a 2,500-foot breakwater, two piers 800 and 1,000 feet long, and the dredging of the present channel.

The Bassano Dam, a part of the Canadian Pacific Railway Company's irrigation project in Southern Alberta, Canada, the largest individual project of its kind on the American continent, was completed in April. The Bassano Dam is the second largest dam in the world, the largest being the Assouan Dam in Egypt.

Water from the Apennines was distributed for the first time in April to the provinces of Bari, Foggia, and Lecce, Italy, through the Apulia aqueduct, which is 150 miles long and is one of the longest aqueducts in the world.

THE AMERICAN BONAPARTES.

PRINCE JEROME BONAPARTE (King of Westphalia), born Ajaccio, Corsica, November 15, 1784; died at Ville Genis, near Paris, June 24, 1860. Married, first, at Baltimore, Md., December 24, 1803. Elizabeth, daughter of William Patterson, Esq. She was born at Baltimore, February 6, 1785, and died in that city April 4, 1879. The issue of the marriage was:

Jerome Napoleon Bonaparte, born at Camberwell, England, July 7, 1805; died at Baltimore, Md., June 17, 1870. Married, November 3, 1829. Susan May, daughter of Benjamin Williams, who was born in Roxbury, Mass., but spent his life in Baltimore, Md. She was born April 2, 1812, and died September 15, 1881. The issue of the marriage was:

(1) Jerome Napoleon Bonaparte, born at Baltimore, Md., November 5, 1830; died at Beverly, Mass., September 3, 1893. He was educated at and graduated from West Point Military Academy, and served for two years in the American Army, entered the French Army in 1854, took part in the Crimean and Italian campaigns and resigned after seventeen years' service at the close of the Franco-German war, with the rank of Lieutenant-Colonel.

He was married September 7, 1871 to Caroline Le Roy, daughter of Samuel Appleton, granddaughter of Daniel Webster, and widow of Newbold Edgar. She died November 19, 1911. The issue of the marriage was:

(1) Louise Eugenie Bonaparte, born February 7, 1873. Married December 29, 1896. Comte Adam de Moltke-Huitfeldt, of Denmark, and has issue: (1) Marie Louise Caroline, born November 7, 1897; (2) Leon Charles Joseph, born November 14, 1898; (3) Jerome Eugene Otto, born January 14, 1902; (4) Adam Nicolas, born May 17, 1908; (5) Eyerle Helweg.

(2) Jerome Napoleon Bonaparte, born Paris, France, February 26, 1878. Harvard B. A. and Georgetown University. Lives in Washington, D. C. Married April 8, 1914, to Blanche Pierce Strebeigh.

(2) Charles Joseph Bonaparte, born at Baltimore, Md., June 9, 1851. Married September 1, 1875. Ellen Channing, daughter of Thomas Mills Day, of Hartford, Ct. No issue. Mr. Bonaparte is a Harvard B. A., 1871; LL. B., 1875; a lawyer. Was Secretary of the Navy from July 1, 1905, to December 17, 1906, and Attorney-General of the United States from December 17, 1906, to March 5, 1909; is now President of Enoch Pratt Library of Baltimore and was for 12 years Overseer of Harvard; is now Trustee Catholic University.

### WIDOW MOTHERS' PENSIONS. RELIEF FOR THE CHILDREN OF WIDOWED MOTHERS.

Twenty-five States now have so-called "Widow Mothers' Pension" acts. The word "pension" is a misnomer and therefore misleading. A law passed in 1915 by the New York Legislature shows the clear purpose of these acts. In a memorandum on that law, on signing it, Governor Whitman said: "The bill provides for the appointment of local boards of child welfare in the city of New York and in each county of the State outside of New York City. \* \* \* Such boards are created for the sole purpose of granting allowances to widowed mothers with one or more children under the age of 16 years, in order that such children may be suitably cared for in their homes by such mothers." Such allowances are to be granted in the discretion of the board when money has been appropriated therefor, in the county by the Board of Supervisors and in the city by the Board of Estimate and Apportionment and Board of Aldermen. The powers of the board in affording the relief provided by the bill will therefore be limited by the money made available by the local authorities. \* \* \*

An allowance to a widowed mother may only be made under the bill where the board determines that the mother is a suitable person to bring up her own children and that aid is necessary to enable her to do so. It must further appear that if such is not granted the child or children must be cared for in an institutional home. The amount of allowance to the mother is limited to the amount which it would be necessary to pay to an institutional home for the care of such child or children. The allowance, when made, is to continue for a period of not longer than six months and may thereafter be continued for similar periods if renewed by the board, or it may be revoked at the pleasure of the board."

An investigation by a committee of the State Senate of New York, of which Senator William H. Hill is Chairman, disclosed "the fact that Missouri was the first State to attempt even in a limited form to have half-orphans cared for by their mothers in their home, said mothers to be compensated for such service from public funds." Senator Hill stated in a letter to Governor Whitman in 1915 that "the Missouri law was approved April 7, 1911, and went into effect in June, 1911. By a population limitation it only applied to Jackson County, in which Kansas City is situated. The law has by amendment since been extended to St. Louis and possibly by later amendments to a larger territory, Illinois, in the same year (1911) passed a similar but more comprehensive 'Funds to Parents act.' The third State was Colorado, which adopted by popular vote the 'Mothers' Compensation act,' submitted at the November election in 1912. The law followed in general the provision of the Illinois 'Funds to Parents act' and became operative upon proclamation of the Governor on January 22, 1913. At the present time twenty-eight States have either general or limited laws commonly known as 'widowed mothers' pension laws,'" as follows:

Florida—Legislature of 1915 authorized appointment of commission to study question of mothers' pensions. Commission of five persons has been appointed.

An account of the various widows' "pension" laws was given by the Hon. David F. Tilley, a member of the Massachusetts State Board of Charities, before the National Conference of Catholic Charities, held at Washington in

September, 1914. He said: "The purpose underlying all these laws is that of preventing the breaking up of the home when, on account of death or disability, the support of the natural breadwinner of the family is removed. The methods adopted to secure this end vary widely in the different States, as will be seen from the following summary of the laws:

"Persons to Whom Aid May Be Given.—The law applies to any parent who, on account of poverty, is unable to care properly for a dependent or neglected child, but is otherwise a proper guardian, in Colorado and Nebraska; to any parent or grandparent in Nevada; to any parent or guardian in Wisconsin. In other States it applies only to mothers. In California, New Jersey, Oklahoma (and also in St. Louis), the mother must be a widow to receive the benefits of the act. In the remaining States not only widows but the following other classes of mothers with dependent children are included: In Idaho, Iowa, Minnesota, Missouri, Ohio, Oregon, South Dakota, and Washington, mothers whose husbands are in prison; in Iowa, Minnesota, Missouri, Oregon and Washington, mothers whose husbands are in State insane asylums; in Illinois, Minnesota, Ohio, Oregon, South Dakota, and Washington, mothers whose husbands are totally incapacitated, physically and mentally; in Michigan, Ohio (if deserted three years), Pennsylvania and Washington (if deserted one year), deserted wives. In Michigan are included also unmarried and divorced mothers. The law in Massachusetts applies to all mothers with dependent children who shall have resided in the Commonwealth not less than three years. In Colorado, Oregon and Wisconsin, if the person having custody of the child is not regarded as capable of expending the aid wisely the court may order it to be paid to some other person for the benefit of the child.

"Conditions On Which Aid Is Given—(a) Degree of Poverty.—The condition of receiving aid under these laws is uniformly that of poverty, with certain definitions added in some of the laws. For instance, in Washington the mother must be destitute; in New Hampshire and Utah she must be dependent entirely on her own efforts for support; in Oregon, wholly or partly dependent; in Illinois she may not own real property or personal property other than household effects. In Idaho, Illinois, Missouri, New Hampshire, Ohio, South Dakota and Utah the aid must, in the judgment of the court, be necessary to save the child from neglect; in New Jersey, from becoming a public charge. In Massachusetts we have few restrictions other than that the mother must be fit to bring up her children and that public relief is necessary.

"(b) Home Conditions.—In most of the laws the requirement is made that the mother is a fit person morally and physically to bring up her children and that it is for the welfare of the child to remain at home. In Idaho, Illinois, Missouri, New Hampshire, Ohio, South Dakota and Utah it is made conditional that the child or children be living with the mother and that the mother shall not work regularly away from home. In South Dakota she may not be absent from work more than one day in a week; in Illinois and Ohio the amount of time is left to the discretion of the court, while in Massachusetts the Overseers granting the relief determine how much work the mother may perform and give proper care to her family.

"(c) Residence.—In Washington and Minnesota one year's residence in the county is required; in Idaho, Missouri, New Hampshire, Ohio and Utah, two years' residence; in Illinois, Pennsylvania and Massachusetts, three years' residence. Some of the States require legal residence in the State. Minnesota, two years' residence, and California, three years. California and Illinois require, in addition, that the applicant be a citizen of the United States.

"Age of Child.—The maximum age of a child

## WIDOW MOTHERS' PENSIONS—Continued.

on whose account an allowance may be made is 14 years in California, Iowa, Massachusetts, Minnesota, Missouri, South Dakota and Wisconsin, also Illinois, although the limit may be extended to 16 years if child is ill or incapacitated for work; 15 years in Idaho, Utah and Washington; 16 in Colorado, New Hampshire, New Jersey, Oklahoma, Oregon and Michigan; 18 in Nebraska and Nevada. The legal working age is the limit in Ohio and Pennsylvania.

"Amount of Allowance.—The maximum allowance for one child is \$2 a week in Iowa; \$3 a week in Michigan. It is \$9 a month for one child, \$14 for two children, and \$4 for each additional child in New Jersey; \$10 a month for each child in Minnesota and Nebraska; \$10 a month for one child, \$5 for each additional child in Idaho, Missouri (i. e., Jackson County), New Hampshire, and Utah; \$10 for one child and \$7.50 for each additional child in Oregon; \$12 for one child and \$4 for each additional child in Wisconsin (amount may, however, be temporarily increased in cases of sickness or unusual conditions); \$12 for one child, \$20 for two children, \$26 for three children and \$5 for each additional child in Pennsylvania; \$12.50 for each child in California (Penny a month by the State and a like amount by the city or county); \$15 for one child and \$5 for each additional child in Washington; \$15 for one child and \$7 for each additional child in Ohio and South Dakota; \$15 for one child and \$10 for each additional child in Illinois (not to exceed, however, \$50 for any one family). In Colorado, Nevada and Massachusetts no maximum is set, but the amount must be sufficient to care properly for the children, with the restriction in Nevada that it may not exceed what it would cost to maintain and educate the child in a county or State home. In Oklahoma the 'school scholarship' is the equivalent of the wages of the child. In the city of St. Louis the maximum is \$3.50 a week, which may be increased temporarily on account of sickness or other exceptional conditions.

"Administration.—The law is administered by the Juvenile Court or some other county court with similar functions in Colorado, Illinois, Idaho (Probate Court), Iowa, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Jersey (Com-

mon Pleas), Ohio, Oregon, South Dakota, Utah, Washington and Wisconsin; by the County Commissioners, upon the advice of the School Board, in New Hampshire; by the City or Town Overseers of the poor in Massachusetts, and by an unpaid board of five to seven women residents of each county, appointed by the Governor, in Pennsylvania. In Ohio, Nebraska and South Dakota, the order granting aid is good only for six months unless renewed. In Idaho, Illinois, Minnesota, Missouri, Nevada, New Hampshire, Ohio, Utah and Washington the court may at any time modify or discontinue the allowance. In California supervisory powers are given to the State Board of Control, which can appoint three State children's agents with an unpaid advisory committee of three persons in each county; in New Jersey all cases granted aid are under the supervision of the State Board of Children's Guardians. In Massachusetts certain supervisory powers are given to the State Board of Charity, in Wisconsin to the State Board of Control. In Illinois and Ohio the law requires that visits shall be made to the homes from time to time by the probation officers; in Massachusetts, that the Overseers of the Poor shall visit the families at least once every three months and reconsider each case at least once a year.

"Source of Funds.—In all the States except California, Massachusetts, Pennsylvania and Wisconsin the funds for carrying out the provisions of these laws come out of the county treasury. In Illinois they are raised by a special tax of not exceeding three-tenths of a mill on the dollar of a taxable property of the county, and in Ohio by a tax not exceeding one-tenth of a mill.

"Reimbursements to the extent of \$75 a year is made to the local authorities by California, and in Massachusetts one-third of the amount in settled cases and the whole amount in unsettled cases. The State bears one-half of the expense in Pennsylvania and Wisconsin within the limits of the appropriation, which is apportioned according to the population of the counties.

"Penalty for Fraud.—Penalties are provided for procuring or attempting to procure an allowance fraudulently in Idaho, Illinois, Missouri, Nevada, Ohio, Pennsylvania, South Dakota, and Washington.

## THE GOVERNORS' CONFERENCE, 1915.

The last meeting of the Governors' Conference, the eighth annual session of that organization, was held at Boston, August 24 to August 27, 1915. Daily sessions were held in the Massachusetts State House during those four days.

Four principal topics were included on the official programme, namely, (1) "Penology," (2) "Greater Efficiency in State Administration," (3) "Conservation," and (4) "The Relation of the State to the National Defence."

Two papers were read under the general heading "Penology," namely, (1) "Abolition of Capital Punishment," and (2) "The Duty and Responsibility of the Governor in Dealing with Prisoners."

Four papers were read under the general heading "Greater Efficiency in State Administration," namely, (1) "Economy and Efficiency in the State," (2) "The Short Ballot," (3) "Governor's Initiative," and (4) "Functions of the Executive Department in Relation to the Budget."

Four papers were read under the general heading "Conservation," namely, (1) "Conservation of Natural Resources," (2) "State Control of Water Power," (3) "Development of the West," and (4) "Conservation of Mankind and Natural Resources."

Two papers were read under the general heading "The Relation of the State to the National Defence."

Discussions by the Governors followed the reading of the formal papers under each of these four principal divisions.

The greatest interest centred around the subject "The Relation of the State to the National Defence." In connection with the formal papers and discussions of this timely and important subject, Secretary of the Navy Daniels honored the members of the Gov-

ernors' Conference with a review of the North Atlantic Fleet off Boston Light, the members of the conference being the guests of the Secretary of the Navy and Admiral Fletcher on board the U. S. S. Wyoming. The Massachusetts Volunteer Militia were also mobilized at Boston for the occasion.

The functions of the Governors' Conference as set forth in its articles of organization are as follows:

"The functions of the Governors' Conference shall be to meet yearly for an exchange of views and experiences on subjects of general importance to the people of the several States, the promotion of greater uniformity in State legislation, and the attainment of greater efficiency in State administration."

Inasmuch as the Legislatures of but few States will meet in regular session in 1916, the usual important places on the programme were not given over to subjects under the general heading "Uniformity of State Laws." Most of the programme for the next meeting will be reserved for particular topics under this general heading.

The next meeting of the Governors' Conference will be held at Salt Lake City, Utah. The exact date for the meeting will be fixed by the members of the Executive Committee. The officers of the Governors' Conference elected at Boston are as follows:

Members of the Executive Committee—Gov. William Spry, of Utah, Chairman; Gov. Henry C. Stuart, of Virginia, and Gov. Arthur Capper, of Kansas. Treasurer—Former Gov. John Franklin Fort, Newark, N. J. Secretary—Miles C. Riley, Madison, Wis.

The proceedings of the annual sessions of the Governors' Conference are published in an official annual report.

\* The totals are given to the nearest hundred thousand, and include Christians not separately specified. For countries outside Europe, Roman Catholics are not separately specified, but are included under the heading "Others." It is estimated that there are about 89 million Roman Catholics outside Europe, thus making a total in the world of about 268 millions, as against 177 million Protestants. Greek Catholics numbered 119,300,000. Buddhists and Brahminists about 550 millions. † Including Greek Catholics. ‡ Readjustment of boundaries owing to the European wars has doubtless affected the figures given in table.

\* By the acquisition of new territories, as the result of the wars with Turkey and Bulgaria in 1912-13, the number of the Jewish population of Greece has been immensely increased. A similar remark applies to the various Balkan states.

† In 1904 the Jewish population of Turkey in Europe was estimated at 188,900. Since the Balkan wars it has been reduced to 80,000, the greater portion concentrated in Constantinople.—*Jewish Review*.

The aggregate of 38,805,569 represents actual church membership, and includes all Catholics (communicants, but not unfirmed minors). It does not give all persons affiliated by family ties to Protestant bodies. The larger of the Protestant bodies may claim twice the number of their communicants as nominal adherents.—EDITOR OF THE ALMANAC.

#### SEATING CAPACITY OF CHURCHES.

The total seating capacity of church edifices reported in 1906, according to the Census Bulletin of August 20, 1909, was 58,536,830, an increase over 1890 of 14,976,767, or 34.4 per cent. The seating capacity reported for the Protestant bodies was 53,282,445; for the Roman Catholic Church, 4,494,377; and for the remaining bodies, 760,008. The rate of increase was practically the same for both the Protestants and the Roman Catholics, being 33.6 per cent. for the former, and 33.3 per cent. for the latter. The increase in the seating capacity of churches has kept pace with the increase in population, the seating capacity being 69.2 per cent. of the population in 1890, compared with 69.5 per cent. in 1906.

The average seating capacity per organization for the Protestant bodies taken together was 317, and for the Roman Catholic Church, 436. With the single exception of the Roman Catholic Church, all the denominations showed an average seating capacity considerably in excess of the average membership. For the Protestant bodies the average seating capacity was three times the average membership per organization, while for the Roman Catholic Church the average membership was almost two and one-fourth times the average seating capacity.

The total number of teachers and scholars in the world, according to this report, was 30,015,037. The table does not include the schools of the Roman Catholic and Non-Evangelical Protestant churches. The next World's Convention will be held in Tokyo, Japan. According to Joseph H. Meyer, editor of Kenedy's Official Catholic Directory, there are 10,875 Catholic Sunday-Schools attended by 2,850,000 Catholic children in the United States. No official Sunday-School figures are gathered by the Church authorities.

**Seventh-Day Adventists**—The following statement has been prepared by H. E. Rogers, Statistical Secretary of the General Conference:

The doctrine of the second coming of Christ was preached extensively in the United States and Europe during 1840-1844, and found adherents in many denominations. The circulation of books and journals on this question deepened the interest, and this study and agitation brought about the formation of a movement which assumed definite form in 1846 in the New England States and was later organized as the Seventh-Day Adventist denomination. The chief tenets of this body are a belief in the literal, personal second appearance of Christ, yet without ever setting a time for that event, and the observance of the seventh day of the week as the Sabbath. They believe that the dead sleep until Christ's second coming; that the righteous dead are then raised to life, and that the living righteous are made immortal. Their total communicants throughout the world is 125,844. They have 128 organized conferences, 106 mission fields, 3,702 churches, 67 advanced educational institutions, 611 primary schools; total enrolment, 19,700.

Beginning in 1894, active work was begun in non-Christian lands, and has been continued until the present, so that a segregation of the work conducted in non-Christian and non-Protestant lands, from the foregoing figures, indicates the following: Mission work is carried forward in 67 countries, with a total force of 1,705. There are 710 churches, 23,000 adherents, 10,000 pupils in 210 schools taught by 375 foreign and native teachers.

Headquarters, Takoma Park, Washington, D. C.

**Latter Day Saints' Reorganized Church**—The Reorganized Church of Jesus Christ of Latter Day Saints is a separate body, having its headquarters at Lamoni, Ia. Its membership now numbers 73,899. It has about 1,000 active ministers in the field, 33,062 Sunday-school members and 637 Sunday schools. It claims to be the church in succession to the one founded by Joseph Smith in 1830. It was reorganized in 1852, and is presided over by Frederick M. Smith, of Independence, Mo., grandson of the Prophet. *Presiding Bishop*—Edmund L. Kelley, Independence, Mo. *General Church Secretary*—Richard S. Balyards, Lamoni, Ia. The only church of this denomination in New York City is at Park Place and Schenectady Avenue, Brooklyn, N. Y. *Pastor*—E. B. Hull, 1339 Prospect Place, Brooklyn, N. Y.

**Missionary Education Movement**—*Chairman*—Fred P. Haggard. *Vice-Chairman*—Samuel Thorne, Jr. *Recording Secretary*—F. C. Stephenson. *General Secretary*—Harry W. Hicks. *Treasurer*—James S. Cushman. Headquarters, 156 Fifth Avenue, New York City.

**Young People's Society of Christian Endeavor**—*President*—Rev. Francis E. Clark, D. D. *General Secretary*—William Shaw, LL. D.

Each society is in some local church, and in no sense outside. It exists simply to make the young people loyal and efficient members of the Church of Christ. It is the church training the young. Its motto is, "For Christ and the Church." In July, 1915, there were more than 77,000 societies, with a membership of about 4,000,000, chiefly in the United States and Canada, and in Australia, Great Britain, China, India, Japan, and in all missionary lands. It is found in about the same proportions in all the great ecclesiastical denominations and in all their subdivisions. Headquarters, Christian Endeavor House, 31 Mount Vernon Street, Boston, Mass.

**American Sunday-School Union**—The First Day Society, founded in Philadelphia in 1791, still active, led to the formation of the Philadelphia Sunday and Adult School Union in 1817, which, uniting with other similar societies, was changed in name to the American Sunday-School Union in 1824. Its object is twofold: To establish and maintain Sunday-schools; to publish and circulate moral and religious publications. It is a voluntary union of Christians of different denominations to teach the truths of our common Christianity as they are taught in the Bible.

Its great field is the rural districts. The Philadelphia Union began with one juvenile book in 1817, and one missionary in 1821. The American Sunday-School Union now issues a thousand works and nine periodicals. In ninety years it has circulated \$12,000,000 to \$15,000,000 worth of Bibles, testaments, and religious works. In ten years it founded 24,614 Sunday schools, with 943,930 members; resulting in

97,076 hopeful conversions and 914 churches. In ninety years the union founded 127,720 Sunday schools, with 5,677,970 members. It employs Sunday school missionaries, who have organized an average of four new Sunday schools for each day of the last ninety years. Its benevolent work costs \$250,000 yearly. *Officers*—*President*—Martin L. Finkbeiner. *Vice-Presidents*—Richard Ashhurst, Clarkson Clothier, James F. Stone, M. D. *Recording Secretary*—William H. Hirst. *Treasurer*—John E. Stevenson. Headquarters, 1816 Chestnut Street, Philadelphia, Pa.

**National Woman's Christian Temperance Union**—The National W. C. T. U. was organized in Cleveland, Ohio, in 1874, and is the sober second thought of the great woman's crusade. It is now regularly organized in every State of the Union.

There are about 12,000 local unions, with a membership and following, including the children's societies, of about half a million. The W. C. T. U. has forty distinct departments of work, presided over by as many women experts, in the National and in nearly every State organization. All the States have laws requiring the study of scientific temperance in the public schools, and all these laws were secured by the W. C. T. U.; also the laws forbidding the sale of tobacco to minors. The first police matrons and most industrial homes for girls were secured through the efforts of this society, as were the refuges for erring women.

The World's W. C. T. U. was founded by Frances E. Willard in 1883, and has auxiliaries in more than fifty countries and provinces. The white ribbon is the badge of all the W. C. T. U. members, and is now a familiar emblem in every civilized country.

The headquarters of the National organization is The Willard, Rest Cottage, Evanston, Ill. The following are the officers: *President*—Miss Anna A. Gordon, Evanston, Ill. *Corresponding Secretary*—Mrs. Frances P. Parks, Evanston, Ill. *Treasurer*—Mrs. Margaret C. Munns, Evanston, Ill.

**The Vedanta Society**—The Vedanta Society of New York was established in 1894 by Swami Vivekananda of India and was regularly incorporated in 1893 by Swami Abhedananda. The object of the society is to explain through logic and reason the spiritual laws that govern our lives, so that the True Religion of the Soul is not antagonistic to, but in harmony with, philosophy and science; to establish that Universal Religion which underlies all the various sects and creeds of special religions; to propagate the principles taught by great seers of Truth and religious leaders of different countries; and to help mankind in the practical application of those principles in their spiritual, moral, intellectual and physical needs.

The present headquarters of the society, with its Circulating Library, Reading Room and Meditation Room, is at 236 Central Park West, New York City.

The officers of the society are: *President*—W. N. Goodyear. *Vice-President*—M. Kreedop. *Secretary*—Mrs. M. Storey Williams. *Treasurer*—A. U. Treadwell.

The society has a large publishing department and issues a catalogue containing nearly forty titles of works on the Philosophy and Religion of Vedanta. Within the last five years it has sent out from its headquarters 39,876 books and pamphlets written by Swamis of India. There are also centres in Pittsburgh, San Francisco, Los Angeles, and Washington, D. C., besides a Peace Retreat in the mountains of Santa Clara County, Cal. These organizations in America are affiliated with hundreds of Vedanta Societies throughout India and Ceylon.

**The Daughters of the King**—The Order of the Daughters of the King was organized on Easter evening, 1885. It is desired by its promoters that a careful distinction shall be made between the Daughters of the King and the King's Daughters. The latter is the older organization, and differs from the King's Daughters in many important particulars. In the first place, it is an order, and is distinctively Episcopal. Its work is definite, and is "for the spread of Christ's kingdom among women," and the "active support of the rector's plans in the parish in which the particular chapter may be located." Its emblem is a cross of silver, a Greek cross fleury, and its motto is "Magnanimiter Crucem Sustine" and its watchword "For His Sake." Its colors are white and blue—white, the old royal color of Israel, and blue, the color of the Virgin Mary, the "blessed daughter of Israel's King, the Mother of the King of Kings." Its Con-

stitution is framed, as far as possible, in the terms of that of the Brotherhood of St. Andrew, the work of the two organizations being similar. The officers of the Council are: *President*—Mrs. Adam Denmead, Baltimore, Md. *Treasurer*—Mrs. Charles H. Arndt, Germantown, Pa. *General Secretary*—Emma E. Behlendorf. Office of the Council, Church Missions House, 281 Fourth Avenue, New York City.

**United Brethren Christian Endeavor Union**—The union was organized June 5, 1890. It is a union of all forms of young people's societies within the Church of the United Brethren in Christ. There are now 2,301 societies, with 93,988 members. Each conference is called a Branch and holds annual conventions, when a review of the year's work is made and new plans formed. *The Watchword* is the organ of the union. Rev. H. F. Shupe, D. D., Dayton, Ohio, is editor. The General Secretary, Rev. O. T. Deever, Dayton, Ohio, is elected by the General Conference to serve for the Quadrennium. The work is under the direction of a Board of Control. Rev. J. G. Huber, D. D., of Dayton, Ohio, is Chairman of the Board and also Chairman of the Executive Committee of the Young People's Department, which has supervision of the Christian Endeavor work of the denomination.

**Christian Science**—The Christian Science Committee on Publication contributes the following statement:

Christian Science is a religion based on the Bible, which was founded by Mary Baker Eddy in 1866. Her interpretation of the Scriptures, which she named Christian Science, is set forth in a book entitled "Science and Health, with Key to the Scriptures," first published in 1875. Since then it has been often reprinted, with occasional revisions of its wording, before her decease. Other works by the same author are "People's Idea of God" (1886), "Christian Healing" (1886), "Unity of Good" (1887), "Retrospection and Introspection" (1891), "Rudimental Divine Science" (1891), "No and Yes" (1891), "Church Manual" (1895), "Miscellaneous Writings" (1896), "Christ and Christmas" (1897), "Christian Science Versus Pantheism" (1898), "Pulpit and Press" (1898), "Messages to the Mother Church" (1900, 1901, 1902), "The First Church of Christ, Scientist, and Miscellany" (1913).

The First Church of Christ, Scientist, in Boston, Mass., founded in 1879, and known as "The Mother Church," is the parent organization of the Christian Science denomination. Local churches, known as branches of "The Mother Church," are situated in towns and cities throughout the world, but mainly in countries where the English language is spoken. "The Mother Church" is governed by a board of five directors, while the branch churches are self-governed, subject only to a limited supervision by "The Mother Church" as defined in the Church Manual. At present the number of local organizations is 1,566, a considerable number of which have beautiful and costly church edifices.

In the Church of Christ, Scientist, the place of preaching is taken by the reading of a "lesson-sermon" composed of selections from the Bible and "Science and Health, with Key to the Scriptures" by Mrs. Eddy. The remainder of the Sunday service consists of hymns, a solo, silent prayer, the Lord's Prayer, and a responsive reading from the Bible.

The Wednesday night meeting includes readings from the Bible and "Science and Health, with Key to the Scriptures," hymns, silent prayer, the Lord's Prayer, and testimonies of Christian Science healing from voluntary speakers. This church now claims to be attended by a greater percentage of men than is apt to be the case in other churches.

The Christian Science Publishing Society, under the auspices of "The Mother Church," issues a quarterly periodical named *The Christian Science Quarterly Bible Lessons*; a monthly periodical, *The Christian Science Journal*; a monthly, *Der Herold der Christian Science*; a weekly, *The Christian Science Sentinel*, and a daily, *The Christian Science Monitor*, the latter being a daily newspaper of general circulation devoted to clean journalism, but including in each issue an essay or article on Christian Science.

Christian Scientists are unique among religionists by reason of the extent to which they rely on the practice of their religion for the prevention and cure of disease. For this they assign several reasons. They have found Christian Science most effective and reliable for this purpose; they believe it to be

the same method of healing that was used and taught by Christ Jesus; they expect that this method of dealing with evil, as it becomes better known and more generally practised, will abate and ultimately abolish sin and mortality.

In this way the Church of Christ, Scientist, is regarded as a necessary agency in the restoration of original Christianity and the realization of the highest ideal in religious hope and faith. Headquarters, 52 Vanderbilt Avenue, New York City.

**The Theosophical Society**—The Theosophical Society was founded in New York City on November 17, 1875, by Mme. H. P. Blavatsky and Col. Henry S. Olcott, but its headquarters was removed in 1879 to Adyar, Madras, India, where the President, Mrs. Annie Besant, resides. Its objects are three: (a) To form a nucleus of the universal brotherhood of humanity, without distinction of race, creed, sex, caste or color; (b) to encourage the study of comparative religion, philosophy and science; (c) to investigate unexplained laws of nature and the powers latent in man. It has now twenty-three territorial sections, each presided over by a General Secretary, three by Presidential Agents: America, England and Wales, India, Scandinavia, Hungary, France, Italy, Germany, Australia, Cuba, Finland, Russia, Bohemia, South Africa, Scotland, Switzerland, Belgium, Dutch East Indies, Netherlands, Burma, Austria, Norway and New Zealand. Three non-specialized countries with Presidential Agents: South America, Spain and Ireland. During the 39 years of its existence it has chartered over 1,405 branches. The membership at present of the Society is approximately 30,000, of which the membership in the American section is about 4,937; there are 157 branches. Although there is but one dogma in the society, namely, the belief in the Universal Brotherhood of Man, yet Reincarnation and Karma are among some of the basic stones of the Theosophical system. *National President*—A. P. Warrington, Krotona, Hollywood, Los Angeles, Cal., contributes the above statement.

**The National Spiritualists' Association**—Organized September 28, 1893; incorporated November 1, 1893, at Washington, D. C. The object of said association shall be the organization of the various Spiritualist societies of the United States into one general association for the purpose of mutual aid and co-operation in benevolent, charitable, educational, literary, musical, scientific, religious and missionary purposes and enterprises germane to the phenomena, science, philosophy, and religion of spiritualism.

Active working local societies, 1,000; State associations, 22; other local societies meeting at irregular intervals, 400; public meetings not organized as societies, 500; camp meeting associations, 32; academy for liberal education, 1; churches and temples, 200; membership of avowed Spiritualists, 600,000; unidentified with organized societies, but believers in the philosophy and phenomena and frequent attendants at public services, 1,500,000 to 2,000,000; number of public mediums, 1,500; private mediums, many thousands; ordained ministers, 500; total valuation church, temple and camp meeting property, \$6,000,000.

*President*—Dr. George B. Warne, 749 Oakwood Boulevard, Chicago. *Secretary*—George W. Kates, 600 Pennsylvania Avenue, S. E., Washington, D. C. *Treasurer*—Cassius L. Stevens, Pittsburgh, Pa. Headquarters, 600 Pennsylvania Avenue, Washington, D. C. The next annual convention will be held in St. Paul, Minn., October, 1916.

**The Brotherhood of Andrew and Philip**—This organization, founded by Rev. Rufus W. Miller in Reading, Pa., in 1888, held its first federal convention in the City of New York in 1893. It is composed of members of fifteen evangelical denominations, among them the Reformed Church in America, the Reformed Church in the United States, the Congregational, Presbyterian (North, South, Canadian, and United), Methodist Episcopal, Methodist Protestant, Baptist, United Brethren, Lutheran, Reformed Episcopal, Church of Christ, Friends, United Evangelical, Free Baptist, African Methodist Episcopal, and Evangelical Association. It has chapters in Australia and Japan, China and England, Jamaica, Philippines, Alaska. Its objects are embodied in the statement that any man can belong to the brotherhood who will promise to pray daily for the spread of the Kingdom of Christ among men, and to make an earnest effort to bring men

within the hearing of the Gospel." The number of chapters of the brotherhood organized in the United States is 1,300, and the membership 15,000; 102 boys' chapters enrolling 3,000 members. The office of Rev. R. Howard Taylor, General Secretary, is at 1328 Chestnut Street, Philadelphia, Pa.

The Brotherhood of St. Andrew.—The Brotherhood of St. Andrew is an organization of men in the Protestant Episcopal Church. Its sole object is the spread of Christ's kingdom among men. It works under two rules, known as (1) The Rule of Prayer: To pray daily for the spread of Christ's kingdom among men, especially young men, and for God's blessing upon the labors of the brotherhood, and (2) The Rule of Service: To make at least one earnest effort each week to lead some man nearer to Christ through His church. There are now 1,200 active chapters with a membership of about 13,000 men.

The Brotherhood of St. Andrew in the Church of England in the Dominion of Canada has been formed, with 300 chapters and 3,000 men. A similar organization has been formed in the Scottish Episcopal Church. In the West Indies there is a membership of 1,000 men, and there is also a national organization in Japan. June 12, 1896, the Brotherhood of St. Andrew in the Church of England was formed, and now has a membership of 1,200. It is also well organized in New Zealand.

The brotherhood in the United States includes a Junior Department. It has 500 chapters in the United States, with about 4,000 members.

The officers are: *President*—Edward H. Bonsall. *Editor of St. Andrew's Cross and General Secretary*—Hubert Carleton, Church House, Twelfth and Walnut Streets, Philadelphia, Pa.

**The National Council of Congregational Churches**—Is composed of delegates from Congregational conferences and associations, and was organized November 17, 1871. The officers are: *Moderator*—Henry M. Beardsley, Kansas City, Mo. *Secretary*—Rev. Hubert C. Herring, D. D., Boston, Mass. *Treasurer*—Rev. John J. Walker, Boston, Mass.

Next meeting, Los Angeles, Cal., October, 1917.  
**Federation of American Zionists**—*President*—Harry Friedenwald. *Chairman Executive Committee*—Louis Lipsky. *Secretary*—Bernard A. Rosenblatt. *Treasurer*—Louis Robison. Societies, 140; camps, 87; Circles of Young Judea, 185. Office, 44 East Twenty-third Street, New York City.

**The Epworth League**—Officers of the Epworth League of the Methodist Episcopal Church: *President*—Bishop Frank M. Bristol, Omaha, Neb. *General Secretary*—Wilbur F. Sheridan, D. D. *Treasurer*—Edwin H. Forkel, Chicago, Ill. The central office of the Epworth League is located at 1020 Wabash Avenue, Chicago, Ill.

The Epworth League was organized at Cleveland, Ohio, May, 1889, by the union of five societies then existing in the Methodist Episcopal Church. These several societies held under their jurisdiction 1,500 local societies, with a membership of about 800,000. The league now consists of two branches, senior and junior, with a membership of about one and one-half million. Its official organ, the *Epworth Herald*, has a circulation of over 100,000.

Officers of the Epworth League of the Methodist Episcopal Church South: *President*—Bishop J. H. McCoy, D. D. *General Secretary*—Rev. Fitzgerald S. Parker, D. D. *Assistant Secretary*—Editor—J. M. Culbreth. *Junior League Secretary*—Ada Trawick. The general organ of the league is the *Epworth Era*, published monthly by the publishing agents of the Methodist Episcopal Church South, Nashville, Tenn., Dallas, Tex., and Richmond, Va. The league in the Methodist Episcopal Church South was provided for by the General Conference of 1890, and in December of the same year its organization was effected. It came under the supervision of the Sunday-School Board. The General Conference of 1894 created it a separate connectional board and elected a General Secretary. The Epworth League includes an organization for adolescent boys called the Knights of Ezelah, and a parallel organization for girls called the Girls of Epworth. It has now 4,360 chapters, with a total membership of 146,907. Office, 810 Broadway, Nashville, Tenn.

**Catholic Educational Association**—The Catholic Educational Association was organized at St. Louis in 1904. It consists of three general departments, the Seminary, College, and School, and embraces in its membership representatives from all the

Catholic educational establishments in the United States. It issues in November a report of the year's work and of the annual convention held each year in the last week of June. The Twelfth Annual Convention was held at St. Paul, Minn., June 28 to July 1, 1915. The most interesting development of the year is the growth of secondary and college education. *Honorary President*—James Cardinal Gibbons. *President-General*—Rt. Rev. Thomas J. Shahan, D. D., Rector of the Catholic University at Washington. *Secretary-General*—Rev. Francis W. Howard, LL. D., 1651 East Main Street, Columbus, Ohio. Office of the association is at Columbus, Ohio.

Kelley. *General Secretary*—Rev. E. B. Ledvina. *Recording Secretary*—Mr. Warren A. Cartier. *Treasurer*—Mr. John A. Lynch. Headquarters, McCormick Building, Chicago, Ill.

The objects of this society are to develop the missionary spirit in the clergy and people of the Catholic Church in the United States. To assist in the erection of parish buildings for poor and needy places. To support priests for neglected and poverty-stricken districts. To send the comfort of religion to pioneer localities. In a word, to preserve the faith of Jesus Christ to thousands of scattered Catholics in every portion of our own land, especially in the country districts and among immigrants.

**Society of St. Vincent De Paul**—Organized in Paris, France, 1833. A Roman Catholic society the objects of which are: (1) the practice of a Christian life; (2) to visit the poor in their dwellings and to carry them succor in kind; (3) to promote the elementary and religious instruction of poor children; (4) to distribute moral and religious books; (5) to undertake any other charitable work to which its resources are adequate.

The society is organized in all countries and is under the general jurisdiction of the Council-General, located at Paris, France. The society, in the United States is under the jurisdiction of the Superior Council of the United States, Society of St. Vincent De Paul, with headquarters at Washington, D. C. The President of the Superior Council is Thomas M. Murry, 51 Chambers Street, New York City.

The society in the city of New York is under the jurisdiction of: The Particular Council of New York, Michael J. Scanlan, *President*, for the Boroughs of Manhattan and Richmond, office, 375 Lafayette Street. The Particular Council of Brooklyn, Thomas W. Hynes, *President*, for the Boroughs of Brooklyn and Queens, office, 4 Court Square. The Particular Council of Bronx, for the Borough of Bronx, James J. Reid, *President*, office, 509 Willis Avenue.

**Conferences**: Nearly all the Roman Catholic churches in New York City have conferences of the society. The name of the conference is usually the same as that of the church with which it is connected; its work is confined to the parish in which it is located, and the parish priest is, in most cases, its Spiritual Director. Applications may be made to the Director or to the President.

**Special Works**: In addition to the Conferences, there are a number of special works maintained by the Particular Councils and directed by committees made up of members of the Particular Councils and Conferences.

The several committees above referred to visit regularly every Sunday the hospitals, prisons, and other city institutions, furnishing reading matter, giving religious instructions to those of their faith, and supplying such material aid and advice as is needed by the sick and convalescent.

The purposes of the convention, as defined in its by-laws, are "to give expression to the opinions of its constituency upon moral, religious and denominational matters, and to promote denominational unity and efficiency for the evangelization of the world."

The next meeting will be held in Minneapolis, Minn., 1916.

**National Baptist Convention**—*President*—Rev. E. C. Morris, Helena, Ark. *Secretary*—Prof. R. B. Hudson, Selma, Ala. *Treasurer*—Rev. A. J. Stokes, Montgomery, Ala.

The object of the convention is to do foreign mission, home mission, educational, publishing, Young People's Union, and other work of a religious na-

ture; this work to be done through and by its seven boards.

The membership of the National Baptist Convention as reported by the statistician at the last National Baptist Convention was 2,614,581.

**Southern Baptist Convention**—*President*—Loring Burrows, D. D., Americus, Ga. *Secretaries*—Oliver F. Gregory, D. D., Baltimore, Md.; Hight C. Moore, D. D., Raleigh, N. C.

It shall be the design of the convention to promote foreign and domestic missions, and other important objects connected with the Redeemer's kingdom, and to combine for this purpose such portions of the Baptist denomination in the United States as may desire a general organization for Christian benevolence, which shall fully respect the independence and equal rights of the churches. Next meeting, Asheville, N. C., May 17, 1916.

**Lake Mohonk Conferences**—*Secretary*—H. C. Phillips, Mohonk Lake, N. Y. Lake Mohonk Conference on the Indian and Other Dependent Peoples—The first annual conference was held in 1883, when Mr. Albert K. Smiley, who was a member of the Board of Indian Commissioners, invited a number of those interested in Indian affairs to a meeting at Mohonk Lake to confer regarding measures affecting the interests of the Indians. On Mr. Smiley's death his brother, Daniel Smiley, succeeded him as host of the conferences. In 1904 the scope of the conference was enlarged to include the peoples of the Philippines, Porto Rico, and other dependencies of the United States. The conference seeks to clarify public opinion on these great questions through free discussion by those having first-hand knowledge of existing conditions.

Lake Mohonk Conference on International Arbitration—The first of these annual conferences was held in 1895. The purpose is specifically to create and direct public sentiment in favor of international arbitration and an international court, and generally to encourage the substitution of pacific methods for war in settling disputes between nations. The conference maintains a permanent office.

**The Federal Council of the Churches of Christ in America**—The Federal Council was organized as the chief consummation of the National Federation of Churches at its first meeting, held in Philadelphia, December 2-8, 1908. It is the delegated congress of thirty leading Christian bodies which are constitutionally federated for the purpose of providing this congress, through which to realize their fellowship and united action. The Federal Council, through its commissions and secretaries, seeks to organize efficient State and local federations, to secure co-operation in home missionary work, and to promote moral reform and social service by the churches throughout the United States.

The following churches are represented in this Federal Council: Baptist (North), Free Baptist, Christian, Congregational, Disciples of Christ, Evangelical Association, Evangelical Synod, Friends, Lutheran General Synod, Methodist Episcopal, Methodist Episcopal (South), German Evangelical Synod, Colored Methodist Episcopal, Methodist Protestant, African Methodist Episcopal, African Methodist Episcopal Zion, Mennonite, Moravian, Presbyterian, Presbyterian (South), Welsh Presbyterian, Reformed Presbyterian, United Presbyterian, Protestant Episcopal, Commissions on Christian Unity and Social Service, Reformed Church in America, Reformed Church in the U. S. A., Reformed Episcopal, Seventh-Day Baptist, United Brethren in Christ, United Evangelical, National Baptist Convention.

The Council has active Commissions on Foreign Missions, Home Missions, Sunday Observance, Evangelism, Peace and Arbitration, Temperance, Family Life, Social Service, and Christian Education. The executive and field work of the council is in charge of the General Secretary, Rev. Chas. S. Macfarland, D. D. The officers may be addressed at the national office, 105 East Twenty-second Street, New York City. An office in Washington, D. C. (Woodward Building), is in charge of Rev. H. K. Carroll, D. D., Associate Secretary.

**Religious Education Association**—The Religious Education Association was organized on February 12, 1903, at the close of a three days' convention held in Chicago, called to consider the improvement of moral and religious education. Its object is the promotion of moral and religious training in existing educational agencies, in homes, and

through the press. It has no theological platform. It now enrolls over 3,000 members, including laymen, college presidents and professors, pastors, teachers and parents interested in the problem of reverent, scientific, effective character training.

**American Unitarian Association**—This association was organized in Boston, Mass., May 25, 1825, and incorporated in 1847. Its objects, as defined in the report of the Committee on Organization, are as follows:

1. To collect and diffuse information respecting the state of Unitarian Christianity in our country.

2. To produce union, sympathy, and co-operation among liberal Christians.

3. To publish and distribute books and tracts, inculcating correct views of religion, in such form and at such price as shall afford all an opportunity of being acquainted with Christian truth.

4. To supply missionaries, especially in such parts of our country as are destitute of a stated ministry.

5. To adopt whatever other measures may hereafter seem expedient—such as contributions in behalf of clergymen with insufficient salaries, or in aid of building churches.

*President*—Rev. Samuel A. Eliot, D. D., Boston, Mass. *Secretary*—Rev. Lewis G. Wilson, Boston, Mass. *Treasurer*—Henry M. Williams, Boston, Mass.

**Christian and Missionary Alliance**—Officers: *President and General Superintendent*—Rev. A. B. Simpson. *Secretary*—Rev. Walter M. Turnbull. *Treasurer*—David Crear.

The Christian Alliance was founded in 1887. It combined with the International Missionary Alliance in 1897, and the present title was adopted. Membership consists of all professing Christians who shall subscribe to the principles of the movement and enroll their names. The objects of the alliance are stated to be "World-wide diffusion of the Gospel in its fulness, the promotion of a deeper and higher Christian life, and the work of evangelization, especially among the neglected classes at home and in heathen countries." Its income in 1914 was over three hundred thousand dollars. Connected with the alliance are the Missionary Training Institute at Nyack, N. Y., a Bible school for the training of home and foreign workers; Wilson Memorial Academy, a boarding school for boys and girls with primary, grammar, and high school departments. Headquarters of the alliance, 690 Eighth Avenue, New York City.

**The Volunteers of America**—The Volunteers of America is a philanthropic, social, and Christian movement. It was inaugurated in March, 1896, in response to a number of requests on the part of American citizens. It was subsequently incorporated

on November 6, 1896, under the Membership act of the State of New York. It is organized in military style, having as its model the United States Army, but in conjunction with military discipline and methods of work it possesses a thoroughly democratic form of government. Its constitution and by-laws are framed by a Grand Field Council, which represents the minor councils of officers throughout the country annually. Though only nineteen years old, the Volunteers have representatives and branches of their benevolent cause in almost all the principal centres of the United States.

The Volunteers have some 48 principal homes and institutions of benevolence, many of which are Volunteer property, and are open for poor and deserving people in different sections of the country. During the past year the commissioned workers in their visitation called upon and aided, in one form or another, no less than 28,362 families. This was primarily in the poorer sections of the large cities. In the different permanent philanthropic homes and institutions no less than 241,297 free lodgings have been given, and 247,855 have been paid for by work and other means, while 875,119 free meals were given, and 303,201 meals were distributed to persons who paid for them, many doing so by work.

In their latest undertaking, which has proved a large responsibility, that is, the Volunteer Hospital, a separate corporation, which hospital is located at Beekman and Water Streets, New York City, in the shadow of the Brooklyn Bridge, there have been 2,212 ambulance calls, 11,713 days' treatment given to patients in the surgical and medical wards, 9,435 new cases treated, 14,298 old cases treated.

The Volunteer Prisoners' League has embraced upward of some 81,000 members since its inauguration. It has leagues in nearly thirty State prisons, and over 70 per cent. of those having left the prisons are, through their Hope Halls, living reformed and honest lives. Through the Fresh Air branch of the work many thousands of mothers and children have been taken from crowded cities for a change in the open air amid hills and lakes, rivers and dales. From the regimental reports of Volunteer centres, it is carefully calculated that 783,279 persons were gathered to their indoor services, while 1,895,686 persons were listeners in God's natural cathedral, their open-air stands. By these services 5,368 were led to promise that they would lead a new life.

In addition to the Volunteer reading rooms, thousands of copies of Christian literature are circulated in the State prisons, jails, hospitals, soldiers' homes, and children's homes. In connection with the homes, there are also sewing classes, hospital nursing, temporary financial relief departments, fresh air camps, Thanksgiving and Christmas dinners, and many other worthy undertakings. The headquarters of The Volunteers of America is at 34 West Twenty-eighth Street, New York City. The principal officers are General and Mrs. Ballington Booth, Presidents; General Edward Fielding, Vice-President; Col. Walter J. Crafts, Treasurer, and Col. James W. Merrill, National Secretary. ## THE MODERN HISTORIC RECORDS ASSOCIATION.

*President*—Justice Victor J. Dowling. *Secretary*—Alfred Kreymborg, 20 Exchange Place, New York City. *Founder*—Alexander Konta.

The Modern Historic Records Association is a non-commercial body. Its purpose is to preserve, for future generations, the records of our contemporary history and achievement by the best methods known to modern science, and to be of vital service and inspiration to historians, students, educators, and others in the life of our own time. The varying mediums employed are: Moving pictures, phonograms, talking pictures, autographic records on parchment, special stories of great events printed on rag paper, permanent photographs on glass positives, clay tablets, lantern slides, and whatever other means the progress of science and the new triumphs of invention may provide. The organization was founded in 1911 by Alexander Konta, and among its incorporators are some of the most prominent individuals from every field of human activity all over the world.

The larger part of the records of our contemporary history, progress, life, and civilization, as given in our books, newspapers, periodicals, pamphlets, and reports, is printed on sulphite or on wood-pulp paper. Many of these records are doomed to dust in from fifty to seventy-five years. In a century comparatively little of the printed record of this great age will be in existence. To seek to offset this situation, so far as possible, by permanent records of the vital events in our history, and to remedy the evil itself, so far as its powers and influence permit, is the aim of the Modern Historic Records Association, the only organization of its kind in the world. The possibilities of the value of this work may be suggested in a single illustration from the past. Lincoln's immortal speech at Gettysburg is one of the treasures of English literature, yet there have been published over a hundred different versions of it. Congress has twice printed it incorrectly. Had it been possible to secure a phonogram record of the address when delivered there could be, at present, no dispute as to the actual words spoken by Lincoln.

Pending the securing by the association of a building of its own, for which tentative designs have been made, the association has the privilege of preserving its records in the New York Public Library. Among the many names of famous men who have recorded themselves for all time are: Thomas Edison, ex-President Madero of Mexico, Captain Rostron of the Carpathia, Peary and Amundsen, ex-President Taft, Maurice Maeterlinck, Eugene Brieux, George Brandes, Paul Heyse, George Bernard Shaw, Prof. Paul Frlrich, Col. Theodore Roosevelt, Dr. Luther Burbank, Hon. James Bryce, Prof. Paul Dubois, Sir Hiram S. Maxim, Hon. William Jennings Bryan, Andrew Carnegie, Admiral George Dewey, Arthur Wing Pinero, John Muir, Richard Strauss, H. G. Wells, Tommaso Salvini, Sir William Ramsay, and Maximilian Harden.

## IMPORTANT PEACE MOVEMENTS.

IN the first century a temple was dedicated to peace by Vespasian. From that time on there were peace conferences held at various times, including the Peace of Religion signed at Augsburg on September 15, 1555; the unsuccessful conference between Benjamin Franklin John Adams, and Edward Rutledge, appointed by the United States Congress, and Admiral Howe, September 11, 1776, and the United States Treaty of 1814. It was not, however, until 1815 that the first peace society in the world was organized. It was called the New York Peace Society. In 1823 a national organization was formed and into this the State societies merged. On February 4, 1861, a peace conference was held in Washington, D. C., to prevent the Civil War in the United States.

International Peace Congresses were held in the following cities: London, 1843, 1851, 1890, 1908; Brussels, 1848, 1882; Paris, 1849, 1878, 1889, 1900; Frankfurt, 1850; Edinburgh, 1853; Geneva, 1867, 1912; Berne, 1884, 1892; Rome, 1891; Chicago, 1893; Antwerp, 1894; Budapest, 1896; Hamburg, 1897; Glasgow, 1901; Monaco, 1902; Rouen, 1903; Boston, 1904; Lucerne, 1905; Milan, 1906; Munich, 1907; Stockholm, 1910; The Hague, 1913.

National Peace Congresses were held in the United States in New York City, 1907; Chicago, 1909; Baltimore, 1911; St. Louis, 1913.

The first Hague conference was held May 18, 1899, with twenty-six nations represented; the second was held June 15, 1907, with forty-four nations.

\* Preliminaries signed at Constantinople September 13, 1897. † War was resumed. Final treaty signed at Bucharest August 10, 1913. Turkey-Bulgaria, September 29, 1913. ‡ Amnesty proclaimed by the President May 29, 1865.

The following peace treaties were also signed: Terminating the War of the Austrian Succession, Aix-la-Chapelle, October 7, 1748; settling the Eastern Question: Germany, Russia, Turkey, Great Britain, Austria, France, and Italy, Berlin, July 13, 1878; cession by Austria to France, Campo Formio, October 17, 1797; Independence of Crimea, etc.: Russia and Turkey, Kutschouc Kainardji, July, 1774; on behalf of Greece: Great Britain, Russia, and France, London, July 6, 1827; settling the relations between Turkey and Egypt, London, July 15, 1840; cession by Sweden to Russia, Nystadt, August 30, 1721; cession of Canada to Great Britain by France and Florida by Spain, Paris, February 10, 1763; cession by France to Sweden, Paris, January 6, 1810; terminating the War of the Spanish Succession, Utrecht, April 11, 1713; ending the Thirty Years' War, Westphalia, October 24, 1648. The neutrality of Belgium was guaranteed by treaty between Prussia, Austria, Great Britain, France, Russia, and the Netherlands and was signed in London April 19, 1839, and ratified between the contracting powers in 1870.

## INTERNATIONAL PEACE PLAN—PRESIDENT WILSON'S PEACE PROPOSAL.

The parties hereto agree that all questions of whatever character and nature in dispute between them shall, when diplomatic efforts fail, be submitted for investigation and report to an international commission (the composition to be agreed upon); and the contracting parties agree not to declare war or begin hostilities until such investigation is made and report submitted.

The investigation shall be conducted, as a matter of course, upon the initiative of the commission, without the formality of a request from either party; the report shall be submitted within (time to be agreed upon) from the date of the submission of the dispute, but the parties hereto reserve the right to act independently on the subject matter in dispute after the report is submitted. (For Supplementary Memorandum by the Secretary of State, see World Almanac of 1915, p. 734.)

Treaties embracing this peace plan have been signed up to August 16, 1915, by thirty countries, as follows:

|              |              |             |            |                |          |

All of these treaties, with the exception of those with the Dominican Republic and Panama, have been approved by the Senate, and the treaties with Guatemala, Great Britain, Costa Rica, Norway, Portugal, Paraguay, Spain, Peru, Bolivia, Sweden, Denmark, France, Russia, Uruguay, and Italy have become effective by the exchange of ratifications.

## IMPORTANT PEACE MOVEMENTS—Continued.

## PLANS FOR PEACE IN ENTIRE WORLD ADOPTED BY SWISS.

The Swiss Peace Society at its annual meeting in Basel, May 18, 1915, adopted the following resolutions, which it was declared should be considered when the time came for the conclusion of peace in Europe: First—The avoidance of any annexation or territorial changes which are in opposition to the interests and wishes of a population; a guarantee of religious liberty, free speech, and equality before the law for the minority.

Second—The creation of a permanent organization in which all European states shall be equally represented, for the purpose of safeguarding the order, peace, and safety of our portion of the earth.

Third—The development of an international law organization by continual Hague conferences.

The eighteenth of May is Peace Day (Hague Day) and the Sunday before Christmas is Peace Sunday. Its observance was asked by the American School Peace League.

## WOMEN'S PEACE PARTY.

On January 9, 10, 1915, a conference was held in Washington, D. C., at which representatives from all the leading women's organizations and movements assembled to consider measures for promoting and formulating peace sentiment in the United States, and perhaps throughout the world. The Woman's Peace Party was thus formally launched. The purpose of this organization is to enlist all American women in arousing the nations to respect the sacredness of human life and to abolish war. The following was adopted as their platform:

1. The immediate calling of a convention of neutral nations in the interest of early peace. 2. Limitation of armaments and the nationalization of their manufacture. 3. Organized opposition to militarism in our own country. 4. Education of youth in the ideals of peace. 5. Democratic control of foreign policies. 6. The further humanizing of governments by the extension of the franchise to women. 7. "Concert of Nations" to supersede "Balance of Power." 8. Action toward the gradual organization of the world to substitute law for war. 9. The substitution of an international police for rival armies and navies. 10. Removal of the economic causes of war. 11. The appointment by our Government of a commission of men and women, with an adequate appropriation, to promote international peace.

*Chairman*—Jane Addams, Chicago, Ill. *Vice-Chairmen*—Mrs. Anna G. Spencer, Meadville, Pa.; Mrs. Henry Villard, New York City; Mrs. Louis F. Post, Washington, D. ## THE AMERICAN PEACE AND ARBITRATION LEAGUE, INC.

The corporate purposes of the organization favor universal peace by conciliation, joint commissions of inquiry and arbitration, through a permanent international court, arbitration treaties between all nations, and adequate armament for National security. *Honorary Presidents*—Woodrow Wilson, William H. Taft, and Theodore Roosevelt. *President*—Henry Clews. *Treasurer*—Cornelius A. Pugsley. *Executive Director*—Andrew B. Humphrey. Headquarters, 31 Nassau Street, New York City.

## THE CHURCH PEACE UNION.

The purpose of the union is to spread the gospel of peace through church agencies. Andrew Carnegie, its founder, endowed the union with \$2,000,000. Also, \$10,000 was appropriated in April, 1914, for a world peace congress in London or Berne, which was postponed because of the war. *Secretary*—Rev. Frederick Lynch, 70 Fifth Avenue, New York City.

## AMERICAN PEACE SOCIETY.

National Headquarters, Colorado Building, Washington, D. C. Organized in New York City, May 8, 1828, and formed by the merging of many State and local societies, the oldest of which, the New York, dated back to 1815. Located in Boston from 1837 to 1911. Moved headquarters to Washington, D. C., May 1, 1911. *President*, Theodore E. Burton, Washington, D. C.; *Executive Director and Acting Secretary*, Arthur D. Cail; *Treasurer*, George W. Hall, Atlanta, Ga. The society has 34 "Constituent Branches," and 21 sections of branch societies.

## INTERNATIONAL PEACE FORUM.

To promote peace among the nations of the world, by encouraging a systematic study of the causes of war and the best methods to effect its abolition:

1. By the maintenance of a literary bureau for the moulding of public opinion regarding the various phases of the peace movement and the appalling nature and consequences of war;

2. By conducting a speakers' bureau to secure representative men for mass meetings, religious and patriotic services, conferences, conventions, chautauquas and congresses;

3. By organizing in every State in the Union and throughout the world, auxiliaries of the forum, to be controlled and directed from the international headquarters;

4. By creating public sentiment favorable to the establishment of a World Court for the judicial settlement of international disputes;

5. Also to work for the establishment of peace in the industrial world, by diffusing information relating to economic questions, and thus safeguard the rights of life, liberty and

The purposes of the society are:

1. To foster Americanism in the citizenship of the United States.

2. To bring together into a closer union, through the use of the federation idea, all those societies, associations, and general organizations, and all individuals engaged in any work which tends toward the use of our National language and an understanding of American laws and institutions.

3. To bring into mutual understanding all resident aliens intending to become citizens, all naturalized citizens, and all native citizens.

4. To aid in upholding the fundamental institu-

tions of the United States and in fostering American ideals and loyalty to our common American destiny; and to that end to foster patriotism and inculcate in all the people a spirit of single-minded allegiance to our country and our flag.

5. The principal offices of the said society shall be in the Borough of Manhattan, city of New York, and the society shall have power to conduct its operations in all its branches, or in any part or parts thereof, in any of the States, Territories, and possessions of the United States, including the District of Columbia, and in any or all foreign countries where American citizens reside.

THE BIG BROTHERS' MOVEMENT.

This movement was founded in 1904 by Ernest K. Coulter in New York City. Since that time the work has been taken up in over one hundred cities. There is a staff of paid workers, supplemented by volunteers—lawyers, physicians, merchants, executives, teachers—all busy men, selected because of their good will and natural ability to do effective work. The Little Brothers are boys referred by parents, hospitals, police courts, by other boys and by the boys themselves. They are the sons of widows, inebriates, prisoners, or careless or ignorant parents—boys who are largely the victims of their environment.

The task is to ascertain the cause of the boy's trouble—whether it be truancy, stealing, lying, running away from home, etc.; then, with the co-operation of parents, through the mediation of the Big Brothers, to build up within the boy a sense of honor and good citizenship. Every possible agency is employed to secure results—hospitals for examination or operation, the Y. M. C. A., church and settlement gymnasiums, industrial classes and boys' clubs, Boy Scouts, trade schools, camps, and farm schools. President—Franklin C. Hoyt. Vice-Presidents—Luther H. Lewis, Robert L. Gerry. Chairman Executive Committee—Ernest K. Coulter. Secretary—Charles A. Taussig. Treasurer—Francis J. Danforth. General Secretary—R. C. Sheldon. Headquarters, 200 Fifth Avenue, New York City.

PATRIOTIC INSTRUCTORS' ASSOCIATION.

President—Joseph H. Barker. Vice-President—Joseph W. Clymer. Treasurer—James S. Pierce. Secretary—James De La Montanye. Headquarters—314 West Fifty-third Street, New York City.

The object of the association is to enroll the members of the Grand Army of the Republic and other patriotic societies for the purpose of reaching the boys and girls in the public schools and other educational institutions of the United States and to endeavor to inculcate a true patriotic spirit, thereby establishing a permanent bulwark for the safeguarding of the Nation, knowing that this influence will lead to better citizenship.

Any person is eligible to membership who is a member of the Grand Army of the Republic, associate societies and auxiliaries thereto, all patriotic societies, teachers in the public schools, and any citizen of good repute.

The annual meeting, at which officers and directors for ensuing year shall be elected, will be held in the city of New York at the regular January meeting. Membership 600.

THE AMERICAN LEGION.

CO-OPERATING WITH CONFERENCE COMMITTEE ON NATIONAL PREPAREDNESS.

The American Legion, Inc., was incorporated under the laws of the State of New York on March 6, 1915. Object: The United States Government has no record of the present addresses and qualifications of its honorably discharged soldiers, sailors and marines, nor has it information of available men trained in the various occupations essential to the conduct of modern war. The American Legion is formed to enroll the names of all such citizens qualified either by previous military or technical experience and who will now express their willingness to respond in case the Government should at any time need their services. The information obtained by the legion, carefully classified as to qualifications and localities by a thorough system of cross-indexing, is intended for the use of the Government.

Ineligible: Men serving in the Army, Navy or Marine Corps of the United States, or in the National Guard of any of the several States, being in the first line of defence are not eligible for enrolment in the legion. Upon their resignation or honorable discharge they, however, become eligible.

President—Alexander M. White. Vice-President—E. Ormonde Power. Treasurer—Henry R. Winthrop. Secretary—Dr. John E. Hausmann, 10 Bridge Street, New York City. Directors—Julien T. Davies, Jr.; Theodore Roosevelt, Jr., and Arthur S. Hoffman. The Council—Theodore Roosevelt, William H. Taft, Elihu Root, Jacob M. Dickinson, Henry L. Stimson, Luke E. Wright, George von L. Meyer, Truman H. Newberry, Charles J. Bonaparte.

## UNITED HISTORICAL AND PATRIOTIC SOCIETIES AND ASSOCIATIONS OF NEW YORK.

Committee of Nine representing the United Historical and Patriotic Societies of New York. Object—To place on record facts proving that the Empire State played not only a prominent part, but a leading part in the events that brought about the independence of this country. *Chairman*—Dr. George F. Kunz. *Treasurer*—Stuyvesant Fish, 52 Wall Street, New York City. *Secretary*—Abram Wakeman, 96 Water Street, New York City.

### THE AMERICAN DEFENCE SOCIETY, INC.

National Headquarters, 303 Fifth Avenue, New York.

*Advisory Board*—Theodore Roosevelt, Charles J. Bonaparte, Truman H. Newberry, Hudson Maxim, David Jayne Hill.

*Purpose*—The definite object of the American Defence Society is to educate the voters of the country to the necessity of legislation for adequate National defence.

*Platform*—The American Defence Society is urging: An adequate Army, an adequate Navy, an adequate National Guard, an adequate National reserve.

To tell the truth about our defenceless condition; to say frankly what the Administration at Washington is doing, and also what it is not doing; to work for a careful expenditure of public moneys; to secure an adequate National defence without the perils of militarism, and, finally, to work for a permanent international peace—that, in short, is the platform of the American Defence Society.

*Membership*—Membership in the American Defence Society is open to all citizens of the United States who believe in securing and maintaining an adequate National defence. Membership includes: Service, 25 cents; annual, \$1.00. The American Defence Society is dependent entirely upon the public for support.

The historic and patriotic Order of the Cincinnati was founded by the American and French officers at the cantonments of the Continental army on the Hudson at the close of hostilities in the War of the Revolution for American Independence, May 10, 1783.

In forming the society it was declared that, "To perpetuate, therefore, as well the remembrance of this vast event as the mutual friendships which have been formed under the pressure of common danger, and, in many instances, cemented by the blood of the parties, the officers of the American army do hereby, in the most solemn manner, associate, constitute, and combine themselves into one Society of Friends, to endure as long as they shall endure, or any of their eldest male posterity, and in failure thereof the collateral branches who may be judged worthy of becoming its supporters and members."

For convenience, thirteen State societies were formed, and one in France, under the direct patronage of Louis XVI., which was dispersed at the Reign of Terror in 1793. Upon the roll of original members appeared the names of all the great historic military and naval characters of the Revolution, and upon the roll of honorary members, elected for their own lives only, appeared many of the signers of the Declaration of Independence.

## THE RIGHT TO MEMBERSHIP.

All Continental officers who had served with honor and resigned after three years' service as officers, or who had been rendered supernumerary and honorably discharged, in one of the several reductions of the American army, or who had continued to the end of the war, and all French officers who had served in the co-operating army under Count d'Estaing, or auxiliary army under Count de Rochambeau, and held or attained the rank of colonel for such services, or who had commanded a French fleet or ship of war on the American coast, were entitled to become original members, and upon doing so were required to contribute a month's pay.

## STATE SOCIETIES.

The Cincinnati is organically one society in membership, but for convenience in admission of members and in its charitable and patriotic objects is subdivided into State societies, there being thirteen. Four dormant societies were restored to membership at the triennial meeting of 1902.

Membership descends to the eldest lineal male descendant, if judged worthy, and, in failure of direct male descent, to male descendants through intervening female descendants.

The general society when legislating for the good of the Order is composed of the general officers and five delegates from each State society, and meets triennially. In 1854 it ruled that proper descendants of Revolutionary officers who were entitled to original membership, but who never could avail themselves of it, are qualified for hereditary membership, if found worthy, on due application.

## SONS OF THE REVOLUTION.

*General President*—James Mortimer Montgomery, New York City.

*General Vice-Pres.*—Richard M. Cadwalader, Philadelphia, Pa.

*Second Gen. Vice-Pres.*—Walter Gilman Page, Boston, Mass.

*General Secretary*—Prof. Wm. Libbey, Princeton, N. J.

*General Treasurer*—James A. Sample, Wash., D. C.

*General Registrar*—Hon. George E. Pomeroy, Toledo, Ohio.

*General Historian*—Holdridge O. Collins, Los Angeles, Cal.

The society of the "Sons of the Revolution" was instituted in New York City December 18, 1875, on the motion of John Austin Stevens, to be composed exclusively of gentlemen of Revolutionary War ancestry; reorganized December 4, 1883, to include civil officers who materially assisted in establishing American Independence, and incorporated May 3, 1884, to "perpetuate the memory of the men who, in military, naval or civil service, by their acts or counsel, achieved American Independence; to promote and assist in the proper celebration of the Anniversaries of Washington's Birthday, the Battles of Lexington and Bunker Hill, the Fourth of July, the Capitulations of Saratoga and Yorktown, the Evacuation of New York by the British Army, and other prominent events relating to or connected with the war of the Revolution; to collect and secure for preservation the manuscript rolls, records and other documents and memorials relating to that war; to inspire among the members and their descendants the patriotic spirit of their forefathers; to inculcate in the community in general sentiments of nationality and respect for the principles for which the patriots of the Revolution contended; to assist in the commemorative celebration of other great historical events of national importance, and to promote social intercourse and the feeling of fellowship among its members."

Eligibility to membership is confined to male descendants, above the age of twenty-one years, from an ancestor who as either a military, naval or marine officer, soldier, sailor or marine, or official in the service of any one of the thirteen original Colonies or States, or of the National Government, representing or composed of those Colonies or States, assisted in establishing American Independence during the war of the Revolution between the 19th day of April, 1775, when hostilities commenced, and the 19th day of April, 1783, when they were ordered to cease. The triennial meetings of the general society are held in the city of Washington.

The officers of the New York Society Sons of the Revolution are as follows: *President*—Robert Olyphant. *Vice-Presidents*—Col. William W. Ladd, Philip Livingston and Col. William G. Bates. *Secretary*—Henry Russell Drowne, Fraunces' Tavern, corner Broad and Pearl Streets, New York. *Treasurer*—Arthur Melvin Hatch. *Registrar*—Edgar B. Van Winkle. *Chaplain*—Rt. Rev. David H. Greer, D. D.

There are thirty-one State societies and a society in the District of Columbia. The aggregate membership is 7,000, that of the New York Society being over 2,300 and the Pennsylvania Society over 1,100.

## DAUGHTERS OF THE CINCINNATI.

*President*—Miss Julia Chester Wells. *Vice-President*—Miss Laura Sylvia Heilner. *Secretary*—Miss Clara Richards, 113 West 31st Street, N. Y. City. *Treasurer*—Miss Annie Clarkson. Incorporated in 1894. The objects are "to renew, foster and develop among its members the friendships formed and cemented amid the trying ordeals of the war of the Revolution, in the camp, and on the battlefield by their ancestors; to advance and encourage investigation and study of the history of the Revolution, its causes and results; to cherish the memory and record the deeds of the noble women who encouraged and assisted the patriot cause; to commemorate by celebrations and tablets the achievements of our ancestors in the Revolution, and to gather and carefully preserve documents and relics relating to the Revolutionary period."

## THE DRAMA SOCIETY.

It is an organization of art-loving playgoers on a basis that secures to regular members of the society the best seats, for the best productions only, at the box-office price. There are no dues, and no initiation fees. The only condition imposed is that the members yearly attend ten productions found worthy of the intelligent playgoer, within the first month of the run. By insuring that intelligent plays receive immediate attendance and financial support, the society hopes to encourage the better forms of dramatic art.

*President*—Mrs. E. R. Hewitt, New York City. *Secretary*—John Corbin, 131 East Fifteenth Street, New York City. *Treasurer*—Thomas W. Lamont, 23 Wall Street, New York City. *Executive Committee*—Mrs. August Belmont, Mrs. George G. Haven, Jr., Mrs. Philip Lydig, Mrs. Frederic B. Pratt, Mrs. W. K. Vanderbilt, Mrs. Egerton L. Winthrop, Jr., Mr. Walter P. Eaton, Mr. Robert P. Perkins and Dr. Percy R. Turnure.

Organized 1887. 7,000 members, 1,500 contributing members. 20 associations in all the principal cities of the United States.

**The American Cross of Honor**—This order was organized in 1898 and incorporated by act of Congress in 1906. The charter members were H. A. George, Richard Stockton, John J. Delaney, Andrew M. Taylor, Eugene Longstreet, and Thomas H. Herndon. The regular membership is composed of persons upon whom the United States Government has conferred the life-saving medal of honor, and its object is to advocate those great principles of the value and sanctity of human life, and the best means of preserving it.

Bronze crosses of honor are conferred in certain cases where great heroism is shown in saving human life. A gold cross of honor is awarded in exceptional cases to persons who by great daring have highly distinguished themselves in saving life. This cross also is conferred biennially upon some person nominated by the Royal National Life-Boat Institution of Great Britain for the most heroic service in saving life; the person thus honored must have received the gold life-saving medal of the said institution.

The President of the United States is Honorary President of the order. M. Armand Fallières, ex-President of France; the German Emperor, the King of Great Britain, the King of Italy, ex-Presidents Roosevelt and Taft, and Andrew Carnegie are honorary members.

The order was founded in 1896, its object being "to bring together and associate congenial men whose ancestors struggled together for life and liberty, home and happiness, in the land when it was a new and unknown country, and whose line of descent from them comes through patriots who sustained the Colonies in the struggle for independence in the Revolutionary War; to teach reverent regard for the names and history, character and perseverance, deeds and heroism of the founders of this country and their patriot descendants; to discover, collect, and preserve records, documents, manuscripts, monuments, and history relating to the first Colonists and

their ancestors and their descendants, and to commemorate and celebrate events in the history of the Colonies and the Republic." Eligibility—Any man above the age of twenty-one years, of good moral character and reputation, and a citizen of the United States, who is lineally descended, in the male line of either parent, from an ancestor who settled in any of the Colonies now included in the United States of America prior to May 13, 1657, and whose intermediate ancestors in the same line during the Revolutionary period adhered as patriots to the cause of the Colonies. There are State societies in New York, Connecticut, New Jersey, and Pennsylvania. The Governor of the New York Society is William E. Fitch, M. D., 25 East Sixtieth Street, New York City. *Secretary*—Eugene J. Grant, 189 Montague Street, Brooklyn, N. Y.

**Society of Tammany, or Columbian Order**—This organization was formed in 1789, being the effect of a popular movement in New York having primarily in view a counterweight to the so-called "aristocratic" Society of the Cincinnati. It was essentially anti-Federalist or democratic in its character, and its chief founder was William Mooney, an upholder and a native-born American of Irish extraction. It took its first title from a noted ancient, wise and friendly chief of the Delaware tribe of Indians, named Tammany, who had, for the want of a better subject, been canonized by the soldiers of the Revolution as the American patron saint. The first meeting was held May 12, 1789. The act of incorporation was passed in 1805. The Grand Sachem and thirteen Sachems were designed to typify the President and the Governors of the thirteen original States. William Mooney was the first Grand Sachem. The society is nominally a charitable and social organization and is distinct from the General Committee of the Tammany Democracy, which is a political organization, and cannot use Tammany Hall without the consent of the society.

*Grand Sachem*—John R. Voorhis. *Sachems*—Louis F. Haffen, George W. Loft, Thomas F. McAvoy, Edward C. Sheehy, John J. Scannell, Charles F. Murphy, Henry W. Unger, John F. Ahearn, Asa Bird Gardiner, George W. Plunkitt, Wauhope Lynn, William Dalton, Thomas Darlington. *Secretary*—Thomas F. Smith. *Treasurer*—William Sohmer. *Sagamore*—Bryan P. Henry. *Wiskinkie*—John A. Boyle, New York City.

**Daughters of the Revolution**—*President-General*—Mrs. Clarence L. Bleakley, New York. *Recording Secretary-General*—Mrs. Henry T. Kent, Clifton Heights, Pa. *Corresponding Secretary-General*—Mrs. Fred M. Goss, Mass. *Treasurer-General*—Mrs. Frank P. Whiting, New York.

The general society was organized in the city of New York August 20, 1891. Eligibility to membership is restricted to "women who are lineal descendants of an ancestor who was a military or naval or marine officer, soldier, sailor or marine in actual service under the authority of any of the thirteen Colonies or States, or of the Continental Congress, and remained always loyal to such authority, or descendants of one who signed the Declaration of Independence, or of one who as a member of the Continental Congress or of the Congress of any of the Colonies or States, or as an official appointed by or under the authority of any such representative bodies, actually assisted in the establishment of American independence by service rendered during the war of the Revolution, becoming thereby liable to conviction of treason against the Government of Great Britain, but remaining always loyal to the authority of the Colonies or States." The office of the General Secretary is 33 West Forty-second Street, New York City.

New York State Society—*Secretary*—Miss Edith P. Gambrell, 2032 Madison Avenue, New York City.

**Sons of the American Revolution**—A society of descendants of Revolutionary patriots and others was organized in San Francisco, Cal., after the centennial parade of July 4, 1876, entitled "Sons of Revolutionary Sires," from whence was organized in 1889 the California Society Sons of the American Revolution and became part of the National Society in that year. State societies exist in forty-three States, the District of Columbia, Hawaii, and France. The total membership of the organization is about 13,000. *President-General*—Newell B. Woodruff, Syracuse, N. Y. *Vice-President-General*—Henry F. Punderson, Springfield, Mass. *Treasurer-General*—

John H. Burroughs, New York City. *Secretary-General*—A. Howard Clark, Washington, D. C.
